Brady's Civil War Journal Theodore P. Savas,2022-08-02 My greatest aim has been to advance the art of photography and to make it what I think I have a great and truthful medium of history Mathew Brady Mathew Brady and his team of assistants risked their lives to capture up close images of the fury of

the American Civil War and its aftermath Brady actually got so close to the action during the First Battle of Bull Run that he only narrowly avoided capture Brady's Civil War Journal chronicles the events of the war by showcasing a selection of Brady's moving one-of-a-kind images and describing each in terms of its significance Brady's team not only captured thousands of portraits of the combatants the generals the fighting men the sick the dead and the dying but also documented the infrastructure of the war machine itself recording images of artillery pieces the early railroads and extraordinary engineering feats The text by Theodore P Savas an expert on the Civil War adds context to Brady's memorable photographs creating an unrivaled visual account of the most costly conflict in American history as it unfolded His unique record of the war gives modern readers a fascinating insight into the terrible maelstrom that shaped our nation **Mathew Brady** George Sullivan,1994 Reproductions of historical photographs mark this look at the life and vision of Civil War photographer Mathew Brady whose work along with the work of his assistants provides a visual record of the people and events of his time

Mathew Brady Lynda Pflueger,2001 Traces the life and work of the man who devoted his life to ensuring that future generations would have vivid reminders of America's past by capturing some of the most memorable images of the American Civil War **Mathew Brady** Mary Panzer,Mathew B. Brady,2001 This volume investigating the work of a particular photographer in this case Mathew Brady comprises a 4000 word essay by an expert in the field 55 photographs presented chronologically each with a commentary and a biography of the featured photographer *Photo by Brady* Jennifer Armstrong,2005 Retells the Civil War through the eyes of photographer Mathew Brady and other field photographers as they record a brutal and deadly time Mr. Lincoln's Camera Man, Mathew B. Brady Roy Meredith,1974-01-01 This book tells of Mathew B Brady a Civil War photographer with over 300 reproductions of his work **Mathew Brady's Civil War** Wayne Youngblood,Ray Bonds,2011-08-01 Photography was still in its infancy when the Civil War broke out in 1861 yet one young man Mathew B Brady had the vision to create a detailed photographic record of the conflict which nobody imagined would last for more than a few months Brady and his associate photographers made literally thousands of images for the most part now in the care of the Library of Congress This book is intended as a tribute to these talented hardy and ardent photographers reproducing a selection of their works blemishes and all which are now recognized as the first in depth photo documentation of warfare Mathew Brady devoted himself utterly to his objective sinking all of his personal funds and heavy loans into the effort to equip his photographers with horse drawn mobile darkrooms with which they could follow the Union forces and capture their exploits throughout the four year conflict When the war was over however his customers shied away from death and destruction preferring lighter more agreeable fare and Brady's business went bust owing money to scores of creditors As with many artists before him and since the true value of his work was not fully appreciated until after his death broke and alone in 1896 *Original Photographs Taken on the Battlefields during the Civil War of the United States (Illustrations)* Francis Trevelyan Miller,2020-04-17 This is undoubtedly the most valuable collection of historic photographs in

America It is believed to be the first time that the camera was used so extensively and practically on the battle field It is the first known collection of its size on the Western Continent and it is the only witness of the scenes enacted during the greatest crisis in the annals of the American nation As a contribution to history it occupies a position that the higher art of painting or scholarly research and literal description can never usurp It records a tragedy that neither the imagination of the painter nor the skill of the historian can so dramatically relate The existence of this collection is unknown by the public at large Even while this book has been in preparation eminent photographers have pronounced it impossible declaring that photography was not sufficiently advanced at that period to prove of such practical use in War Distinguished veterans of the Civil War have informed me that they knew positively that there were no cameras in the wake of the army This incredulity of men in a position to know the truth enhances the value of the collection inasmuch that its genuineness is officially proven by the testimony of those who saw the pictures taken by the personal statement of the man who took them and by the Government Records For forty two years the original negatives have been in storage secreted from public view except as an occasional proof is drawn for some special use How these negatives came to be taken under most hazardous conditions in the storm and stress of a War that threatened to change the entire history of the world is itself an interesting historical incident Moreover it is one of the tragedies of genius While the clouds were gathering which finally broke into the Civil War in the United States there died in London one named Scott Archer a man who had found one of the great factors in civilization but died poor and before his time because he had overstrained his powers in the cause of science It was necessary to raise a subscription for his widow and the government settled upon the children a pension of fifty pounds per annum on the ground that their father was the discoverer of a scientific process of great value to the nation from which the inventor had reaped little or no benefit This was in 1857 and four years later when the American Republic became rent by a conflict of brother against brother Mathew B Brady of Washington and New York asked the permission of the Government and the protection of the Secret Service to demonstrate the practicability of Scott Archer s discovery in the severest test that the invention had ever been given Brady was an artist by temperament and gained his technical knowledge of portraiture in the rendezvous of Paris He had been interested in the discoveries of Niepce and Daguerre and Fox Talbot along the crude lines of photography but with the introduction of the collodion process of Scott Archer he accepted the science as a profession and during twenty five years of labor as a pioneer photographer took the likenesses of the political celebrities of the epoch and of eminent men and women throughout the country Brady s request was granted and he invested heavily in cameras which were made specially for the hard usage of warfare These cameras were cumbersome and were operated by what is known as the old wet plate process requiring a dark room which was carried with them onto the battle fields The experimental operations under Brady proved so successful that they attracted the immediate attention of President Lincoln General Grant and Allan Pinkerton known as Major Allen and chief of the Secret Service Equipments were hurried to all divisions of the great army and some of
