Targeting Maths Judy Tertini, Katy Pike, 2004 **Black Lives Matter vs. All Lives Matter** Abdul Karim Bangura, 2021-09-20 In the wake of the murder of George Floyd in Minneapolis the debate between proponents of Black Lives Matter and All Lives Matter has been reignited For proponents of Black Lives Matter the slogan All Lives Matter is not a call for inclusiveness but a criticism of the Black Lives Matter movement On the other hand advocates of All Lives Matter insist their slogan is about diversity and colorblindness The contributors included in *Black Lives Matter vs All Lives Matter A Multidisciplinary Primer* approach the subject from fields as wide ranging as sociology mathematics linguistics business politics and psychology to name a few This collection adds complexity and international perspectives to the debate allowing these seemingly simple quarrels over phrasing to be unpacked from many angles A refreshing variety of looks at one of the defining social movements of the last decade and the reaction to it this collection will be valuable to those seeking to understand these movements in ways beyond how they are typically framed **Targeting Maths for Victoria** Judy Tertini, 2006

Black Lives Matter in US Schools Boni Wozolek, 2022-07-01 Winner of the 2023 Outstanding Book Award presented by the Division B of the American Educational Research Association *Black Lives Matter in US Schools* critically examines the relationship between schooling and sociocultural abolitionist movements such as BlackLivesMatter Aligning with a long history of education scholars who have insisted on the enmeshed nature of schools and society the book addresses the role of various forms of curricula that perpetuate anti Blackness while simultaneously shaping Black ways of being knowing and doing While its focus tends toward issues of normalized violence *Black Lives Matter in US Schools* is equally concerned with possibilities for justice stemming from curricular change and affects like hope and love that are central to radical acts of resistance to oppression Themes range from critical literacies to IQ tests from Afro surrealism to historiography as the book strategically tacks between traditional forms of qualitative and quantitative research and more personal narratives *Black Lives Matter in US Schools* speaks powerfully against the continued onslaught of inequities in schools and their communities working to create space for forms of learning that are responsible to and for Black lives

Law Enforcement in the Age of Black Lives Matter Dwayne A. Mack, Sandra E. Weissinger, 2017-12-29 There is a reason

why people claim great respect for officers of the law the job by description is hard if not deadly It takes a certain kind of person to accept the consequences of the job seeing the very worst situations on a regular basis and knowing that one's life is on the line every hour of every day Working in law enforcement is emotionally and psychologically draining It affects these public servants both on and off the job Said plainly shaking an officers hand when you see them or posting a sign in the front yard that reads Support the Badge is lip service Even going as far as to donate money to a crowdsourcing fundraising site does little to support the long term professional development needs of officers These are surface level signs of solidarity and do little in terms of showing respect for the job and those who do it For those who want to do more this text provides reasons and a rationale for doing better by these public servants Showing respect does not mean that one agrees with whatever another person or institution claims to be the right way Showing respect and admiration means that we charge individuals to live up to their fullest potentials and integrate innovation wherever possible In the case of policing in the era of Black Lives Matters policing as usual simply is not an option any longer It is disrespectful to both the officers and those who are being policed to rest on the laurels of past policing tactics As we enter a time period in which police interactions are recorded dash cams or body cams for example and new populations are being targeted Latinx people there is much to learn about what is working and what is not
