## **Mating And Marriage:**

Dating, Mating, and Marriage Martin King Whyte, 2018-02-06 This book examines the American system of dating mate choice and marriage. It analyzes a wide range of established ideas about how dating and mate choice are changing and identifies changes and continuities in premarital experiences in twentieth century America. A variety of ideas about what sorts of dating and premarital experiences will make for a successful marriage are tested and for the most part disproven, raising serious doubts about our fundamental assumption that dating experience helps individuals make a wise choice for a future mate. Marital success turns out to depend not so much on premarital experiences or on the social background characteristics of couples such as race, religion, and social class as on the way in which couples structure their day to day marital life together. Through its detailed examination of a wide range of ideas and predictions about dating, mating, and marriage, and through its dramatic findings, Dating, Mating, and Marriage challenges many previous assumptions and conclusions about the fate of American marriage and elevates our knowledge of the American system of mate choice to a higher level.

**Mating and Marriage** Vernon Reynolds, John Kellett, 1991 Perspectives from the fields of zoology, biological anthropology, social anthropology, and sociology frame the discussion in this fascinating new study of mating and marriage. Both animals and humans engage in mating; however, only humans marry each other. Is marriage an outgrowth at the cultural level of the kinds of mating habits observed in animals, or is it inherently different? This thoughtful volume presents stimulating new interdisciplinary approaches to this study, indicates the main problems, and explores promising possibilities for a synthesis.

Adams, James Zimmerhoff, 2017-09-05 As FAR AS we know this is the first time anyone has written a book attempting to put mate selection on a sensible basis despite the fact that sooner or later almost everybody selects one A good many people resent the idea of an outsider telling them how they should pick a mate They think it smacks of meddling Marriage is something sacred and personal It should not be done according to rules We heartily sympathize Unfortunately however marriages are not made in Heaven Usually people marry by hunch or impulse or because their parents think it is a good match or because they get themselves so deeply involved romantically that marrying seems the only proper thing to do Too frequently such methods merely mess up a couple of people s lives More than a third of all the millions of marriages undertaken in the last ten years are in trouble Many are already dissolved Many more soon will be A great deal of research and counseling has now been done in the field of marriage and the findings validated At Penn State for example hundreds of couples who were tested before marriage at the Marriage Counseling Service are checked periodically after marriage to find how they are making out Of all the marriages which the service predicted would be successful not one has yet ended in divorce or separation Most of the people who went ahead despite the clinic s cautions are already in serious trouble or have

been divorced As a result of many such investigations reliable information is 11 Foreword available on the kinds of people who make the best mates and on the causes of marriage success and failure In this book we have tried to include those findings which should be most helpful and interesting to all people involved in love or marriage but particularly to people who sooner or later will be taking unto themselves a mate It is not our intention to lay down a set of rules for people to follow But we hope that after reading this book you will be more enlightened in your hunches than you might be otherwise and be a much happier and more desirable mate yourself
