our engagement with technology in a way that resonates with 1960s counterculture As challengers of the status quo s technological underpinnings Luke Skywalker Ellen Ripley and Sarah Connor echo the once popular social criticism of philosopher Herbert Marcuse and speak directly to the concerns of people living in a technologically complex society The films of Lucas Scott and Cameron made money but also made us think about the world we live in

The Myth of Persephone in Girls' Fantasy Literature Holly Blackford,2012-04-23 In this book Blackford historicizes the appeal of the Persephone myth in the nineteenth century and traces figurations of Persephone Demeter and Hades throughout girls literature of the nineteenth and twentieth centuries She illuminates developmental patterns and anxieties in E T A Hoffmann s Nutcracker and Mouse King Louisa May Alcott s Little Women Emily Bront s Wuthering Heights J M Barrie s Peter and Wendy Frances Hodgson Burnett s The Secret Garden E B White s Charlotte s Web J K Rowling s Harry Potter and the Chamber of Secrets Stephenie Meyer s Twilight and Neil Gaiman s Coraline The story of the young goddess s separation from her mother and abduction into the underworld is at root an expression of ambivalence about female development expressed in the various Neverlands through which female protagonists cycle and negotiate a partial return to earth The myth conveys the role of

female development in the perpetuation and renewal of humankind coordinating natural and cultural orders through a hieros gamos fertility coupling rite Meanwhile popular novels such as Twilight and Coraline are paradoxically fresh because they recycle goddesses from myths as old as the seasons With this book Blackford offers a consideration of how literature for the young squares with broader canons how classics flexibly and uniquely speak through novels that enjoy broad appeal and how female traditions are embedded in novels by both men and women **Global Information Infrastructure** Andrzej Targowski, 1996-01-01 Global Information Infrastructure The Birth Vision and Architecture addresses three levels of the information superhighway in terms of their information content and technological implementations This book is a futuristic view of the major components of the new global world Composite Materials Roderick H.
