**Reports of Proceedings ...** Boston (Mass.). City Council,1891      **The Undivided Self** David Charles,2021-03-16  
Aristotle initiated the systematic investigation of perception the emotions memory desire and action developing his own account of these phenomena and their interconnection The Undivided Self aims to gain a philosophical understanding of his views and to examine how far they withstand critical scrutiny Aristotle s account it is argued constitutes a philosophically live alternative to conventional post Cartesian thinking about psychological phenomena and their place in a material world Charles offers a way to dissolve rather than solve the mind body problem we have inherited      **To-day** ,1898      *The American Issue* ,1912      **Proceedings of the Boston Area Colloquium in Ancient Philosophy** John J. Cleary,Gary Gurtler,2009-05-20 This volume contains papers and commentaries presented to the Boston Area Colloquium in Ancient Philosophy during the academic year 2007 8 The papers discuss a wide range of topics related to Plato and Aristotle On Plato topics include false pleasures in the Philebus the tripartite soul in the Republic and rhetoric in the Phaedrus and on Aristotle the relation of the physical and psychological in De Anima of virtue and happiness in the Ethics of body and nature in the Physics and the role of pros hen in the Metaphysics One other paper argues for the Aristotelian origin of Stoic determinism

**Justice Matters** Mona Sue Weissmark,2004-01-29 In the fall of 1992 in a small room in Boston MA an extraordinary meeting took place For the first time the sons and daughters of Holocaust victims met face to face with the children of Nazis for a fascinating research project to discuss the intersections of their pasts and the painful legacies that history has imposed on them Taking that remarkable gathering as its starting point Justice Matters illustrates how the psychology of hatred and ethnic resentments is passed from generation to generation Psychologist Mona Weissmark herself the child of Holocaust survivors argues that justice is profoundly shaped by emotional responses In her in depth study of the legacy encountered by these children Weissmark found not surprisingly that in the face of unjust treatment the natural response is resentment and deep anger and in most cases an overwhelming need for revenge Weissmark argues that while legal systems offer a structured means for redressing injustice they have rarely addressed the emotional pain which left unresolved is then passed along to the next generation leading to entrenched ethnic tension and group conflict In the grim litany of twentieth century genocides few events cut a broader and more lasting swath through humanity than the Holocaust How then would the offspring of Nazis and survivors react to the idea of reestablishing a relationship Could they talk to each other without open hostility Could they even attempt to imagine the experiences and outlook of the other Would they be willing to abandon their self definition as aggrieved victims as a means of moving forward Central to the perspectives of each group Weissmark found were stories searing anecdotes passed from parent to grandchild from aunt to nephew which personalized with singular intensity the experience She describes how these stories or legacies transmit moral values beliefs and emotions and thus freeze the past into place For instance cdxmerged that most children of Nazis reported their parents told them stories about

the war whereas children of survivors reported their parents told them stories about the Holocaust The daughter of a survivor said I didn't even know there was a war until I was a teenager I didn't even know fifty million people were killed during the war I thought just six million Jews were killed While the daughter of a Nazi officer recalled I didn't know about the concentration camps until I was in my teens First I heard about the Nazi party Then I heard stories about the war about bombs falling or about not having food At a time when the political arena is saturated with talk of justice tribunals reparations and revenge management Justice Matters provides valuable insights into the aftermath of ethnic and religious conflicts around the world from Rwanda to the Balkans from Northern Ireland to the Middle East The stories recounted here and the lessons they offer have universal applications for any divided society determined not to let the ghosts of the past determine the future

**Woman's Devotion. A Novel** Julia Cecilia Stretton, 1855      **Being and Intelligibility** Albert Peter Pacelli, 2017-10-03

What do we mean when we say that something is What is the meaning of human experience These two most elementary philosophical questions have perplexed thinkers for thousands of years Being and Intelligibility explores them from the simple premise that all entities are essentially logical in their being The book develops its three central theses that the beingness of beings called Being and the intelligibility of Being are one and the same that nothingness i.e. absolute not Being is self contradictory and unintelligible and therefore Being is logically necessary and that the fullness of human rational experience cannot be explained in materially reducible terms and requires recognition of the existence of transcendent reality which includes God as self grounding good will moral obligation and freedom and the souls of men Being and Intelligibility thoroughly investigates the implications of the essential logicity of Being including that human Being shows itself to itself from within itself as a substantive persistent morally obligated unity among the ordered manifold of its life experiences whose essential Being is orientation toward God      **The Violence of Modernity** Debarati Sanyal, 2020-03-03

The Violence of Modernity turns to Charles Baudelaire one of the most canonical figures of literary modernism in order to reclaim an aesthetic legacy for ethical inquiry and historical critique Works of modern literature are commonly theorized as symptomatic responses to the trauma of history In a climate that tends to privilege crisis over critique Debarati Sanyal argues that it is urgent to rethink literary experience in terms that recall its contestatory potential Examining Baudelaire's poems afresh she shifts the focus of critical attention toward an account of modernism as an active engagement with violence specifically the violence of history in nineteenth century France Sanyal analyzes a literary current that uses the traditional hallmarks of modernism irony intertextuality self reflexivity and formalism to challenge the historical violence of modernity Baudelaire and the committed ironists writing in his wake teach us how to read and resist the violence of history and thereby to challenge the melancholy tenor of our contemporary wound culture In a series of provocative readings Sanyal presents Baudelaire's poetry as an aesthetic form that contests historical violence through rhetorical strategies of complicity counterviolence and critique The book develops a new account of Baudelaire's significance as a modernist by dislodging him both from his traditional status as a practitioner of art for art's sake and from his more recent incarnation as the poet of trauma Following her extended analysis of Baudelaire's poetry Sanyal in later chapters considers a number of authors

influenced by his strategies including Rachilde Virginie Despentès Albert Camus and Jean Paul Sartre to examine the relevance of their interventions for our current climate of trauma and terror The result is a study that underscores how Baudelaire's legacy continues to energize literary engagements with the violence of modernity
