Maurice Prendergast Nancy Mowll Mathews, 1990 Admirers of the work of Maurice Prendergast will welcome this richly illustrated monograph Spanning the artist's entire career the volume interweaves a wealth of information on particular paintings with the intriguing story of Prendergast's life This monograph reflects the many aspects of the artist's genius from his early Impressionist street and beach scenes to his middle phase of pointillist still lifes and his later colorful more flattened figural paintings *Maurice Prendergast* Richard J. Wattenmaker, Maurice Prendergast, 1994 Maurice Prendergast's joyous light filled canvases have made him one of America's best loved painters His unique perception endowed his sensuous experiments in pattern and textures in atmosphere and light with a stature achieved by few artists Working in the last decade of the nineteenth century and the first several decades of the twentieth he perfected his distinctive style becoming one of the great colorists of all time This major reappraisal contributes a wealth of new scholarship Based on letters sketchbooks contemporary articles and reviews it also brings to life an exciting and pivotal era for Prendergast was in the forefront of modern painting in America He exhibited as one of The Eight becoming known as one of the Red Hots and participated in the Armory Show His experiences including living and working in Europe allowed him to draw on a wide variety of sources including Cezanne Signac the Renaissance Italian painter and Watteau Out of these he created his own truly unique idiom **Maurice B. Maurice Brazil Prendergast 1858 1924 was an American Post Impressionist artist who worked in oil watercolor and monotype He exhibited as a member of The Eight though the delicacy of his compositions and mosaic like beauty of his style differed from the artistic intentions and philosophy of the group Prendergast's work was strongly associated from the beginning with leisurely scenes set on beaches and in parks His early work was mostly in watercolor or monotype and he produced over two hundred monotypes between 1895 and 1902 He also experimented with oil painting in the 1890s but did not focus on that medium until the early 1900s He developed early in his career and continued throughout his life to elaborate a highly personal style with boldly contrasting jewel like colors and flattened pattern like forms rhythmically arranged on a canvas Forms were radically simplified and presented in flat areas of bright color His paintings have been aptly described as tapestry like or resembling mosaics Prendergast exhibited at the Macbeth Galleries in 1908 with the short lived association of artists known as The Eight because he supported their protest against the academic bias and restrictive exhibition policies of the powerful conservative National Academy of Design He believed in a no jury no prizes openness that would allow independent or unconventional artists greater opportunities to find a wider appreciative audience for their work Ironically this controversial exhibition which acquired legendary status in American art history is seen as a seminal moment in the public response to Ashcan realism as that form of gritty urban representational art was the style practiced by five of the participants Henri Sloan Luks Shinn and Glackens but Prendergast has nothing in common in style or content with that school of painting Prendergast was far more a Modernist than any of the other seven members of The Eight His ties to The Eight did not necessarily help his reputation in the long run Prendergast's irrevocable association with The Eight left him stylistically isolated in genealogies of modern art A true independent he fits into no particular category of modern American art
