America's China Gamble Paul J. Smith, 2025-07-15 This timely book provides a broad but incisive overview of US policy toward the People's Republic of China from 1949 until the present Paul J Smith argues that any conflict or war between the two nations would have devastating global consequences proposing a mutually beneficial path forward *Incredible Deception* Gene Ligotti, 2014-12-30 Identical twins the idea alone stirs unique thoughts of something special because identical twins are exceptional in this complicated world of ours Originally designated to be one person the original cell split and two separate but identical human beings were the result Identical in appearance but are they identical in their mind heart and soul Certainly nature vs nurturing comes into play but really deep down how alike are they Although the initial setting for this story is the Catskill Mountains in New York Ligotti takes you to the big cities of New York City New Orleans and Houston and then on to an Afghanistan war zone before returning you where it all started a horse farm in the Catskill Mountains This story is about identical twins who part company in their late teens and live separate and different lives Will the way they live change the way they think and act or was it predetermined by genetics How far apart from their oneness will they be taken *Incredible Deception* will guide you through each of their separate lives and then bring them together in a spell binding and dramatic conclusion where one twin forces himself to return to the home he hated and to a woman his wife that he doesn't know It's a must read for those who love a love story and readers of suspense thrillers **McAllister Gambles (A Rem McAllister Western)** Chisholm Matt (author), 1901 **Crime, Addiction and the Regulation of Gambling** A. Spapens, Cyrille J.C.F. Fijnaut, Alan Littler, 2009-02-28 This is the third book to be produced by members of the Gambling Research Group associated with Tilburg University's Faculty of Law concerning issues closely connected with the debate on the gambling policies that the European Union and its Member States are pursuing The first book Alan Littler and Cyrille Fijnaut eds *The Regulation of Gambling European and National Perspectives* Leiden Martinus Nijhoff Publishers 2007 mainly considers the legal aspects of gambling regulation at both European Union and Member State level The second book Tom Coryn Cyrille Fijnaut and Alan Littler eds *Economic Aspects of Gambling Regulation EU and US Perspectives* Leiden Martinus Nijhoff Publishers 2008 looks at research conducted in the United States and the European Union into the costs and benefits involved in the regulation of gambling The contributions to this third book turn the spotlight on two social problems crime and addiction both of which play a significant part in the institutional debate in the European Union concerning whether gambling should be treated as a service that like other services should be subject to the laws universally applicable to the internal market This volume is primarily devoted to the research that has been conducted in several Member States into the problems of gambling related crime and addiction It also examines developments at EU level What policy is the European Commission currently pursuing And what stance does the European Court of Justice take these days Crime and addiction problems that can arise in the context of online gambling and at possible ways of keeping them under

control are also examined *A Crash of Rhinos* Paisley Rekdal,2000 In these quizzically probing and provocative poems atoms and torture tattoos and laundromats mug shots the theory of light and such personalities as Joe Louis and Bruce Lee join in shaping a simultaneously personal and historical narrative of love family and desire The tension between the public and the private saturates these poems with a breathless energy that carries the reader through Rekdal's self aware depiction of American culture and romance complete with Harlequin romance novels and an account of her parents courtship Though Rekdal delights in turning traditional images of love upside down what she finally offers is a grateful and graceful view of humanity which convinces us that as she says in *Convocation* Nothing is a single moment No private event lacks history

Blood on McAllister Matt Chisholm,2011-09-28 This was one gunfight it looked like nobody was going to win Rem McAllister had been in plenty of tough corners in the course of his violent career But this was one of the toughest He stood facing the town's local gun wizard and his pals revolver in hand He reckoned he could take him on and win hell he'd licked better men in his time But what made this particular shoot out so special was the fact that an assassin was waiting to put a bullet through McAllister and his opponent And McAllister knew it knew too that he was going to need all his courage speed and skill to get out of this situation alive Matt Chisholm master of authentic Western excitement has written a real McAllister adventure that's a non stop breathtaking crazy saga of violence and mayhem from beginning to end *The UAW's Southern Gamble* Stephen J. Silvia,2023-05-15 The UAW's Southern Gamble is the first in depth assessment of the United Auto Workers efforts to organize foreign vehicle plants Daimler Chrysler Mercedes Benz Nissan and Volkswagen in the American South since 1989 an era when union membership declined precipitously Stephen J Silvia chronicles transnational union cooperation between the UAW and its counterparts in Brazil France Germany and Japan and documents the development of employer strategies that have proven increasingly effective at thwarting unionization Silvia shows that when organizing unions must now fight on three fronts at the worksite in the corporate boardroom and in the political realm The UAW's Southern Gamble makes clear that the UAW's failed campaigns in the South can teach hard won lessons about challenging the structural and legal roadblocks to union participation and effectively organizing workers within and beyond the auto industry
