Modeling as Negotiating Kenneth L. Kraemer, 1983 **Modeling as Negotiating** William H. Dutton, Kenneth L. Kraemer, 1985 This book presents a perspective on the role of modeling that has relevance to both practice and theory The authors provide an empirical assessment of the role of computer models in urban policy decisions presenting a survey and four detailed case studies focusing on the use of a specific class of computer based fiscal impact models in American logical governments The findings are interpreted in light of this perspective on the social and political dynamics of models in the policy process From this perspective called consensus modeling a model is viewed as a tool for facilitating negotiation and thereby consensus in the policymaking process *Information Systems in the Political World* K. V. Andersen, 1995 This text investigates the nature of impacts of information systems on the political world in the First World countries The overall aim is to provide a framework on how to analyze implications of information technology IT on the political world and vice versa This is illustrated by a study of economic modelling at the central and local levels of government Emerging Information Technologies for Competitive Advantage and Economic Development Information Resources Management Association. International Conference, 1992-01-01 Keeping up with constant changes and innovations puts a lot of pressure on information providers and users to continuously upgrade their knowledge and skill This change means being flexible enough to recognize that the knowledge you receive today must be constantly updated This book will provide readers with the latest research findings and managerial experiences on a variety of technological innovations of IT *Global E-Government: Theory, Applications and Benchmarking* Al-Hakim, Latif, 2006-09-30 Interest in e government both in industry and in academics has grown rapidly over the past decade This book provides helpful examples from practitioners and managers involving real life applications academics and researchers contribute theoretical insights Provided by publisher **Making Projects Critical** Damian Hodgson, Svetlana Cicmil, 2006-04-20 Making Projects Critical is an edited collection contributed by a range of international scholars linking the area of project management with critical management perspectives Challenging recent debates on inherent problems in project management the text considers project management within a wider organizational and societal context *Proceedings of the 2000 Northeastern Recreation Research Symposium, April 2-4, 2000, The Sagamore on Lake George in Bolton Landing, New York*, 2000 International Negotiations: A Bibliography Amos Lakos, 2019-02-22 The international system comprises a plurality of sovereign states often pursuing conflicting interests One means of resolving or managing conflicts between those states is diplomatic bargaining or negotiation In the last fifteen years the study of negotiation has attracted researchers from various disciplines in the social sciences and the vol **Public Administration in an Information Age** I. Th. M. Snellen, Wim B. H. J. van de Donk, 1998 This book is a joint effort of researchers who have been involved in research projects and programmes that have been trying to chart and reflect upon the implications of Information and Communication Technologies ICTs for Public Administration Tilburg Rotterdam Kassel Irvine

Nottingham Glasgow Since the fifties computers had largely facilitated and the transformation of the minimal Night Watch state into the modern Welfare state through their contribution to their effectivity productivity and efficiency In most Handbooks of Public Administration computers are seen as neutral instruments and most of the time the role of computer technologies in the transformation of public administration is completely neglected This deafening silence is a great contrast with the way ICT s are actually changing public administration The faster the developments in a field of study are the more difficult it is to let the theories related to that field of study mature In such circumstances most statements will remain provisional and context dependent 25 years of research in Irvine California and Kassel Germany and more than 10 years of research in Tilburg Rotterdam The Netherlands and about seven years of research in Glasgow Nottingham the United Kingdom nonetheless enables the presentation of a modest image of public administration as it is entering the information age Researchers in each of these groups have nevertheless not stopped trying to phrase theories about the implications of informatization for public administration with a more or less large scope that are robust in different contexts and over longer periods of time These results and theories covering a broad set of elements of the body of knowledge of public administration are presented in this volume As the authors try to demonstrate in this book informatization developments in public administration do not only challenge the existing body of knowledge of the public administration discipline but they are also opening up new perspectives and paradigms for the study of public administration

Information Technology and Computer Applications in Public Administration G.
