Necessity Among Us The Owen Sound General And Marine Hospital 1891 1985:

Bibliography of the History of Medicine, 1993 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1992 History of Medicine Jacalyn Duffin, 1999-01-01 Examining discoveries and disasters ideas patients and diseases in fields from anatomy to pharmacology to surgery this is a highly accessible overview of medical history as a vibrant component of intellectual and cultural history The Lord for the Body James William Opp, 2005 In the early 1920s English Canadians were captivated by the urban campaigns of faith healing evangelists Crowds squeezed into local arenas to witness the afflicted slain in the spirit casting away braces and crutches Professional faith healers although denounced by critics as promoting mass hypnotism gained notoriety and followers in their call for people to choose the Lord for the Body In his innovative work James Opp explores the cultural practice of Protestant faith healing in Canada from its Victorian roots as an informal network of women sharing testimonies to its culmination in the organized professional campaigns of the twentieth century Framing the phenomenon of divine healing as a history of the body Opp provides a unique window onto the intersection of religion and medicine From newspaper accounts to criminal proceedings The Lord for the Body traces the reactions of ministers doctors and state authorities who denounced faith healing as dangerous to spiritual and physical health Undaunted by such attacks the faithful continued to seek healing through prayer a practice that operated as a powerful devotional observance and a point of resistance to modern medicine *Medicine by Design* Annmarie Adams, In the history of medicine hospitals are usually seen as passive reflections of advances in medical knowledge and technology In *Medicine by Design* Annmarie Adams challenges these assumptions examining how hospital design influenced the development of twentieth century medicine and demonstrating the importance of these specialized buildings in the history of architecture At the center of this work is Montreal's landmark Royal Victoria Hospital built in 1893 Drawing on a wide range of visual and textual sources Adams uses the Royal Vic along with other hospitals built or modified over the next fifty years to explore critical issues in architecture and medicine the role of gender and class in both fields the transformation of patients into consumers the introduction of new medical concepts and technologies and the use of domestic architecture and regionally inspired imagery to soften the jarring impact of high tech medicine Identifying the roles played by architects in medical history and those played by patients doctors nurses and other medical professionals in the design of hospitals Adams also links architectural spaces to everyday hospital activities from meal preparation to the ways in which patients entered the hospital and awaited treatment Methodologically and conceptually innovative *Medicine by Design* makes a significant contribution to the histories of both architectural and medical practices in the twentieth century Annmarie Adams is William C Macdonald Professor of Architecture at McGill University and the author of *Architecture in the Family Way Doctors Houses and Women 1870 1900* and coauthor of *Designing Women Gender and the Architectural Profession* **For Patients of Moderate Means** David Paul Gagan, Rosemary Ruth Gagan, 2002 Between 1890 and 1910 scientific and technological

innovation transformed the custodial Victorian charity hospital for the sick poor into the primary source of effective acute medical care for all members of society For the next half century hospitals coped with relentlessly escalating demands for accessibility by both medical indigents and a new clientele of patients able and willing to pay for hospitalization With limited statutory revenues and unpredictable voluntary support hospitals taxed paying patients through ever increasing user fees offering in return privacy comfort service and medical attendance in private and semi private wards that were more appealing to middle class patients than the stark and grudging service of the public wards

Canadian History: Confederation to the present Martin Brook Taylor, Doug Owram, 1994-01-01 In these two volumes which replace the Reader's Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship Cover

Andrew Fernando Holmes Richard W. Vaudry, 2020-03-03 Physician surgeon natural historian educator Protestant evangelical Andrew Fernando Holmes's name is synonymous with the McGill medical faculty and with the discovery of a congenital heart malformation known as the Holmes heart He also played a critical role in the creation of a scientific culture in early nineteenth century Montreal Born in captivity at Cadiz Spain Holmes immigrated to Lower Canada in the first decade of the nineteenth century He arrived in a province that was experiencing profound social economic and cultural change as the result of a long process of integration into the British Atlantic world A transatlantic perspective therefore undergirds this biography from an exploration of how Holmes's family members were participants in an Atlantic world of trade and consumption to explaining how his educational experiences at Edinburgh and Paris informed his approach to the practice of medicine medical education and medical politics This fascinating biography also examines Holmes's deepest religious convictions positioning them at the centre of his work and life

Struggle to Serve William G. Godfrey, 2004 The first half of the twentieth century witnessed the creation of Canada's modern hospital system While it is often assumed that this process was inevitable many small communities had difficulty creating and maintaining public hospitals In an era of government cutbacks in health services and comparisons with a more privatized American system W G Godfrey offers a timely examination of Canada's hospital experience showing that it was a slow journey from largely privately funded to increasingly governmentally funded institutions Godfrey focuses on one hospital and the communities it served but also provides an overview of local provincial and federal hospital policies revising the sometimes rose tinted picture of public and private acceptance and generosity He explores the relationship between the hospital's urban and rural constituencies and its French and English speaking patients demonstrating that increasing patient numbers and changing funding sources encouraged substantial growth in hospital services from 1895 to 1953 He details how one community's understanding of the role of the hospital changed over time to match that of hospital advocates board members and support groups such as the Ladies Aid demonstrating that hospital history is as much a study of politics and community persuasion as it is of internal therapeutic advances

Giving Birth in Canada, 1900-1950 Wendy

Mitchinson,2002-01-01 A fascinating account of childbirth rituals in the first half of the twentieth century from the initial diagnosis of pregnancy through childbirth who was present and where it took place to the definition of what constituted a normal birth
