 Ohrazda,Andrew Van Schaack,David A. Wiley,2006-04-21 M David Merrill has been active in the field of instructional
 technology for almost 40 years His contributions range from basic instructional principles and instructional design theory to
 development and implementation of learning environments *Innovations in Instructional Technology* is a collection of original
 essays written by leading scholars and practitioners who have worked with and been inspired by Professor Merrill The
 chapters in this book represent a sampling of key innovations in the instructional technology field and include knowledge of
 how people learn how people solve problems how designers conceptualize learning spaces how teachers implement learning
 activities and how evaluators assess outcomes This volume is divided into five basic areas of research in instructional
 technology mirroring the diverse contributions of Dr Merrill s work four chapters on learning objects and the notion of
 reusable components three chapters that discuss fundamental aspects of learning and the design of instruction three
 chapters that address innovations in the area of assessment evaluation and model validation three chapters that concern
 theories of learning and instruction and three chapters on instructional design practice The book concludes with a chapter
 outlining Dr Merrill s responses to challenges comments and questions on the future of the field ranging from the notion of
 initial passions with regard to instructional technology to connections between theory and practice to questions of
 conscience from an expert panel comprised of many of the contributors to the book As Dave Merrill s work will continue to be
