Persons And Values Selected Papers:

Selected Papers ,1991 Selected Papers: Persons and values John Leslie Mackie,1985 *Liberty, Games and Contracts* Malcolm Murray,2016-05-06 Jan Narveson is one of the most significant contemporary defenders of the libertarian political position Unlike other libertarians who typically defend their view with reference to natural rights or an appeal to utilitarianism Narveson s main contribution has been to offer a philosophical defence of libertarianism based on a Hobbesian individualist contractarian ethic Critiques of Narveson s contractarian libertarianism fall into three categories those that reject contractarian moral theory those that reject any link between contractarianism and libertarianism and those that accuse libertarians of conflating liberty with property In this book Malcolm Murray brings together the most significant of Narveson s critics and presents their work alongside replies by Jan Narveson **Concepts of Person in Religion and Thought** Hans G. Kippenberg,Yme B. Kuiper,Andy F. Sanders,2012-10-25 Since its founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline **The Kpim of Social Order** George Uzoma Ukagba,Des O. Obi,Iks J. Nwankwor,2013-02-08 Frequently overlooked in the search of knowing and acting wisely are some important philosophical and cultural ideas and questions The kpim of Social Order boldly captures such ideas and questions for awareness through critical thinking The current volume in the Kpim Book Series makes the point that for a systematic analysis and significance of Social Order to be attained we need to ask What is the kpim or central core of Social Order of things Where does the deepest layer notion symbolism reality and application of social order programs human rights institutions communities diplomacy uprising social asset social power policy action inter culturalism global forces and all else lie How can we reach and understand the innermost part of Social Order in the modern world By gathering articles from seasoned experienced and emerged scholars from various backgrounds the book explores deep rooted questions touching on African context and related societies The refreshing perspectives analyses deep reflections vigorous arguments and representations shown by the essays are distinctive and have been referred to as a comprehensive reader in the season of inquiry meaning and significance of social order in the contemporary time This is a book no one should ignore Students scholars researchers universities colleges educationists institutions policy makers governments legislatures agencies labour unions civil society organizations occupy movements religious groups entrepreneurs and the general public will find this book as an asset and a must read The kpim of Social Order is therefore written out of the critical need to fill the gap for a decisive knowledge society in the modern world *Evolution and the Foundations of Ethics* John Mizzoni,2017-02-03 If human biological evolution is part of our worldview then how do

commonplace notions of ethics fit in To ask the question what does evolution imply about ethics we must first be clear about what we mean by evolution Evolution and the Foundations of Ethics discusses four models of evolution represented by Darwin Dawkins Gould and Haught We must also be clear about what we mean by ethics Do we mean metaethics If so which variety With metaethical theories such as Error Theory Expressivism Moral Relativism and Moral Realism theorists are attempting to explain the general nature status and origins of ethics In the first four chapters of this book Part I John Mizzoni examines how metaethical theories fit with evolution Next in asking about the implications of evolution for ethics do we mean normative ethics Theorists who work with normative ethical theories such as Virtue Ethics Natural Law Ethics Social Contract Ethics Utilitarian Ethics Deontological Ethics and Ethics of Care articulate and defend a normative ethics that people can and do use in a practical way when deliberating about specific actions rules and policies The next six chapters Part II look at how normative ethical theories fit with evolution A full reckoning of ethics and evolution demands that we consider the range of ethical elements both metaethical and normative Thus this book looks at what several different models of evolution imply about four metaethical theories and six normative ethical theories This book will be of interest to scholars interested in the intersection of evolutionary theory and ethical theory

Theories of Justice and Rights J. L.

Mackie,2024-08-28 John Leslie Mackie 1917 1981 was one of the most influential philosophers of the twentieth century His published works spanned many areas but he is not well known as a political philosopher In the late 1970s however Mackie turned his attention to issues concerning justice In a series of writings Mackie built a case for a unique right based approach to political philosophy in part by delivering incisive critiques of theories dominant at the time His most comprehensive work in this area is Theories of Justice and Rights a previously unpublished manuscript that finally sees the light of day in this volume Also included are two of Mackie s previously published papers written during the same period Can There Be a Right Based Moral Theory 1978 and Rights Utility and External Costs 1985 Some of Mackie s arguments in these works draw on the metaethical conclusions in his seminal book Ethics Inventing Right and Wrong 1977 The editorial introduction canvasses the initially puzzling relation between Mackie s moral error theory and his account of justice and rights addresses some exegetical queries and connects to present day debates In addition the introduction provides summaries of Mackie s theory of rights his critique of Rawls s liberalism and of Nozick s libertarianism

The Realizations of the Self Andrea

Altobrando,Takuya Niikawa,Richard Stone,2018-09-11 Recent discussions of self realization have devolved into unscientific theories of self help However this vague and often misused concept is connected to many important individual and social problems As long as its meaning remains unclear it can be abused for social political and commercial malpractices To combat this issue this book shares perspectives from scholars of various philosophical traditions Each chapter takes new steps in asking what the meaning of self realization is both in terms of what it means to understand who or what one is and also in terms of how one can or should fulfill oneself The conceptual elucidations achieved from both theoretical and practical

perspectives allow for a more mature awareness of how to deal with discourses on self realization and in any case can help to demystify the subject The Philosophy of Free Will Paul Russell, Oisín Deery, 2013-04-04 This collection provides a

selection of the most essential contributions to the contemporary free will debate Among the issues discussed and debated are skepticism and naturalism alternate possibilities the consequence argument libertarian metaphysics illusionism and revisionism optimism and pessimism neuroscience and free will and experimental philosophy **Permissible Killing**

Suzanne Uniacke, 1994 Do individuals have a positive right of self defence And if so what are the limits of this right Under what conditions if any does this use of force extend to the defence of others These are some of the issues explored by Dr Uniacke in this comprehensive philosophical discussion of the principles relevant to self defence as a moral and legal justification of homicide She establishes a unitary right of self defence and defence of others one which grounds the permissibility of the use of necessary and proportionate defensive force against culpable and non culpable active and passive unjust threats Particular topics discussed include the nature of moral and legal justification and excuse natural law justifications of homicide in self defence the Principle of Double Effect and the claim that homicide in self defence is justified as unintended killing and the question of self preferential killing This is a lucid and sophisticated account of the complex notion of justification revolving around a critical discussion of recent trends in the law of self defence **Rethinking**

Responsibility K. E. Boxer, 2013-02-07 This book explores moral responsibility and whether it is compatible with causal determinism Its author K E Boxer started out with deeply incompatibilist intuitions but became dissatisfied with the arguments that she and other contemporary incompatibilists marshalled in support of this view Rethinking Responsibility has evolved out of her search for a more adequate argument Boxer suggests that if incompatibilists are to be in a position to provide such an argument they must shift their attention away from metaphysics and back to what H L A Hart deemed the primary sense of the concept of moral responsibility viz the sense of liability To say that an agent is morally responsible for an action in this sense is to say that she satisfies the necessary causal and capacity conditions for desert of certain forms of response If incompatibilists are to show that among those conditions is a requirement for some form of ultimate responsibility incompatible with determinism they must first clarify their understanding of moral desert and the moral responses associated with attributions of responsibility The book examines different possible understandings of moral liability responsibility based on different possible accounts of the nature of moral blame the moral desert of punishment and the relation between desert of moral blame and desert of punishment A focal point throughout the discussion is whether on any of the possible understandings moral responsibility would require agents to be ultimately responsible for their actions in a way incompatible with causal determinism Other issues discussed include what renders a defect a moral defect or a particular criticism a moral criticism whether moral obligations are act governing or will governing the connection between the moral reactive attitudes and the retributive sentiments the relevance of the capacity to participate in ordinary

interpersonal relationships and whether it is possible to understand the moral desert of punishment in communicative terms Boxer concludes that incompatibilists face an unenviable choice either they must adopt an understanding of the moral desert of punishment that many find morally problematic or they must abandon incompatibilism **Technical Paper** ,1985

Sessional Papers Great Britain. Parliament. House of Commons,1901 **Technical Paper (United States. Bureau of the Census).** ,1984 **Moral Desert** Howard Simmons,2010-02-23 In Moral Desert Howard Simmons notes that the idea that we deserve to be praised or rewarded for good behavior and blamed or punished when we act badly seems central to everyone's moral deliberation and practices Simmons subjects this assumption to critical scrutiny He argues that in a wide range of cases it is almost impossible to know the extent of people's moral responsibility and indeed that it may be a complete delusion He attacks the still popular theory of retributive punishment with special reference to the views of Peter French and J Angelo Corlett Simmons does not conclude that punishment is always unjustified but insists that any justification should relate to its real world consequences State punishment should be inflicted according to strict consequentialist precepts and the author provides systematic principles for determining an appropriate sentence and for deciding when offenders should be excused He also considers the implications of his views for distributive justice and personal morality *Moral Skepticism and Legal Reasoning* Jeffrey Denys Goldsworthy,1991 **Engineering Multi-Agent Systems** Amal El Fallah-Seghrouchni,Alessandro Ricci,Tran Cao Son,2018-05-14 This book constitutes the revised and selected papers from the 5th International Workshop on Engineering Multi Agent Systems held in Sao Paulo Brazil in May 2018 in conjunction with AAMAS 2018 The 11 full papers presented in this volume were carefully reviewed and selected from 18 submissions The book contains also the best paper of the workshop that has been published previously in another LNCS volume The EMAS workshop focusses on the cross fertilisation of ideas and experiences in the various fields with the aim to enhance knowledge and expertise in MAS engineering to improve the state of the art to define new directions for MAS engineering to investigate how established methodologies for engineering and large scale and open MAS can be adapted Reports from Select Committees of the House of Lords and Evidence Great Britain.
