The U.S. Women's Jury Movements and Strategic Adaptation Holly J. McCammon, 2012-04-30 When women won the vote in the United States in 1920 they were still routinely barred from serving as jurors but some began vigorous campaigns for a place in the jury box This book tells the story of how women mobilized in fifteen states to change jury laws so that women could gain this additional right of citizenship Some campaigns quickly succeeded others took substantially longer The book reveals that when women strategically adapted their tactics to the broader political environment they were able to speed up the pace of jury reform while less strategic movements took longer A comparison of the more strategic women s jury movements with those that were less strategic shows that the former built coalitions with other women s groups took advantage of political opportunities had past experience in seeking legal reforms and confronted tensions and even conflict within their ranks in ways that bolstered their action

*Economic Theory and Policy amidst Global Discontent* Ananya Ghosh Dastidar, Rajeev Malhotra, Vivek Suneja, 2018-02-06 This book rethinks economic theory and calls for a creative and pragmatic approach to policymaking It examines what development and sustenance of economic progress mean and how these may be facilitated The relevance of this issue has received fresh impetus from the significant changes in the degree and pattern of international economic relations that are unfolding across the world posing both opportunities and challenges While globalisation of goods and financial markets may have delivered

high growth for some nations the distribution of the benefits has often been highly unequal with gains to owners of capital and skills being disproportionately higher compared to that of labour especially the unskilled Widening and persistent inequalities have been at the heart of rising polarisation and spread of conflicts that threaten the social fabric This work emphasises the relevance of a broad policy framework based on building individual capabilities and in line with a human centric perspective At the same time it points out the crucial need to create policy space for macroeconomic stability and to accommodate heterodox influences especially when conventional wisdom proves inadequate as starkly demonstrated inter alia during the recent global financial crisis This festschrift dedicated to Deepak Nayyar presents chapters on diverse themes that address the persisting global problems of poverty inequality and sustaining development The book will be of great interest to scholars and researchers of economics development studies public policy and governance and also to policymakers government officials and those in media

*Nebraska*, 2004 *Power to the People* Charlyne Berens, 2004 *Power to the People* examines the first session of the Nebraska Unicameral Legislature in 1937 to determine whether the Legislature's structure and rules reflected populism progressivism or simply a variant of liberal democracy The book considers the notion that the one house nonpartisan legislature adopted by Nebraska's citizens is a reflection of the desire for the people rather than the elites to control government Building on the work of the new institutionalism and applying the principles of social choice *Power to the People* argues that the structure and procedures of an institution affect its product as well as the philosophies on which it is founded

**Oregon Politics and Government** Richard A. Clucas, Mark Henkels, Brent Steel, 2005-01-01 The political culture of Oregon has long had a reputation for innovative policy maverick politicians and independent political thought but instead of using the term progressive to describe the state's political leanings the editors of *Oregon Politics and Government* believe a more accurate descriptor would be schizophrenic *Oregon Politics and Government* provides not only an overview of the state's politics and government it also explains how the divide between progressives and conservative populists defines Oregon politics today Early in the state's history reformers championed many causes the initiative and referendum process for setting public policy the recall of public officials the direct election of U S senators and women's suffrage Since then the state has asserted control over beaches imposed strict land use laws created an innovative regional government introduced voting through the mail allowed for physician assisted suicide and experimented with universal healthcare Despite this list of accomplishments however Oregon is divided between two competing visions one that is tied to progressive politics and another that is committed to conservative populism While the progressive side supports a strong and active government the conservative populist side seeks a smaller government lower taxes fewer restrictions on private property and protection for traditional social values The struggle between these two forces drives Oregon politics and policies today
