**Olena Palko,Constantin Ardeleanu**

### **Pravovoi Status Kryma Pravovoi Status Sevastopolia:**

*Russia and the Former Soviet Space* Vasile Rotaru, Miruna Troncotă, 2018-01-23 This book represents a fresh contribution to the contemporary academic debate regarding the determinants of current Russian foreign policy assertiveness More precisely it addresses the ways in which perceived security threats have been used by Russia to legitimize its interventions in the former Soviet Space It is argued here that the security dimension has been successfully used by the Kremlin for the domestic justification of its aggressive actions in neighbouring countries and that the narrative of the besieged fortress was applied to both the war in Georgia and the intervention in Ukraine Bringing together a number of authors from Russia Ukraine Georgia Armenia Moldova Romania Germany and the UK the volume presents both local regional and Western European perspectives on the various events analysed here It will appeal to a wide range of students and professors specialized in Russia and the former Soviet space in the fields of international relations international law foreign policy analysis and security studies as well as to think tanks and policy makers

*Making Ukraine* Olena Palko, Constantin Ardeleanu, 2022-05-15 Russia's illegal annexation of Crimea in 2014 and the ongoing war in eastern Ukraine have brought scholarly and public attention to Ukraine's borders *Making Ukraine* aims to investigate the various processes of negotiation delineation and contestation that have shaped the country's borders throughout the past century Essays by contributors from various historical fields consider how when and under what conditions the borders that historically define the country were agreed upon A diverse set of national and transnational contexts are explored with a primary focus on the critical period between 1917 and 1954 Chapters are organized around three main themes the interstate treaties that brought about the new international order in Eastern Europe in the aftermath of the world wars the formation of the internal boundaries between Ukraine and other Soviet republics and the delineation of Ukraine's borders with its western neighbours Investigating the process of bordering Ukraine in the post Soviet era contributors also pay close attention to the competing visions of future relations between Ukraine and Russia Through its broad geographic and thematic coverage *Making Ukraine* illustrates that the dynamics of contemporary border formation cannot be fully understood through the lens of a sole state frontier or ideology and sheds light on the shared history of territory and state formation in Europe and the wider modern world
