Reciprocity And The North Atlantic Triangle 1932 1938:

Reciprocity and the North Atlantic Triangle, 1932-1938 Richard Norman Kottman, 1968 This account of the exhaustive trade negotiations between the United States Canada and the United Kingdom in the nineteen thirties offers a new approach to the history of the North Atlantic Triangle during that difficult period The author describes in detail the diplomatic and political background of three agreements The Canadian American accords of 1935 and 1938 and the Anglo American pact of 1938 and reassess the economic rapprochement that was finally achieved The motivating forces at work within the triangle are analyzed Americans were determined to resolve the world s political unrest through a revival of international commerce Canadians hesitated to give up the preferential position they had enjoyed as part of British empire and the British preoccupied with appeasing Germany postponed their agreement with the United States until after the confrontation at Munich The characters and inclinations of political leaders are skillfully drawn into the narrative Professor Kottman refutes the theory that Canada acted as a linchpin or mediator between Britain and the United States Particular attention is given to the American reciprocal trade program in an effort to bring this aspect of American foreign policy between the world wars into better historical perspective Particular attention is given to the American reciprocal trade program in an effort to bring this aspect of American foreign policy between the world wars into better historical perspective To explore the details of the negotiation which historians have neglected until now the author has relied largely on unpublished sources including the private papers of Frankling D Roosevelt Cordell Hull Norman H Davis Richard B Bennett Charles Dunning Henry Morgenthau J Pierrepont Moffat and John W Dafoe and State Department files Publisher

Succeeding John Bull D. Cameron Watt, 1984-03-29 This book is based on the Wiles lectures for 1981 delivered at the Queen s University of Belfast in October 1981 It is not a history of Anglo American relations in the century its theme deals with how the United States of America came to replace Britain as the primary world and oceanic power confronting a grouping of land based continental powers the position Britain occupied throughout the nineteenth century This theme is examined in the light of how the process of replacement was conceived and perceived by those groups which had the primary responsibility for the formulation and conduct of foreign relations in each of the two powers Britain and America The author whose earlier study of 1965 of the British foreign policy making elites pioneered this approach in Britain argues the existence and continuity over much of this century of similar groups in the United States

British Protectionism and the International Economy Tim Rooth, 1993-03-04 This 2003 book examines the forces behind the British abandonment of free trade in the 1930s *Anglo-American Strategic Relations and the Far East, 1933-1939* Greg Kennedy, 2013-01-11 This volume charts how the national strategic needs of the United States of America and Great Britain created a parallel but not joint relationship towards the Far East as the crisis in that region evolved from 1933 39 In short it is a look at the relationship shared between the two nations with respect to accommodating one another on certain strategic and diplomatic

issues so that they could become more confident of one another in any potential showdowns with Japan *Transition of Power* Brian J. C. McKercher, 1999-02-15 This book addresses one of the least understood issues in modern international history how between 1930 and 1945 Britain lost its global pre eminence to the United States The crucial years are 1930 to 1940 for which until now no comprehensive examination of Anglo American relations exists *Transition of Power* analyses these relations in the pivotal decade with an epilogue dealing with the Second World War after 1941 Britain and the United States and their intertwined fates were fundamental to the course of international history in these years Professor McKercher s book dissects the various strands of the two powers relationship in the fifteen years after 1930 from a British perspective economic diplomatic naval and strategic *Doing Business with the Nazis* Neil Forbes, 2020-04-15 Britain s financial and economic relations with Nazi Germany are assessed in this book The structure and formulation of British policy the interaction of government and business and the relationship between British business interests and Nazi germany are looked at A particular focus of the book is on the crisis of uncertainty felt in Britain over the rejection of economic internationalism Sterlings devaluation and the imposition of tariffs opened up a breach with Europe which exerted a severely destabilising influence In the face of economic nationalism at home and abroad leading figures in British commercial and political life struggled to prevent a complete breakdown of relations with Germany the most important trading partner in Europe **The Juggler** Warren F. Kimball, 1994-08-08 Here Warren Kimball explores Roosevelt s vision of the postwar world by laying out the nature and development of FDR s war aims his long range political goals As the face of eastern Europe and the world changes before our eyes Roosevelt s goals dismissed during the Cold War as impractical seem less unrealistic today **William Lyon Mackenzie King, Volume III, 1932-1939** H. Blair Neatby, 1976-12-15 Aided by meticulous knowledge of the former Prime Minister s diary and with characteristic conciseness and clarity H Blair Neatby has written the impressive and long awaited third volume of the official biography of Mackenzie King He carefully and judiciously untangles a complexity of issues in Canadian political history to produce definitive accounts of controversies that have engaged the attention of Canadian historians for years Beginning the story in 1932 this volume treats the depression years when King was first in Opposition and then the years after 1935 when he was once again Prime Minister it is a masterly analysis of how one of the most enigmatic figures in Canadian history made shrewd and critical political decisions Attention is paid in turn to his clearly successful tactics as Leader of the Opposition the election campaign of 1935 a wide range of his domestic policies including those on unemployment inflation relief and trade and to a series of international crises the Ethiopian crisis the Spanish Civil War Anschluss and Munich that culminated in the Second World War At all times King s overriding concern was to preserve national unity at home and to avoid commitments abroad either through the British Commonwealth or the League of Nations We see King in his relations with other Canadian leaders Aberhart Pattullo Hepburn Duplessis and Bennett and with world leaders Roosevelt Baldwin Chamberlain and Hitler We also see the personal

side of the man and the link between the private and the public figure William Lyon Mackenzie King Volume III is an accomplished piece of historical writing progressing in a controlled way through a profusion of incident and accident it brings to completion the outstanding biography of a consummate politician **Canada and the Age of Conflict** C.P. Stacey, 1981-12-15 Few historians are as qualified as C P Stacey to address the questions underlying Canada and the Age of Conflict This volume completes his authoritative and magisterial general history of Canada's relations with the outside world The basic theme of the work is that foreign policy like charity begins at home To this end Professor Stacey emphasizes how changing social economic and political conditions within Canada have dictated her reactions to external problems Volume II begins with the diplomatic revolution of 1921 the election of Mackenzie King as Prime Minister and the appearance of O D Skelton proceeds to cover the twenties the Bennett interlude King's return to office and World War II and concludes with the ending of the King era and the aftermath of the war Drawing extensively on new material from archival records and personal papers recently opened to researchers Stacey strongly portrays the individual makers of Canadian policy and the statesmen abroad with whom they interacted The overmastering influence of the office of the Prime Minister and of the men who held that position is an underlying theme This volume concerns itself particularly with the personality and policies of the man who dominated the political history of the period William Lyon Mackenzie King Elegantly written witty and comprehensive the volume represents a distinctive achievement by one of Canada's pre eminent historians **Crossroads Of Decision** Howard Jablon, 2021-10-21 In this provocative interpretation of New Deal diplomacy Howard Jablon challenges the view that the State Department was wiser and more expert at international maneuver than was President Franklin D Roosevelt in the early years of his presidency These were years of growing world tension with the preliminary shots of World War II being fired as Japan took over Manchuria Italy made Ethiopia an extension of its new Roman Empire and all the European great powers tried out their new weaponry in Spain The author argues that the department's advice in this period actually led to unfortunate decisions which later had a considerable impact on events leading to World War II Former Secretary of State Cordell Hull wrote in his memoirs that the United States was at the oriental crossroads of decision in 1934 Hull and his colleagues in the State Department did not suggest blocking the Japanese Instead they recommended continuing the ineffective nonrecognition policy Consequently the roads taken by American diplomacy at this and other junctures were equally unfortunate To date no one has criticized the influence of the State Department on New Deal diplomacy Crossroads of Decision represents a timely and important contribution to our understanding of both the State Department and foreign policy in this interwar period of rapid change when diplomatic courses were set that allowed for no turning back Politics, Markets, and Grand Strategy Lars S. Skålnes, 2000 Why do great powers sometimes favor one country over another in the conduct of their foreign economic policies **A Companion to Franklin D. Roosevelt** William D. Pederson, 2011-03-21 A Companion to Franklin D Roosevelt presents a collection of historiographical essays by leading scholars that provides a

comprehensive review of the scholarship on the president who led the United States through the tumultuous period from the Great Depression to the waning days of World War II Represents a state of the art assessment of current scholarship on FDR the only president elected to four terms of office and the central figure in key events of the first half of the 20th century Covers all aspects of FDR s life and times from his health relationships and Supreme Court packing to New Deal policies institutional issues and international relations Features 35 essays by leading FDR scholars **Free Trade, Free World**

Thomas W. Zeiler,1999 In this era of globalization it is easy to forget that today s free market values were not always predominant But as this history of the birth of the General Agreement on Tariffs and Trade GATT shows the principles and practices underlying our current international economy once represented contested ground between U S policymakers Congress and America s closest allies Here Thomas Zeiler shows how the diplomatic and political considerations of the Cold War shaped American trade policy during the critical years from 1940 to 1953 Zeiler traces the debate between proponents of free trade and advocates of protectionism showing how and why a compromise ultimately triumphed Placing a liberal trade policy in the service of diplomacy as a means of confronting communism American officials forged a consensus among politicians of all stripes for freer_if not free_trade that persists to this day Constructed from inherently contradictory impulses the system of international trade that evolved under GATT was flexible enough to promote American economic and political interests both at home and abroad says Zeiler and it is just such flexibility that has allowed GATT to endure

Cautious Visionary Michael Anthony Butler,1998 Cordell Hull s persistence and legislative experience were determining factors in the development of the Trade Agreements Act 1934 This text investigates the political struggles surrounding the passage and implementation of the Act and its impact on Roosevelt s first administration **Britain, America and**

Rearmament in the 1930s C. Price,2001-09-12 This book is the first to challenge current orthodoxy that Chamberlain s appeasement policy before World War Two was justified by Britain s inability to pay for rearmament The book shows that British war potential was actually massive with a solid foundation in the existing Imperial economy Using previously unconsidered and recently declassified documents from British and American archives the author demonstrates that the deliberate and political rejection of rearmament in the hope of eventual American support proved catastrophic for Britain

Origins of the Second World War Reconsidered Gordon Martel,2002-02-07 When A J P Taylor s The Origins of the Second World War appeared in 1961 it made a profound impact The book became a classic and a central point of reference in all discussion on the Second World War The second edition of this distinguished collection written by leading experts in the field is designed to bring the state of the argument up to date The issues discussed include the legacy of the Treaty of Versailles Hitlers foreign policy Appeasement AJP Taylor and the Russians the treatment of the crises leading up to war including the Anschluss Danzig Abyssinian crises and the Spanish Civil War This second edition will ensure that The Origins of the Second World War will remain a high priority student and scholarly reading lists **Four Days in Hitler's Germany**

Robert Teigrob,2019-05-09 In 1937 Canadian Prime Minister Mackenzie King travelled to Nazi Germany in an attempt to prevent a war that to many observers seemed inevitable The men King communed with in Berlin including Adolf Hitler assured him of the Nazi regime s peaceful intentions and King not only found their pledges sincere but even hoped for personal friendships with many of the regime s top officials Four Days in Hitler s Germany is a clearly written and engaging story that reveals why King believed that the greatest threat to peace would come from those individuals who intended to thwart the Nazi agenda which as King saw it was concerned primarily with justifiable German territorial and diplomatic readjustments Mackenzie King was certainly not alone in misreading the omens in the 1930s but it would be difficult to find a democratic leader who missed the mark by a wider margin This book seeks to explain the sources and outcomes of King s misperceptions and diplomatic failures and follows him as he returns to Germany to tour the appalling aftermath of the very war he had tried to prevent

Protection for Exporters Andreas Dür,2010 The liberalization of transatlantic trade relations since the Great Depression is one of the key developments in the global political economy of the last hundred years This period has seen the negotiated reduction of both tariffs and nontariff barriers among developed countries which allowed for the rapid expansion of trade flows a driving force of economic globalization In Protection for Exporters Andreas Dür provides a novel explanation for this phenomenon that stresses the role of societal interests in shaping trade politics He argues that exporters lobby more in reaction to losses of foreign market access than in pursuit of opportunities thus providing a rationale for periods of acceleration and slowdown in the pace of liberalization Dür also presents hypotheses about the form in which protection for exporters is provided preferential or nonpreferential and the balance of concessions that is exchanged in trade negotiations Protection for Exporters includes case studies of major developments in international trade relations such as the passage of the Reciprocal Trade Agreements Act in the 1930s the creation of the General Agreement on Tariffs and Trade in the 1940s the Kennedy Round in the 1960s the debate over Fortress Europe in the 1980s and U S European competition over access to emerging markets in the early 2000s Dür s rigorous argument and systematic empirical analyses not only explain transatlantic trade relations but also allow for a better understanding of the dynamics of international economic relations
