Reclaiming A Nation:

Reclaiming the Nation Vrinda Narain, 2008-05-24 Living in pluralist India has had critical consequences for Muslim women who are expected to follow a determined and strict code of conduct. The impact of this contradiction is most evident in the continuing denial of gender equality within the family as state regulation of gender roles in the private sphere ultimately affects the status of women in the public sphere. *Reclaiming the Nation* examines the relationship between gender and nation in post colonial India through the lens of marginalized Muslim women. Drawing on feminist legal theory, postcolonial feminist theory and critical race theory, Vrinda Narain explores the idea of citizenship as a potential vehicle for the emancipation of Muslim women. Citizenship, Narain argues, opens the possibility for Indian women to reclaim a sense of selfhood free from imposed identities. In promoting the hybridity of culture and the modernity of tradition, Narain shows how oppositional categories such as public versus private, Muslim versus feminist and Western versus Indian have been used to deny women equal rights. A timely account of the struggle for liberation within a restrictive religious framework, *Reclaiming the Nation* is an insightful look at gender, nationhood and the power of self determination. *Reclaiming the Nation* Sam Moyo, Paris Yeros, 2011-03-04 This book compares the trajectories of states and societies in Africa, Asia and Latin America under neoliberalism, a time marked by serial economic crises, escalating social conflicts, the remilitarisation of North-South relations and the radicalisation of social and nationalist forces. Sam Moyo and Paris Yeros bring together researchers and activists from the three continents to assess the state of national sovereignty and the challenges faced by popular movements today. They show that global integration has widened social and regional inequalities within countries, exacerbated ethnic, caste and racial conflicts and generally reduced the bureaucratic capacities of states to intervene in a defensive way. Moreover, inequalities between the countries of the South have also widened. These structural tensions have all contributed to several distinct political trajectories among states, from fracture and foreign occupation to radicalisation and uncertain re-stabilisation. This book redraws the debate on the political economy of the contemporary South and provides students of international studies with an important collection of readings. **Reclaiming a Nation** Tracey Leigh, 2015-03-26 *Twelve Steps to Reclaim a Nation's Soul* Jo Anne Niedermeier, 2009-09-15 I have set out a set of principles that may save us from the fate of past societies and cultures. It is imperative that governing bodies surrender to the truth of their addiction to power and proceed with sense and a historical perspective on the things that destroyed other nations and cultures and societies. We are on a self-destructive path and we need to stop and regain the true and real nature of what a governing body should possess. *Reclaiming a Nation at Risk* B. Howse, 1995-12-01 *Dispatches From Latin America- Experimenting Against Neoliberalism* Same As Above, From the laboratory of neoliberalism, popularly known as globalization, Latin America has transformed itself into a launching pad for resistance. As globalization began to spread its devastation, robust and thoughtful opposition emerged in response in the recovered factory movement of Argentina in the presidential elections of indigenous

leaders and radicals like Chavez and Morales against the privatization of water in Bolivia Across Latin America people have built social movements that are starting to take back control of their countries and their lives In Dispatches from Latin America 28 authors report on 11 different countries from Mexico to Argentina together mapping the contemporary political and social terrain Drawn from the pages of the well respected NACLA Report this collection offers us a riveting series of accounts that bring new insight into the region's struggles and victories With shrewd analysis rendered in accessible language Dispatches lays plain the complex and vitally important conditions unfolding in 21st century Latin America

Over the last few decades politicians in Europe and North America have fiercely debated the effects of a growing Muslim minority on their respective national identities Some of these countries have prohibited Islamic religious coverings in public spaces and institutions while in others legal restriction remains subject to intense political conflict Seeking to understand these different outcomes social scientists have focused on the role of countries historically rooted models of nationhood and their attendant discourses of secularism Emily Laxer s *Unveiling the Nation* problematizes this approach Using France and Quebec as illustrative cases she traces how the struggle of political parties for power and legitimacy shapes states responses to Islamic signs Drawing on historical evidence and behind the scenes interviews with politicians and activists Laxer uncovers unseen links between structures of partisan conflict and the strategies that political actors employ when articulating the secular boundaries of the nation In France s historically class based political system she demonstrates parties on the left and the right have converged around a restrictive secular agenda in order to limit the siphoning of votes by the ultra right In Quebec by contrast the longstanding electoral salience of the national question has encouraged political actors to project highly conflicting images of the province s secular past present and future At a moment of heightened debate in the global politics of religious diversity Laxer s *Unveiling the Nation* sheds critical light on the way party politics and its related instabilities shape the secular boundaries of nationhood in diverse societies *Force of Words* Joseph Brown,2020-08-25
