**Recombinant DNA Research and the Human Prospect** Earl D. Hanson,1983      **Recombinant DNA Research and the Human Prospect** E. D. HANSON ((Ed.)),1983      Recombinant DNA Research and the Human Prospect Earl D. Hanson,1983-01-01      *Recombinant DNA Research* ,1986      *National Library of Medicine Current Catalog* National Library of Medicine (U.S.),1983      Controversial Science Thomas Brante,Steve Fuller,Professor of Sociology Steve Fuller, PhD,William Lynch,1993-01-01 This book represents emerging alternative perspectives to the constructivist orthodoxy that currently dominates the field of science and technology studies Various contributions from distinguished Americans and Europeans in the field provide arguments and evidence that it is not enough simply to say that science is socially situated *Controversial Science* focuses on important political ethical and broadly normative considerations that have yet to be given their due but which point to a more realistic and critical perspective on science policy      Future Survey Annual 1983 Michael Marien,1984-01-01      *Current Catalog* National Library of Medicine (U.S.),1983 First multi year cumulation covers six years 1965 70      **Biological Defense Research Program** ,1989      **Bioterrorism: The History of a Crisis in American Society** David McBride,2022-07-30 Although at the start of the 21st century bioterrorism was newly feared by the public at large it is one threat that institutions have attempted to anticipate for years Originally published in 2003 and now with a new introduction this unique 2 volume collection provides a multi disciplinary resource on the challenges bioterrorism poses for American society and institutions from both legal and political institutions on one hand to public health and medical institutions on the other Volume one documents and analyses the challenge bioterrorism poses to these political economic and legal institutions putting bioterrorism into its historical context as a problem discussed and anticipated by government for decades Volume two documents the challenges bioterrorism poses to public health and public policy as a weapon of disease and fear The materials in these volumes provide case histories and discourse by specialists relating to the ways that the bioterrorism threat has been perceived and approached by US health and law institutions      **Genetic Engineering** Mark Y. Herring,2005-12-30 Genetic engineering has quickly become one of the more controversial issues of our time Herring provides a detailed history of the debate in a fair and balanced manner using proponents points of view to make individual cases both pro and con Narrative chapters cover such topics as the Human Genome Project gene splicing cloning genetically altered foods and DNA and crime solving Students and the general public will find a comprehensive survey of the genetic engineering debate Appendices include statements from Robert P George and Peter Singer two of the most prominent scholars on the subject and a bibliography of print and electronic resources for further research      **Salvador Luria** Rena Selya,2022-10-25 The life of Nobel winning biologist Salvador Luria whose passion for science was equaled by his commitment to political engagement in Cold War America Blacklisted from federal funding review panels but awarded a Nobel Prize for his research on bacteriophage biologist Salvador Luria 1912 1991 was as much an activist as a scientist In

this first full length biography of Luria Rena Selya draws on extensive archival research interviews with Luria s family colleagues and students and FBI documents obtained through the Freedom of Information Act to create a compelling portrait of a man committed to both science and society In addition to his work with viruses and bacteria in the 1940s Luria broke new ground in molecular biology and cancer research from the 1950s to the 1980s and was a leader in calling for scientists to accept an educational and advisory responsibility to the public In return he believed the public should rely on science to strengthen social and political institutions Luria was born in Italy where the Fascists came to power when he was ten He left Italy for France due to the antisemitic Race Laws of 1938 and then fled as a Jewish refugee from Nazi Europe making his way to the United States Once an American citizen Luria became a grassroots activist on behalf of civil rights labor representation nuclear disarmament and American military disengagement from the Vietnam and Gulf Wars Luria joined the MIT faculty in 1960 and was the founding director of the Center for Cancer Research Throughout his life he remained as passionate about his engagement with political issues as about his science and continued to fight for peace and freedom until his death

Nature Remade Luis A. Campos,Michael R. Dietrich,Tiago Saraiva,Christian C. Young,2021-07-16 In this fourth volume in our Convening Science series with the Marine Biological Laboratory contributors including historians biologists and philosophers explore the development of bioengineering The essays show how engineering is both a means to a functional end and a method of learning about the world The book is organized around three themes controlling and reproducing knowing and making and envisioning to chart the increasing sophistication of our engineering of biological systems and to change our sense of the scales at which engineering occurs to include not just genetics but also ecosystem level intervention The volume will attempt to make the case for the centrality of engineering for understanding and imagining modern life
