*Reconceptions* Russell King, Bernard McGuirk, 1996      *Twentieth-Century French Poetry* Hugues Azérad, Peter Collier, 2010-05-20 Modern French poetry is unique in the boldness and creativity of its experiments in form and genre from classical verse to vers libre from calligrammes to prose poems and po sie sonore This anthology includes 32 poems by French and francophone poets each followed by an accessibly written detailed commentary The different approaches adopted in the close readings by specialists in their field reflect the major trends in current literary criticism and theory A foreword by one of France s foremost poets Yves Bonnefoy a general introduction and an afterword provide a helpful theoretical framework for the study of modern poetry An extensive bibliography concise biographies of the poets and a glossary of literary terms are included Students of French and of comparative literature will gain a deeper understanding of the development of French verse and of the artistic movements especially in the visual arts which have shaped twentieth century French poetry      *The Cambridge Companion to Modern French Culture* Nicholas Hewitt, 2003-09-11 France entered the twentieth century as a powerful European and colonial nation In the course of the century her role changed dramatically in the first fifty years two World Wars and economic decline removed its status as a world power whilst the immediate post war era was marked by wars of independence in its colonies Yet at the same time in the second half of the century France entered a period of unprecedented growth and social transformation Throughout the century and into the new millennium France retained its former international reputation as a centre for cultural excellence and innovation and its culture together with that of the Francophone world reflected the increased richness and diversity of the period This Companion explores this vibrant culture and includes chapters on history language literature thought theatre architecture visual culture film and music and discuss the contributions of popular culture Francophone culture minorities and women      *Brill's Companion to Classical Reception and Modern World Poetry* , 2022-12-28 Brill s Companion to Classical Reception and Modern World Poetry explores the relations between antiquity and modernity from the angle of the reception of Graeco Roman antiquity in modern world poetry In an innovative combination of the fields of Classical Reception and World Literature it tackles ever challenging questions which are central to both fields such as the questions of literature and identity specificity and universality Eurocentrism poetics and translation Leading experts from both Classics and Modern Languages contribute 11 chapters on modern poetry and poets from different linguistic and cultural traditions from around the world      **Baudelaire's Le Spleen de Paris** MariaC. Scott, 2017-09-29 Maria Scott s study of the operation of irony in Baudelaire s Le Spleen de Paris contends that the principal target of the collection s spleen is its own readership Baudelaire as one of the most perceptive cultural commentators of the nineteenth century was naturally very keenly aware of the growing dominance of the bourgeoisie in France not least as a market for art and literature Despite being dependent on this market for his own writing the poet was highly critical of bourgeois values and attitudes Scott builds on existing criticism of the collection to argue that these are

indirectly mocked in *Le Spleen de Paris* often in the person of the poet's supposed textual alter ego. The contention is that the prose poems betray the trust of readers by way of an apparent transparency of meaning that functions to blind us to their embedded irony. Though focused on *Le Spleen de Paris*, Scott's study engages with the full range of Baudelaire's writings including his art and literary criticism. Her book will be of interest not only to Baudelaire scholars but also to those engaged more generally with nineteenth century French culture.

#### **A History of Women's Writing in France** Sonya

Stephens, 2000-05-22 This volume was the first historical introduction to women's writing in France from the sixth century to the present day. Specially commissioned essays by leading scholars provide an introduction in English to the wealth and diversity of French women writers offering fascinating readings and perspectives. The volume as a whole offers a cohesive history of women's writing which has sometimes been obscured by the canonisation of a small feminine elite. Each chapter focuses on a given period and a range of writers taking account of prevailing sexual ideologies and women's activities in or their relation to the social, political, economic and cultural surroundings. Complemented by an extensive bibliography of primary and secondary works and a biographical guide to more than one hundred and fifty women writers, it represents an invaluable resource for those wishing to discover or extend their knowledge of French literature written by women.

André du Bouchet Emma Wagstaff, 2020-08-03 In *André du Bouchet: Poetic Forms of Attention* Emma Wagstaff provides the first book length study in English of this major poet of the second half of the twentieth century. She shows how Du Bouchet's rigorous and innovative creative and critical writing advances our understanding of attention. Du Bouchet is known as a post-war poet of the natural world and the space of the page. Far from just a solitary writer, however, he engaged with others through his work as editor, critic and translator and his involvement in the protests of May 1968. Emma Wagstaff shows how his writing demonstrates nuanced attention to language, time, nature and art and incites a slow response on the part of the reader.

**Poetics and the Gift** Adam R. Rosenthal, 2022 Using a broad comparative approach, this study shows how the figure of the gift structures poetic discourse and does so from the age of Homer up through twenty-first century conceptual poetics. Beginning from a new interpretation of Derrida's writings on the gift, Adam R. Rosenthal argues that this ambivalent figure names at one and the same time poetry's most extreme aneconomic privilege and the point of its closest contact with the interested exchange of the market. In this way, the gift conducts material relays of patronage and theories of poetic origination in genius, inspiration and imagination. *Poetics and the Gift* capitalizes on this double function in order to read material historical accounts of poetry alongside philosophical and poetic ones. By way of his original reading of Derrida's work in *Given Time* and *Economimesis*, Rosenthal offers a novel account of gift poetics and a new understanding of what makes poetry poetry.
