## **Reconciling Theology And Science A Radical Reformation Perspective:**

Reconciling Theology and Science Nancey Murphy, 1997-01-01      Rewired Paul N. Markham, 2007-07-01 Rewired begins with the claim that contemporary views of Christian spirituality particularly in the American evangelical tradition concentrate too exclusively on the interior and individual nature of spiritual experience Paul Markham argues that a reexamination of the doctrine of religious conversion is needed within American evangelicalism and finds resources for such a model in the Wesleyan theological tradition and from philosophical and scientific insights into a nonreductive physicalist view of human nature In considering data from theology and science this book represents an integrated work in science and religion

**Perspectives on an Evolving Creation** Keith B. Miller, 2003-09-25 According to the authors of this book who explore evolutionary theory from a clear Christian perspective the common view of conflict between evolutionary theory and Christian faith is mistaken Written by contributors representing the natural sciences philosophy theology and the history of science this thought provoking work is informed by both solid scientific knowledge and keen theological insight The three sections of the book address 1 relevant biblical historical and scientific background 2 the scientific evidence for an evolving creation and 3 theological issues commonly raised in connection with evolution including the nature of God s creative activity the meaning of the miraculous and the uniqueness of humankind Woven through the volume are short meditations designed to direct readers toward worshipping the God of providence Contributors Laurie J Braaten Warren S Brown Jr David Campbell Robin Collins Edward B Davis Terry M Gray Jeffrey K Greenberg Deborah B Haarsma Loren Haarsma James P Hurd Conrad Hyers David N Livingstone Keith B Miller John C Munday Jr George L Murphy Mark A Noll Robert John Russell Howard J Van Till David L Wilcox Jennifer Wiseman      **The Wisdom of the Cross** Stanley Hauerwas, Chris K. Huebner, Harry J.

Huebner, Mark T. Nation, 2005-05-26 Few recent Christian thinkers have been as widely influential as John Howard Yoder 1927 1997 Encompassing a teaching career of more than thirty years and such landmark publications as *The Politics of Jesus* Yoder s life and thought have profoundly impacted students and colleagues from a broad range of disciplines In the words of Stanley Hauerwas Yoder is probably the major theologian ethicist of this half century in America and certainly the leading Mennonite theologian of the twentieth century *The Wisdom of the Cross* is the only book to provide valuable secondary essays engaging Yoder s central theological concerns together with a biographical reflection on his life and legacy Written by scholars both from within and outside of Yoder s Mennonite community these essays develop the most significant aspects of Yoder s thought from his powerful defense of Christian pacifism to his seminal analysis of the politics of Jesus to his challenging contributions to Christian social ethics ecclesiology and theological method The book also includes a previously unpublished essay on moral absolutes by Yoder himself A fitting tribute to Yoder s distinguished career this volume will be useful to readers new to Yoder s work and to those wishing to probe more deeply into the implications of his thought

**Scholarship and Christian Faith** Douglas Jacobsen, Rhonda Hustedt Jacobsen, 2004-04-08 This book enters a lively

discussion about religious faith and higher education in America that has been going on for a decade or more. During this time many scholars have joined the debate about how best to understand the role of faith in the academy at large and in the special arena of church related Christian higher education. The notion of faith informed scholarship has of course figured prominently in this conversation. But argue Douglas and Rhonda Jacobsen the idea of Christian scholarship itself has been remarkably under discussed. Most of the literature has assumed a definition of Christian scholarship that is Reformed and evangelical in orientation a model associated with the phrase the integration of faith and learning. The authors offer a new definition and analysis of Christian scholarship that respects the insights of different Christian traditions e.g. Catholic Lutheran Anabaptist Wesleyan Pentecostal and that applies to the arts and to professional studies as much as it does to the humanities and the natural and social sciences. The book itself is organized as a conversation. Five chapters by the Jacobsens alternate with four contributed essays that sharpen illustrate or complicate the material in the preceding chapters. The goal is both to map the complex terrain of Christian scholarship as it actually exists and to help foster better connections between Christian scholars of differing persuasions and between Christians and the academy as a whole.

**Jewish Faith and Modern Science** Norbert M. Samuelson, 2008-10-17. In *Jewish Faith and Modern Science* renowned Jewish philosopher and rabbi Norbert Samuelson argues that modern Jewish philosophy has died—that it has failed to address the challenges to traditional beliefs posed by scientific advances and is therefore no longer relevant to Jews today. Samuelson confronts these challenges head on critically reflecting on how all of the forms of contemporary Judaism from orthodox to liberal to secular to new age can address questions raised by the latest scientific advances. Considering questions ranging from the existence of the soul to the relationship between God and particle physics to the debate over when life begins and ends Samuelson paves the way for a rebirth of Jewish philosophy applicable to life in the modern world.

**Islam, Causality, and Freedom** Özgür Koca, 2020-06-11. A comprehensive survey of Islamic accounts of causality and freedom from the medieval to the modern era and their contemporary relevance.

**Beyond the Bounds** John Piper, Justin Taylor, Paul Kjoss Helseth, 2003-01-30. Everyone who believes in God at all believes that He knows what you and I are going to do tomorrow. C. S. Lewis. This understanding of God's foreknowledge has united the church for twenty centuries. But advocates of open theism are presenting a different vision of God and a different view of the future. The rise of open theism within evangelicalism has raised a host of questions. Was classical theism decisively tainted by Greek philosophy? How should we understand passages that tell us that God repents? Are essentials of biblical Christianity like the inerrancy of Scripture the trustworthiness of God and the Gospel of Christ at stake in this debate? Where, when, and why should we draw new boundaries and is open theism beyond them? *Beyond the Bounds* brings together a respected team of scholars to examine the latest literature, address these questions, and give guidance to the church in this time of controversy. Contributors include John Piper, Wayne Grudem, Michael S. Horton, Bruce A. Ware, Mark R. Talbot, A. B. Caneday, Stephen J. Wellum, Justin Taylor, Paul Kjoss Helseth, Chad Brand, William C. Davis, Russell

Fuller We have prepared this book to address the issue of boundaries and we pray bring some remedy to the present and impending pain of embracing open theism as a legitimate Christian vision of God As a pastor who longs to be biblical and God centered and Christ exalting and eternally helpful to my people I see open theism as theologically ruinous dishonoring to God belittling to Christ and pastorally hurtful My prayer is that Christian leaders will come to see it this way and thus love the church by counting open theism beyond the bounds of orthodox Christian teaching From the Foreword by John Piper

**SCM Core Text: Christianity and Science** John D. Weaver, 2013-02-11 The SCM Core Text Christianity Science provides an advanced introduction to the lively debate between the relative truth claims made by science and the absolute truth claims made by religions and Christianity in particular The author examines the interaction between science and the Christian faith and explores the place of faith in an age of science John Weaver himself a scientist explores the responses of the Christian faith to scientific advances particularly as they impinge upon an understanding of God and human nature Contemporary issues such as cloning stem cell research GM crops global climate change and ecological destruction new research on the origins of life and the issue of suffering brought about by natural evil such as the Boxing Day tsunami are covered in this accessible and student friendly textbook It is designed to communicate information clearly and accessibly using chapter summaries diagrams and questions for further reading as well as suggestions for further reading at the close of chapters

*Mission in Context* John Corrie, Cathy Ross, 2016-07-22 Stimulated by Andrew Kirk s mission theology this book brings fresh theological reflection to a wide range of mission issues A formidable group of international missiologists are drawn together to explore current reflections on a wide range of issues including poverty and injustice environmentalism secularism the place of scripture in a pluralist culture science and faith liberation theology oppression and reconciliation and much more Kirk s influence and reputation is international and extends to South America USA Eastern Europe Africa and SE Asia Latin American mission has been especially enriched by Kirk s innovative thinking on revolutionary politics contextualisation and holistic mission This is an indispensable resource of up to date missiological reflections for all involved in mission at every level

**Transcendence and Spatiality of the Triune Creator** Chan Ho Park, 2005 Since Augustine many philosophers and theologians have discussed the relation of God to time whereas the relation between God and space has been rarely discussed This book deals with the relationship of God to space Divine transcendence is one important aspect of the Christian God However God is also immanent in the world of space and time The author investigates the concept of divine spatiality and presents case studies of three modern theologians Torrance Pannenberg and Moltmann He also analyses divine spatiality by using Dyrness s three categories relationship agency and embodiment

*God at the Crossroads of Worldviews* Paul Seungoh Chung, 2016-10-22 Debates about the existence of God persist but remain at an impasse between opposing answers God at the Crossroads of Worldviews reframes the debate from a new perspective characterizing the way these positions have been defined and defended not as wrong per se but rather as odd or awkward Paul Chung begins with a

general survey of the philosophical debate regarding the existence of God particularly as the first cause and how this involves a bewildering array of often incommensurable positions that differ on the meaning of key concepts criteria of justification and even on where to start the discussion According to Chung these positions are in fact arguments both from and against larger more comprehensive intellectual positions which in turn comprise a set of rival worldviews Moreover there is no neutral rationality completely independent of these worldviews and capable of resolving complex intellectual questions such as that of the existence of God Building from Alasdair MacIntyre s writings on rival intellectual traditions Chung proposes that to argue about God we must first stand at the crossroads of the different intellectual journeys of the particular rival worldviews in the debate and that the discovery of such a crossroad itself constitutes an argument about the existence of God Chung argues that this is what Thomas Aquinas accomplished in his Five Ways which are often misunderstood as simple proofs From such crossroads the debate may proceed toward a more fruitful exploration of the question of God s existence Chung sketches out one such crossroad by suggesting ways in which Christianity and scientific naturalism can begin a mutual dialogue from a different direction *God at the Crossroads of Worldviews* will be read by philosophers of religion advanced undergraduate and graduate students and theologians and general readers interested in the new atheism debates

God Without Violence, Second Edition J. Denny Weaver, 2020-06-08 Playing off a child s question concerning whether parents would put their son to death on a cross this book plunges headlong into the ongoing debate about the character of God The church confesses that God is revealed in Jesus This book explores the implications of that radical claim Jesus life reveals his rejection of violence and calls for an understanding of God in nonviolent terms Weaver thus invites us to embrace a nonviolent atonement image in contrast to our inherited atonement images Deriving theology from the narrative of Jesus also leads Weaver into discussions about the very nature of theology the character of the Bible the divine violence in the Old Testament as well as the purported divine violence in the book of Revelation and a rethinking of historic Christology Each of these discussions has implications for life today for economics forgiveness and restorative justice violence gender discrimination racism and more This second expanded edition of *God Without Violence* is an introduction to foundational issues of theology and ethics suitable for church discussion groups and introductory college classes *Mennonites and Classical Theology* A. James Reimer, 2001 A collection of essays written over 20 years by A James Reimer Innovative ecumenical meditations on the era in which we live and what it means for Mennonites to think about the Christian faith in the contemporary world *The Re-Emergence of Emergence* Philip Clayton, Paul Davies, 2006-06-30 Much of the modern period was dominated by a reductionist theory of science On this view to explain any event in the world is to reduce it down to fundamental particles laws and forces In recent years reductionism has been dramatically challenged by a radically new paradigm called emergence According to this new theory natural history reveals the continuous emergence of novel phenomena new structures and new organisms with new causal powers Consciousness is yet one more emergent level in the

natural hierarchy Many theologians and religious scholars believe that this new paradigm may offer new insights into the nature of God and God's relation to the world This volume introduces readers to emergence theory outlines the major arguments in its defence and summarizes the most powerful objections against it Written by experts but suitable as an introductory text these essays provide the best available presentation of this exciting new field and its potentially momentous implications

**William James on Religion** H. Rydenfelt, S. Pihlström, 2013-06-13 A team of international experts present a collection of articles on William James's philosophy of religion and its current relevance A new look at his philosophy of religion is crucially important for the development of this field of inquiry today

**Reclaiming the Center** Millard J. Erickson, Paul Kjos, Helseth, Justin Taylor, 2004-11-09 Reclaiming the Center is a valuable contribution to the study of contemporary evangelicalism It is a guide for how evangelicals can move forward with wisdom and discernment without succumbing to the spirit of this age

*In the Beginning was the Spirit* Diarmuid O'Murchu, 2012-09 This title provides an astonishing synthesis of humankind's understanding of the Great Spirit that energizes and runs through all creation

**Vital Christianity** David L. Weaver-Zercher, William H. Willimon, 2005-08-23 Challenge theses debilitating distinctions between spirituality and social justice by exploring the numerous threads that can and should connect these two components of holistic Christian living

**Toward a Christian View of a Scientific World** George L. Murphy, 2001 Modern science and science based technology have changed traditional understandings of the world in profound ways A pastor who is also a trained scientist draws on his diverse background to help readers put today's scientific knowledge in the context of Christian faith Murphy sees the world described by today's science as the creation of God revealed in Jesus Christ and technology and modern medicine as ways to carry out God's purpose for the world This book is a useful tool for introducing readers to the crucial conversations and interactions now occurring between the fields of science theology technology and ethics It's a clear and accessible text that's appropriate for adult classes and lay groups of all levels This comprehensive and readable work by a well qualified and experienced scientist theologian and pastor fills a very important gap in the current literature regarding the new dialogue that has been emerging in recent years between science and religion It seeks to develop a Christian view of the world that is congruent with modern science It includes discussions of the practical and moral implications of issues such as genetic engineering and medicine and their implications for worship and prayer

David E. Arthur, Eden Theological Seminary George L. Murphy is a Phi Beta Kappa graduate of Ohio University Johns Hopkins University where he earned a Ph.D. in physics and Wartburg Theological Seminary He has taught at the University of Western Australia Westminster College Luther College and Trinity Lutheran Seminary Widely published in both scientific and religious periodicals Murphy has received two awards from the Templeton Foundation for his papers on science and religion A Lutheran pastor Murphy is also the principal author of *Cosmic Witness* CSS
