*Reconstructing the Black Image* Gordon De la Mothe, 1993 This book aims to develop curriculum approaches and material appropriate to black students that can enhance their personal development self esteem competence and understanding of society while it helps young whites develop a greater understanding of the contributions made by black people to history and social development The context is that of the English school system Images from art are used as stimuli and the social and historical realities relating to images are linked to produce departure points for further study and research Section 1 focuses on White History and the Distortion of Black History In section 2 the topic is African Reactions to Slavery and Colonisation while section 3 concentrates on Religion and the Role of Black People Section 4 considers The Centuries of Struggle A concluding chapter explores Reconstructing the Black Image in the History National Curriculum *Ben Tillman and the Reconstruction of White Supremacy* Stephen Kantrowitz, 2015-01-01 Through the life of Benjamin Ryan Tillman 1847 1918 South Carolina's self styled agrarian rebel this book traces the history of white male supremacy and its discontents from the era of plantation slavery to the age of Jim Crow As an anti Reconstruction guerrilla Democratic activist South Carolina governor and U S senator Tillman offered a vision of reform that was proudly white supremacist In the name of white male militance productivity and solidarity he justified lynching and disfranchised most of his state's black voters His arguments and accomplishments rested on the premise that only productive and virtuous white men should govern and that federal power could never be trusted Over the course of his career Tillman faced down opponents ranging from agrarian radicals to aristocratic conservatives from woman suffragists to black Republicans His vision and his voice shaped the understandings of millions and helped create the violent repressive world of the Jim Crow South Friend and foe alike and generations of historians interpreted Tillman's physical and rhetorical violence in defense of white supremacy as a matter of racial and gender instinct This book instead reveals that Tillman's white supremacy was a political program and social argument whose legacies continue to shape American life **The Retreats of Reconstruction** David E.

Goldberg, 2016-11-01 Beginning in the 1880s the economic realities and class dynamics of popular northern resort towns unsettled prevailing assumptions about political economy and threatened segregationist practices Exploiting early class divisions black working class activists staged a series of successful protests that helped make northern leisure spaces a critical battleground in a larger debate about racial equality While some scholars emphasize the triumph of black consumer activism with defeating segregation Goldberg argues that the various consumer ideologies that first surfaced in northern leisure spaces during the Reconstruction era contained desegregation efforts and prolonged Jim Crow Combining intellectual social and cultural history *The Retreats of Reconstruction* examines how these decisions helped popularize the doctrine of separate but equal and explains why the politics of consumption is critical to understanding the long civil rights movement
