Reconstructing Christianity Rich Mayfield, 2005-10 Despite what some would have us believe Christianity is not limited to the religious right and its exclusive claims More and more spiritual sojourners are being drawn back to the simple teachings of Jesus There they encounter a whole new way of understanding contemporary Christianity Reconstructing Christianity Notes from the New Reformation captures this new religious awakening and provides a helpful daily guide to making Christianity meaningful again *RECONSTRUCTING CHRISTIANITY* Rich Mayfield, 2005-10-27 Despite what some would have us believe Christianity is not limited to the religious right and its exclusive claims More and more spiritual sojourners are being drawn back to the simple teachings of Jesus There they encounter a whole new way of understanding contemporary Christianity Reconstructing Christianity Notes from the New Reformation captures this new religious awakening and provides a helpful daily guide to making Christianity meaningful again *The Journal of Christian Reconstruction*, 1997 Ministry in the Anglican Tradition from Henry VIII to 1900 John L. Kater, 2022-06-01 Once Henry VIII declared the Church of England free of papal control in the sixteenth century and the process of Reformation began the Church of England rapidly developed a distinctive style of ministry that reflected the values and practices of the English people In *Ministry in the Anglican Tradition from Henry VIII to 1900* John L Kater traces the complex process by which Anglican ministry evolved in dialogue with social and political changes in England and around the world By the end of the Victorian period ministry in the Anglican tradition had begun to take on the broad diversity we know today This book explores the many ways in which laypeople clergy and missionaries in multiple settings and under various conditions have contributed to the emergence of a uniquely Anglican way of responding to the call to serve Christ and the world That ministry preserved many of the insights of its Reformation ancestors and their heritage even as it continued to respond to the new and often unfamiliar contexts it now calls home The Reconstruction of Religion Charles Abram Ellwood, 1922 A selected list of books in English suggested for collateral reading p 319 324 Syllabus of Continental European History from the Fall of Rome to 1870 Oliver Huntington Richardson, Guy Stanton Ford, Edward Lewis Durfee, 1904 **Leaving Christian Fundamentalism and the Reconstruction of Identity** Josie McSkimming, 2016-10-04 There is an increasing interest in the influence of religious fundamentalism upon people's motivation identity and decision making *Leaving Christian Fundamentalism and the Reconstruction of Identity* details the stories of those who have left Christian fundamentalist churches and how they change after they have left It considers how the previous fundamentalist identity is shaped by aspects of church teaching and discipline that are less authoritarian and coercive and more subtle and widely spread throughout the church body That is individuals are understood as not only subject to a form of judgment but also exercise it with everyone seemingly complicit in maintaining the stability of the church organisation This book provocatively illustrates that the reasons for leaving an evangelical Christian church may be less about what happens outside the church in terms of the lures

and attractions of the secular world and more about the experience within the community itself **Rebuilding the Christian Commonwealth** John A. Andrew III, 2014-10-17 The foreign missionary movement of the early 19th century grew out of the efforts of churches in New England to deal with the changes then taking place in society The erosion of traditional institutional structures and social values plus the rise of Unitarianism threatened the destruction of the traditional faith Mr Andrew holds that the Congregational clergy used foreign missions not only to implant New England culture in heathen lands but also to awaken a sense of community at home **Calvin's Ecclesiology** Tadataka Maruyama, 2022-05-12 In this fresh and original monograph on the ecclesiology of John Calvin Tadataka Maruyama sifts exhaustively through the corpus of Calvin's writings in both Latin and French to crystalize the French reformer's conception of the Christian church After elucidating Calvin's influence from other reformers such as Jacques Lefèvre Guillaume Farel and Martin Bucer Maruyama shows how Calvin's ecclesiology evolved throughout his life while remaining firmly rooted in key principles and interests Maruyama discerns three phases in Calvin's ecclesiology Catholic ecclesiology in which Calvin saw the church as a unified and ideal institution situated both above and within history Reformed ecclesiology in which Calvin described the concrete historical form of the Christian church over against the Catholic Church Reformation ecclesiology in which Calvin came to understand the Christian church as an eschatological reality situated in a broader European context which Calvin portrayed as the theater of God's providence This trajectory mirrors the way the Protestant Reformation was focused on reforming particular churches while also reimagining the Christian world as a whole Indeed as Maruyama thoroughly illustrates Calvin never lost sight of his original vision of reforming the church of his French homeland even as his work grew into a much larger movement **Religion and Social Reconstruction in Africa** Elias Kifon Bongmba, 2018-06-13 Religion has played a major role in both the division and unification of peoples and countries within Africa Its capacity to cause and to heal societal rifts has been well documented This book addresses this powerful societal force and explores the implications of a theology of reconstruction most notably articulated by Jesse Mugambi This way of thinking seeks to build on liberation theology aiming to encourage the rebuilding of African society on its own terms An international panel of contributors bring an interdisciplinary perspective to the issues around reconstructing the religious elements of African society Looking at issues of reconciliation postcolonialism and indigenous spirituality among others they show that Mugambi's cultural and theological insight has the potential to revolutionise the way people in Africa address this issue This is a fascinating exploration of the religious facets of African life As such it will be of great interest to scholars of religious studies theology and African studies [A Mirror of Rabbinic Hermeneutics](#) Giuseppe Veltri, 2015-09-14 Rabbinic hermeneutics in ancient Judaism reflects this multifaceted world of the text and of reality seen as a world of reference worth commentary As a mirror it includes this world but perhaps also falsifies reality adapting it to one's own aims and necessities It consists of four parts Part I considered as introduction is the description of the Rabbinic Workshop *Officina Rabbinica* the rabbinic world where

the student plays a role and a reformation of a reformation always takes place the world where the mirror was created and manufactured Part II deals with the historical environment the world of reference of rabbinic Judaism in Palestine and in the Hellenistic Diaspora Reflecting Roman Religion Part III focuses on magic and the sciences as ancient political and empirical activities of influence in the double meaning of receiving and adopting something and of attempt to produce an effect on persons and objects Performing the Craft of Sciences and Magic Part IV addresses the rabbinic concern with texts Reflecting on Languages and Texts as the main area of influence of the rabbinic academy in a space between the texts of the past and the real world of the present

Architecture of Thought Andrzej Piotrowski, 2011 An innovative examination of how material practices and constructed environments have shaped cultures

Christian Reconstruction Michael J. McVicar, 2015-04-27 This is the first critical history of Christian Reconstruction and its founder and champion theologian and activist Rousas John Rushdoony 1916 2001 Drawing on exclusive access to Rushdoony's personal papers and extensive correspondence Michael J McVicar demonstrates the considerable role Reconstructionism played in the development of the radical Christian Right and an American theocratic agenda As a religious movement Reconstructionism aims at nothing less than reconstructing individuals through a form of Christian governance that if implemented in the lives of U S citizens would fundamentally alter the shape of American society McVicar examines Rushdoony's career and traces Reconstructionism as it grew from a grassroots populist movement in the 1960s to its height of popularity in the 1970s and 1980s He reveals the movement's galvanizing role in the development of political conspiracy theories and survivalism libertarianism and antistatism and educational reform and homeschooling The book demonstrates how these issues have retained and in many cases gained potency for conservative Christians to the present day despite the decline of the movement itself beginning in the 1990s McVicar contends that Christian Reconstruction has contributed significantly to how certain forms of religiosity have become central and now familiar aspects of an often controversial conservative revolution in America

The United States Catalog Supplement, January 1918-June 1921 Eleanor E. Hawkins, 1921

The Athenaeum, 1852

Sacred Rights Daniel C. Maguire, 2003 Contains twelve essays in which religious scholars examine the issues of contraception and abortion as seen from various faith traditions and present alternative interpretations of restrictive views on family planning

Her Story Barbara J. MacHaffie, 2006 The Bible has been written translated and interpreted for centuries by men in cultures that were patriarchal In patriarchy women are subordinated within the gradations of a hierarchical society Material on women therefore has often been misinterpreted or overlooked In some instances generic nouns and pronouns in the original languages have been translated into English as masculine words A careful textual study must be made using all the available tools of biblical scholarship An accurate understanding of the meaning of words must be sought Also readers must try to discern the intentions of the author and try to gain a knowledge of the historical and social background of the biblical material The demands of God must be distinguished from the demands of a particular culture The bible as a whole makes it

clear that God's people are to bring justice and wholeness to all human beings the injunctions that degrade women do not provide principles valid for every age of Christianity but instead reflect cultural situations in which men related to women through dominance The standard for the Christian community today should be the glimmers of female dignity and leadership that shine through the pages of the Bible Dictionary of Anonymous and Pseudonymous English Literature Samuel Halkett, 1971 **Dictionary of Anonymous and Pseudonymous English Literature: Q-S** Samuel Halkett, John Laing, 1929 **The Christian Century**, 1923
