Reconstructing Times Square Politics And Culture In Urban Development:

Reconstructing Times Square Alexander J. Reichl, 1999 When the big ball drops on New Year's Eve thousands are there to witness that great glittering sight while millions more watch on national television Times Square may be the cultural hub of America the Crossroads of the World but its lights have not always shone as brightly as they do now Once a glamorous theater district Times Square and 42nd Street had degenerated into a neighborhood known for the winos and sex shops of Midnight Cowboy until New York's business and arts communities stepped in These advocates of urban revitalization exploited cultural and historic preservation arguments to transform a low income entertainment district into a Disney fied tourist mecca Where Ratso Rizzo once kicked cars and hookers plied their trade Mickey Mouse now greets visitors from atop a Disney superstore surrounded by rising office towers theaters and theme restaurants all thanks to huge tax subsidies and government support Alexander Reichl tells the fascinating story of how cultural politics and economic greed transformed the city's physical and social environment with an ongoing multibillion dollar redevelopment program changing the district from a symbol of urban decline to one of urban renaissance He explains the political significance of the historic preservation and arts related approach to urban revitalization showing how it was used to appeal to the upscale values of middle class New Yorkers often hostile to urban renewal He also examines the role of the Walt Disney Company in the project and demonstrates its power to redefine a premier public space In telling the story of Times Square Reichl reveals much about politics and power at the city level and their relationship to the development of urban space He frames his lively narrative with an illuminating account of how historic preservation initiatives at all government levels have displaced large scale federal urban renewal programs as the dominant approach to urban development and he shows the importance of political discourse and cultural politics in mobilizing public support for urban redevelopment Now that it has been reconfigured for the 21st century Times Square provides a rich and multifaceted case for exploring the latest trends in urban renewal Yet Reichl suggests much that has happened here is regrettable the ousting of low income citizens to serve commercial interests the loss of a culturally diverse entertainment district and the failure to address persistent class and race based segregation in a central urban area By getting to the heart of the Great White Way *Reconstructing Times Square* provides an important look at urban renewal and politics in a changing America

Reconstructing Times Square Alexander J. Reichl, 1999 When the big ball drops on New Year's Eve thousands are there to witness that great glittering sight while millions more watch on national television Times Square may be the cultural hub of America the Crossroads of the World but its lights have not always shone as brightly as they do now Once a glamorous theater district Times Square and 42nd Street had degenerated into a neighborhood known for the winos and sex shops of Midnight Cowboy until New York's business and arts communities stepped in These advocates of urban revitalization exploited cultural and historic preservation arguments to transform a low income entertainment district into a Disney fied tourist mecca Where Ratso Rizzo once kicked cars and hookers plied their

trade Mickey Mouse now greets visitors from atop a Disney superstore surrounded by rising office towers theaters and theme restaurants all thanks to huge tax subsidies and government support Alexander Reichl tells the fascinating story of how cultural politics and economic greed transformed the city's physical and social environment with an ongoing multibillion dollar redevelopment program changing the district from a symbol of urban decline to one of urban renaissance He explains the political significance of the historic preservation and arts related approach to urban revitalization showing how it was used to appeal to the upscale values of middle class New Yorkers often hostile to urban renewal He also examines the role of the Walt Disney Company in the project and demonstrates its power to redefine a premier public space In telling the story of Times Square Reichl reveals much about politics and power at the city level and their relationship to the development of urban space He frames his lively narrative with an illuminating account of how historic preservation initiatives at all government levels have displaced large scale federal urban renewal programs as the dominant approach to urban development and he shows the importance of political discourse and cultural politics in mobilizing public support for urban redevelopment Now that it has been reconfigured for the 21st century Times Square provides a rich and multifaceted case for exploring the latest trends in urban renewal Yet Reichl suggests much that has happened here is regrettable the ousting of low income citizens to serve commercial interests the loss of a culturally diverse entertainment district and the failure to address persistent class and race based segregation in a central urban area By getting to the heart of the Great White Way Reconstructing Times Square provides an important look at urban renewal and politics in a changing America **Times Square Roulette** Lynne B. Sagalyn, 2003-08-29 The compelling story of the politics policies and personalities that made Times Square's revitalization possible The spectacularly successful transformation of Times Square has become a model for other cities From its beginning as Longacre Square Times Square's commercialism signage cultural diversity and social tolerance have been deeply embedded in New York City's psyche Its symbolic role guaranteed that any plan for its renewal would push the hot buttons of public controversy free speech property taking through eminent domain development density tax subsidy and historic preservation In Times Square Roulette Lynne Sagalyn debunks the myth of an overnight urban miracle performed by Disney and Mayor Giuliani to tell the far more complex and commanding tale of a twenty year process of public controversy nonstop litigation and interminable delay She tells how the troubled execution of the original redevelopment plan provided a rare opportunity to rescript it And timing was all the mid 1990s saw rising international corporate interest in the city was a mecca for mass market entertainment and synergistic merchandising Sagalyn details the complex relationship between planning and politics and the role of market forces in shaping Times Square's redevelopment opportunities She shows how policy was wedded to deal making and how persistent individuals and groups forged both **Spatial Regulation in New York City** Themis Chronopoulos, 2012-03-28 This book explores and critiques the process of spatial regulation in post war New York focusing on the period after the fiscal crisis of the 1970s examining the ideological

underpinnings and practical applications of urban renewal exclusionary zoning anti vagrancy laws and order maintenance policing It argues that these practices were part of a class project that deflected attention from the underlying causes of poverty eroded civil rights and sought to enable real estate investment high end consumption mainstream tourism and corporate success

Understanding the City John Eade, Christopher Mele, 2011-07-15 This cutting edge multi disciplinary analysis looks ahead to the direction which urban studies is likely to take during the twenty first century

Bloomberg's New York Julian Brash, 2011 New York mayor Michael Bloomberg claims to run the city like a business In Bloomberg s New York Julian Brash applies methods from anthropology geography and other social science disciplines to examine what that means He describes the mayor s attitude toward governance as the Bloomberg Way a philosophy that holds up the mayor as CEO government as a private corporation desirable residents and businesses as customers and clients and the city itself as a product to be branded and marketed as a luxury good Commonly represented as pragmatic and nonideological the Bloomberg Way Brash argues is in fact an ambitious reformulation of neoliberal governance that advances specific class interests He considers the implications of this in a blow by blow account of the debate over the Hudson Yards plan which aimed to transform Manhattan s far west side into the city s next great high end district Bringing this plan to fruition proved surprisingly difficult as activists and entrenched interests pushed back against the Bloomberg administration suggesting that despite Bloomberg s success in redrawing the rules of urban governance older political arrangements and opportunities for social justice remain

Sensing Cities Monica Montserrat Degen, 2008-06-11 As cities globally re design their urban landscapes they produce a different urban aesthetic and create new experiential milieus Urban regeneration processes generate radical physical social and cultural changes in neighbourhoods that demand new conceptual frameworks to address their impact upon daily urban life Sensing Cities investigates the reconfiguration of contemporary public space and life through the prism of the senses The book explores how the increased stylization of cityscapes requires an understanding of public life as a spatial sensuous encounter Degen examines how power relations in public spaces are embedded in exercised and resisted through the sensuous geography of place This sensory paradigm is then applied to compare two emblematic regeneration projects namely el Raval in Barcelona and Castlefield in Manchester By combining detailed ethnographic analysis and interviews with those involved in planning regeneration processes and those experiencing them the book argues that a changing sensuous landscape is crucial in redefining people s social practices attachments and experiences in places Focusing on two European cities at the forefront of urban design Barcelona and Manchester Degen draws on sociology geography anthropology cultural and architectural studies to provide a critical account of the politics of publicness in the entrepreneurial city With numerous photographs and maps this book stresses the ongoing embodied and active nature of regeneration as a lived social process rather than merely a physical or economic exercise Ultimately Sensing Cities examines how urban regeneration is made effective through the organisation of sensory experience This book is essential reading for students and researchers of Architecture Urban Studies and Human Geography

The Domestic and the Foreign in Architecture Ruth Baumeister, Sang Lee, 2007 For centuries across nations dialogue between the domestic and the foreign has affected and transformed architecture Today these dialogues have become highly intensified The Domestic and the Foreign in Architecture examines how these exchanges manifest themselves in contemporary architecture in terms of its

aesthetic potential and its practice which in turn are impacted by broad economic cultural and political issues This book traces how diverse cultural encounters inevitably modify conventional categories standards and codes of architecture such as domestic identity its political and economic representations and the negotiations with what is deemed foreign Theoretical reflections by distinguished scholars are accompanied by interviews with some of the most influential architects practicing today as well as stunning visual presentations by professional photographers

Gentrification Loretta Lees, Tom Slater, Elvin Wyly, 2013-10-18 This first textbook on the topic of gentrification is written for upper level undergraduates in geography sociology and planning The gentrification of urban areas has accelerated across the globe to become a central engine of urban development and it is a topic that has attracted a great deal of interest in both academia and the popular press Gentrification presents major theoretical ideas and concepts with case studies and summaries of the ideas in the book as well as offering ideas for future research

Ordering the City Nicole Stelle Garnett, 2010-01-01 This work highlights the multiple often overlooked and frequently misunderstood connections between land use and development policies and policing practices In order to do so the book draws upon multiple literatures as well as concrete case studies to better explore how these policy arenas intersect and conflict

The Leisure Commons Payal Arora, 2014-06-27 There is much excitement about Web 2.0 as an unprecedented novel community building space for experiencing producing and consuming leisure particularly through social network sites What is needed is a perspective that is invested in neither a utopian or dystopian posture but sees historical continuity to this cyberleisure geography This book investigates the digital public sphere by drawing parallels to another leisure space that shares its rhetoric of being open democratic and free for all the urban park It makes the case that the history and politics of public parks as an urban commons provides fresh insight into contemporary debates on corporatization democratization and privatization of the digital commons This book takes the reader on a metaphorical journey through multiple forms of public parks such as Protest Parks Walled Gardens Corporate Parks Fantasy Parks and Global Parks addressing issues such as virtual activism online privacy surveillance digital labor branding and globalization of digital networks Ranging from the 19th century British factory garden to Tokyo Disneyland this book offers numerous spatial metaphors to bring to life aspects of new media spaces Readers looking for an interdisciplinary historical and spatial approach to staid Web 2.0 discourses will undoubtedly benefit from this text

Alienation and the Carnivalization of Society Jerome Braun, Lauren Langman, 2012-04-23 This book examines alienation from both a sociological and psychoanalytic perspective revisiting classic treatments of the topic Marx Simmel Weber and exploring its relevance to understanding post modern consumer society It examines the escapist potentials for good and for ill in modern society those fostered by commercial interests and those maintained by individuals and groups as their form of resisting alienation
