## **Reconstruction And Redemption In The South:**

**Reconstruction and Redemption in the South**, 1980      *Reconstruction in Alabama* Michael W.

Fitzgerald, 2017-03-13 Reconstruction in Alabama examines the Civil War and Reconstruction era in Alabama the first full scale reexamination in over a century Michael W Fitzgerald research shows how predominant black belt majorities enabled concentrations of freedpeople to deter most terrorist violence for several years The impact of a resulting labor shortage in the heart of the plantation region forced rich planters toward relative moderation until a severe depression swept away the possibility of racial coexistence and economic balance      Beyond Redemption Carole Emberton, 2013-06-10 In the months

after the end of the Civil War there was one word on everyone's lips redemption From the fiery language of Radical Republicans calling for a reconstruction of the former Confederacy to the petitions of those individuals who had worked the land as slaves to the white supremacists who would bring an end to Reconstruction in the late 1870s this crucial concept informed the ways in which many people both black and white northerner and southerner imagined the transformation of the American South Beyond Redemption explores how the violence of a protracted civil war shaped the meaning of freedom and citizenship in the new South Here Carole Emberton traces the competing meanings that redemption held for Americans as they tried to come to terms with the war and the changing social landscape While some imagined redemption from the brutality of slavery and war others like the infamous Ku Klux Klan sought political and racial redemption for their losses through violence Beyond Redemption merges studies of race and American manhood with an analysis of post Civil War American politics to offer unconventional and challenging insight into the violence of Reconstruction      **The New**

**Redeeming the South** Paul Harvey, 2000-11-09 Together and separately black and white Baptists created different but intertwined cultures that profoundly shaped the South Adopting a biracial and bicultural focus Paul Harvey works to redefine southern religious history and by extension southern culture as the product of such interaction the result of whites and blacks having drawn from and influenced each other even while remaining separate and distinct Harvey explores the parallels and divergences of black and white religious institutions as manifested through differences in worship styles sacred music and political agendas He examines the relationship of broad social phenomena like progressivism and modernization to the development of southern religion focusing on the clash between rural southern folk religious expression and models of spirituality drawn from northern Victorian standards In tracing the growth of Baptist churches from small outposts of radically democratic plain folk religion in the mid eighteenth century to conservative and culturally dominant institutions in the twentieth century Harvey explores one of the most impressive evolutions of American religious and cultural history

**Coming for to Carry Me Home** J. Michael Martinez, 2011-12-22 *Coming for to Carry Me Home* examines the history of the politics surrounding U.S. race relations during the half century between the rise of the abolitionist movement in the 1830s and the dawn of the Jim Crow era in the 1880s. J. Michael Martinez argues that Abraham Lincoln and the Radical Republicans in Congress were the pivotal actors, albeit not the architects that influenced this evolution. To understand how Lincoln and his contemporaries viewed race, Martinez first explains the origins of abolitionism and the tumultuous decade of the 1830s when that generation of political leaders came of age. He then follows the trail through Reconstruction, Redemption, and the beginnings of legal segregation in the 1880s. This book addresses the central question of how and why the concept of race changed during this period.

Through the Eyes of Titans: Finding Courage to Redeem the Soul of a Nation Danjuma G. Gibson, 2024-01-10 Human beings tend to romanticize history or idealize historical figures. This is nowhere more apparent than the civil rights era of the twentieth century. The problem is that when we idealize history, we fail to learn from it. The result is that history repeats itself along with its sins and atrocities. The January 6 Capitol insurrection and the current racial reckoning we are experiencing is unoriginal to the American experience. We have been here before. This book seeks to humanize people we have idealized. Readers are invited to challenge racial hatred and injustice in their own context by looking to the lives of historical figures who have faced the challenges we currently face. By examining the self-care practices of personalities like Ida B. Wells, Fannie Lou Hamer, Benjamin Elijah Mays, and Martin Luther King Jr., this book examines the practices of introspection and self-work these historical figures engaged in that enabled them to fulfill the body of work they are celebrated for today. By humanizing these historical titans, we can emulate similar practices of self-care and introspection in our own lives that can equip us in continuing the ongoing work of dismantling structures of racial hatred and oppression and promoting freedom, love, equity, and justice to redeem the soul of a nation.

*Major Problems in the History of the American South* Paul D. Escott, 1999 The fascinating collection of essays and documents in these volumes provides a comprehensive view of the culture of the American South as well as its political, social, and economic history. The compelling documents are grouped with important secondary sources accompanied by chapter introductions, selection headnotes, and suggested readings.

Its stories include the displacement of Native peoples, white settlement, legal battles over Indian Removal, slavery, and cotton, the Civil War, and the Lost Cause, New South, railroad, and town development, Reconstruction, and Jim Crow, business development and finance in a national economy, a Populist uprising, and Black outmigration, the entrance of women into the political arena, the evolution of cotton culture, the development of modern infrastructure, and the transformation from

rural to suburban to a multicultural urbanizing place Gwinnett as its chamber of commerce likes to say has it all However Gwinnett has yet to be the focus of a major historical exploration until now Through a compilation of essays written by professional historians with expertise in a diverse array of eras and fields Michael Gagnon and Matthew Hild s collection finally tells these stories in a systematic way avoiding the pitfalls of nonprofessional local histories that tend to ignore issues of race class or gender While not claiming to be comprehensive this book provides general readers and scholars alike with a glimpse at Gwinnett through the ages

### **Circulating Jim Crow**

Adam McKible, 2024-02-20 Winner 2023 2024 RSAP Book Prize Research Society for American Periodicals In the early twentieth century the Saturday Evening Post was perhaps the most popular and influential magazine in the United States establishing literary reputations and shaping American culture In the popular imagination it is best remembered for Norman Rockwell's covers which nostalgically depicted a wholesome and idyllic American way of life But beneath those covers lurked a more troubling reality Under the direction of its longtime editor George Horace Lorimer the magazine helped justify racism and white supremacy It published works by white authors that made heavy use of paternalistic tropes and demeaning humor portraying Jim Crow segregation and violence as simple common sense Circulating Jim Crow demonstrates how the Post used stereotypical dialect fiction to promulgate white supremacist ideology and dismiss Black achievements citizenship and humanity Adam McKible tells the story of Lorimer's rise to prominence and examines the white authors who provided the editor and his readers with the caricatures they craved He also explores how Black writers of the Harlem Renaissance pushed back against the Post and its commodified racism McKible places the erstwhile household names who wrote for the magazine in conversation with figures such as Paul Laurence Dunbar F Scott Fitzgerald Ann Petry W E B Du Bois and William Faulkner Revealing the role of the Saturday Evening Post in normalizing racism for millions of readers this book also offers a new understanding of how Black writers challenged Jim Crow ideology

### A Long Dark Night

J. Michael Martinez, 2016-04-14 For a brief time following the end of the U S Civil War American political leaders had an opportunity slim to be sure but not beyond the realm of possibility

to remake society so that black Americans and other persons of color could enjoy equal opportunity in civil and political life. It was not to be. With each passing year after the war and especially after Reconstruction ended during the 1870s, American society witnessed the evolution of a new white republic as national leaders abandoned the promise of Reconstruction and justified their racial biases based on political, economic, social, and religious values that supplanted the old North-South slavery abolitionist schism of the antebellum era. *A Long Dark Night* provides a sweeping history of this too often overlooked period of African American history that followed the collapse of Reconstruction from the beginnings of legal segregation through the end of World War II. Michael J. Martinez argues that the 1880s ushered in the dark night of the American Negro, a night so dark and so long that the better part of a century would elapse before sunlight broke through. Combining both a top-down perspective on crucial political issues and public policy decisions as well as a bottom-up discussion of the lives of black and white Americans between the 1880s and the 1940s, *A Long Dark Night* will be of interest to all readers seeking to better understand this crucial era that continues to resonate throughout American life today.

**Rebellion, Reconstruction, and Redemption, 1861-1893** Stephen R. Wise, Lawrence S. Rowland, 2021-12-20. The continued history of Beaufort County, South Carolina, during and following the Civil War. In *Rebellion, Reconstruction, and Redemption, 1861-1893*, the second of three volumes on the history of Beaufort County, Stephen R. Wise and Lawrence S. Rowland offer details about the district from 1861 to 1893, which influenced the development of the South Carolina and the nation. During a span of thirty years, the region was transformed by the crucible of war from a wealthy slave-based white oligarchy to a county where former slaves dominated a new radically democratic political economy. This volume begins where volume I concluded: the November 1861 Union capture and occupation of the Sea Islands clustered around Port Royal Sound and the Confederate retreat and re-entrenchment on Beaufort District's mainland, where they fended off federal attacks for three and a half years and vainly attempted to maintain their pre-war life. In addition to chronicling numerous military actions that revolutionized warfare, Wise and Rowland offer an original, sophisticated study of the famous Port Royal Experiment, in which United States military officers, government officials, civilian northerners, African American soldiers, and liberated slaves transformed the Union-occupied corner of the Palmetto State into a laboratory for liberty and a working model of the post-Civil War New South. The revolution wrought by Union victory and the political and social Reconstruction of South Carolina was followed by a counterrevolution called Redemption: the organized campaign of Southern whites defeated in the war to regain supremacy over African Americans. While former slave-owning anti-black Redeemers took control of mainland Beaufort County, they were thwarted on the Sea Islands, where African Americans retained power and kept reaction at bay. By 1893, elements of both the New and Old South coexisted uneasily side by side as the old Beaufort District was divided into Beaufort and Hampton counties. The Democratic mainland reverted to an agricultural-based economy, while the Republican Sea Islands and the town of Beaufort underwent an economic boom based on the phosphate mining industry and the new commercial port in the

lowcountry town of Port Royal
