**RECONSTRUCTION : THE BATTLE FOR DEMOCRACY; 1865-1876** James Stewart Allen, 1970      **Reconstruction ; the Battle from Democracy** James S. Allen, 1966      **Harvesting Freedom** Akiko Ochiai, 2004-03-30 From early in the Civil War the Sea Islands of South Carolina set the stage for an exciting experiment in freedpeople s independence Lowcountry South Carolina is particularly significant not only for its aristocratic planters and its high profile in the secession but for the degree of autonomy that the slaves acquired during seasons of absentee proprietorship No place ever came closer to realizing the dream of Forty Acres and a Mule than this region and consequently no place saw more vigorous struggles over land possession Proving to the world their abilities to purchase lands to organize cooperatives and to participate in political parties the African Americans of the lowcountry forged and fought for their own agrarian dreams A highlight of Sea Island history was the Port Royal Experiment when northern volunteer missionaries provided education to freedpeople and General Rufus Saxton actively initiated Sherman s Field Orders commandeering the coast for African American homesteaders When freedom gave them the chance this group embraced education and democratic self rule with abilities that even their supporters underestimated This is the true story of their triumphs and failures in the struggle to claim the lands on which their forefathers toiled and died      **The Crisis of the Negro Intellectual** Harold Cruse, 2005-06-30 Published in 1967 as the early triumphs of the Civil Rights movement yielded to increasing frustration and violence *The Crisis of the Negro Intellectual* electrified a generation of activists and intellectuals The product of a lifetime of struggle and reflection Cruse s book is a singular amalgam of cultural history passionate disputation and deeply considered analysis of the relationship between American blacks and American society Reviewing black intellectual life from the Harlem Renaissance through the 1960s Cruse discusses the legacy and offers memorably acid edged portraits of figures such as Paul Robeson Lorraine Hansberry and James Baldwin arguing that their work was marked by a failure to understand the specifically American character of racism in the United States This supplies the background to Cruse s controversial critique of both integrationism and black nationalism and to his claim that black Americans will only assume a just place within American life when they develop their own distinctive centers of cultural and economic influence For Cruse s most important accomplishment may well be his rejection of the clich s of the melting pot in favor of a vision of Americanness as an arena of necessary and vital contention an open and ongoing struggle      *Democracy's Discontent* Michael J. Sandel, 2022-10-28 Twenty five years after his prescient *Democracy's Discontent* Michael Sandel updates his classic work for our more fractious age He shows how since the 1990s Democrats and Republicans embraced a market faith that led to the toxic politics of our time To rescue democracy he argues we must reimagine the economy and revitalize the civic project      **The Invention of the White Race, Volume 1** Theodore W. Allen, 2014-04-29 When the first Africans arrived in Virginia in 1619 there were no white

people there Nor according to colonial records would there be for another sixty years In this seminal two volume work *The Invention of the White Race* Theodore W Allen tells the story of how America s ruling classes created the category of the white race as a means of social control Since that early invention white privileges have enforced the myth of racial superiority and that fact has been central to maintaining ruling class domination over ordinary working people of all colors throughout American history Volume I draws lessons from Irish history comparing British rule in Ireland with the white oppression of Native Americans and African Americans Allen details how Irish immigrants fleeing persecution learned to spread racial oppression in their adoptive country as part of white America Since publication in the mid nineties *The Invention of the White Race* has become indispensable in debates on the origins of racial oppression in America In this updated edition scholar Jeffrey B Perry provides a new introduction a short biography of the author and a study guide

Washington and Hollywood Among the results were an expanded black imagery on the screen during the war in combat movies such as *Bataan Crash Dive* and *Sahara* musicals such as *Stormy Weather* and *Cabin in the Sky* and government propaganda films such as *The Negro Soldier* and *Wings for this Man* narrated by Ronald Reagan After the war the ideologies of both black activism and integrationism persisted resulting in the message movie era of *Pinky* *Home of the Brave* and *No Way Out* a form of racial politics that anticipated the goals of the Civil Rights Movement Delving into previously inaccessible records of major Hollywood studios among them Warner Bros RKO and 20th Century Fox as well as records of the Office of War Information in the National Archives and records of the NAACP and interviews with survivors of the era Cripps reveals the struggle of both lesser known black filmmakers like Carlton Moss and major figures such as Sidney Poitier More than a narrative history *Making Movies Black* reaches beyond the screen itself with sixty photographs many never before published which illustrate the mood of the time Revealing the social impact of the classical Hollywood film *Making Movies Black* is the perfect book for those interested in the changing racial climate in post World War II American life **Routledge Library**

**Editions: Historiography** Various, 2021-06-23 The greatest problem in historical scholarship theoretically and practically is the relation between historians and their subject matter The past is gone and historians can only study its remnants On what basis do scholars select certain facts from the mass of data left from the past How do they explain the interrelationship of the facts they select What criteria do they use to evaluate their subject The 35 volumes in this set originally published between 1926 and 1990 discuss and answer these essential questions faced by historians The development of historical understanding during the 18th and 19th centuries was one of the most striking features of Western culture Both historiography and historical thinking advanced as never before The historical movement of the 19th century was perhaps second only to the scientific revolution of the seventeenth century in transforming Western thought One consequence was extensive organisation and professionalization of research which the volumes in this set reflect *Congressmen, "Radicalism" and economic issues, 1861 to 1873* Glenn Marston Linden, 1963 *Democracy's Last Battle* Francis Williams, 1941 **The**
