Britain Ivan Markovic,2025-01-09 This book studies the historiography of smoking in modern Britain with a focus on the
social cultural and emotional aspects of the practice Centring on four specific moments in modern British history the turn of
the 20th century the Second World War the 1980s and the mid 2000s An Atmospheric History of Smoking not only traces the
history of tobacco use but explores the cultural significance of and attitudes toward smoking Markovic combines oral
histories with archival research and artefact analysis in order to evoke the unique social atmospheres surrounding smoking
at each of these key periods within British history By analysing factors such as the encouragement of the practice as part of
Home Front mood management during the Second World War or the impact of smoking on 1980s workplace relations this
book highlights how the role of smoking in public spheres has undergone significant change throughout the 20th century
Constructing the 2007 UK ban on smoking in public places as a turning point for the practice in the British cultural
imagination Markovic examines how smoking has both been deemed out of place and yet still persists today Subject
