J. P. Goldberg, 2013-01-01 This collection of sources demonstrates the variety of evidence that survives of English women in all walks of life from the time of Edward I to the eve of the Reformation The sources are introduced by a substantial overview of current thinking about English medieval women below the level of the greater aristocracy In addition Goldberg explores many of the methodological problems and strengths of particular sources Individual chapters explore the life cycle themes of childhood adolescence married life widowhood and old age The study then moves on to examine such topics as work in town and country prostitution the law recreation and devotion In every case the reader is exposed to a range of sources but particular attention is paid to those sources that reflect actual experience or provide insights into the lives of ordinary women rather than the prescriptive or purely literary texts A particular feature of this collection is the extensive use of church court depositions that allow the voices of peasant women servant girls bourgeois wives or poor widows to be heard across the centuries The sources are presented in a form designed to be accessible to undergraduates but of interest to teachers and researchers alike **Uncollected Essays** D. It begins with the first human inhabitants of this region who lived 400,000 years ago on the Wolds and it ends around the time of Domesday Book when Louth had developed into a true town and the whole region had begun to take on a recognizable form. It examines questions such as who were the first human inhabitants of the Louth region. When and how did people first begin to permanently settle in this region? And how did Louth develop into a significant local settlement and eventually a town? A full gazetteer of all archaeological finds made within 10 kilometres of Louth from Fulstow to Tathwell and Donington to Manby is provided as an appendix.

Royal Regulation of Loans and Sales in Medieval England Gwen Seabourne, 2003 Financial legislation demonstrates the advancing role of law in the later middle ages      *Plantagenet Ancestry: A Study In Colonial And Medieval Families, 2nd Edition, 2011* ,      *Everyday Life in Medieval England* Christopher Dyer, 2000-01-01 *Everyday Life in Medieval England* captures the day to day experience of people in the middle ages: the houses and settlements in which they lived, the food they ate, their getting and spending and their social relationships. The picture that emerges is of great variety of constant change of movement and of enterprise. Many people were downtrodden and miserably poor but they struggled against their circumstances, resisting oppressive authorities to build their own way of life and to improve their material conditions. The ordinary men and women of the middle ages appear throughout. *Everyday life in Medieval England* is an outstanding contribution to both national and local history.

**Communal Discord, Child Abduction, and Rape in the Later Middle Ages** J. Goldberg, 2007-12-25 Did medieval women have the power to choose? This is a question at the heart of this book which

explores three court cases from Yorkshire in the decades after the Black Death Alice de Rouclif was a child heiress made to marry the illegitimate son of the local abbot and then abducted by her feudal superior Agnes Grantham was a successful businesswoman ambushed and assaulted in a forest whilst on her way to dine with the Master of St Leonard s Hospital Alice Brathwell was a respectable widow who attracted the attentions of a supposedly aristocratic conman These are their stories

Fen and Sea I.G. Simmons,2021-12-22 Renowned environmental historian I G Simmons synthesizes detailed research into the landscape history of the coastal area of Lincolnshire between Boston and Skegness and its hinterland of Tofts Low Grounds and Fen as far as the Wolds With many excellent illustrations Simmons chronicles the ways in which this low coast backed by a wet fen has been managed to display a set of landscapes which have significant differences that contradict the common terminology of uniformity calling the area flat or referring to everywhere from Cleethorpes to King s Lynn as the fens These usually labeled flat areas of East Lincolnshire between Mablethorpe and Boston are in fact a mosaic of subtly different landscapes They have become that way largely due to the human influences derived from agriculture and industry Between the beginning of Norman rule and the advent of pumped drainage a number of significant changes took place The author has accumulated information from Roman times until the beginnings of fossil fuel powered drainage bringing together both scientific data and documentary evidence including medieval and early modern documents from the National Archive Lincolnshire Archives Bethlem Hospital and Magdalen College Oxford to explore the little known archives of regional interest

Class Conflict and the Crisis of Feudalism Rodney Hilton,1985-07-01 The conflict between landlords and peasants over the appropriation of the surplus product of the peasant holding was a prime mover in the evolution of medieval society In this collection of essays Rodney Hilton looks at the economic context within which these conflicts took place He seeks to explain the considerable variations in the size composition and management of landed estates and investigates the nature of medieval urbanisation a consequence of the development of both local commodity production and long distance trade in luxury goods By setting the broader economic context the nature of the peasant and landlord economies and the commercialisation of peasant production Hilton s essays enable a thorough understanding of the relationship between landlords and peasants in medieval society

**Sessions of the Peace for Bedfordshire, 1355-1359, 1363-1364** Great Britain. Court of Quarter Sessions of the Peace (Bedfordshire),1969 *Edward IV* Charles Ross,2023-12-22 In his own time Edward IV was seen as an able and successful king who rescued England from the miseries of civil war and provided the country with firm judicious and popular government The prejudices of later historians diminished this high reputation until recent research confirmed Edward as a ruler of substantial achievement whose methods and policies formed the foundation of early Tudor government This classic study by Charles Ross places the reign firmly in the context of late medieval power politics analyzing the methods by which a usurper sought to retain his throne and reassert the power of a monarchy seriously weakened by the feeble rule of Henry VI Edward s relations with the politically active classes the merchants gentry and

nobility form a major theme and against this background Ross provides an evaluation of the many innovations in government on which the king's achievement rests This title was originally published in 1974 In his own time Edward IV was seen as an able and successful king who rescued England from the miseries of civil war and provided the country with firm judicious and popular government The prejudices of later historians diminished this high reputation      **Oxfordshire Record Society Series** ,1983
