Public Order and Law Enforcement Anthony Musson, 1996 The period from 1294 to 1350 witnessed the final phase of the Angevin administrative advances in England and was crucial in determining the shape and principal features of England's new judicial system This study challenges the received orthodoxy on judicial development in the first half of the 14th century It concentrates on the personnel of local justice and the wider administrative context to build up a composite picture of attitudes to public order and law enforcement through a systematic examination of the surviving legal records
