Armstrong, Matthias J. Kuhn, Jörg Peltzer, Chun Fung Tong, 2024-06-04 The production and retention of written records was a common and important facet of pre modern rulership and administration Much of our understanding of governmental practices and expressions of authority come from the contents of such documents which have been well studied Less studied however are the records themselves as artefacts This volume is an attempt to redress this balance by taking a more holistic material approach to a range of written records Through a series of case studies this volume explores questions regarding the material characteristics of various records and their use It demonstrates that the material features of the records including the size and shape the hands that wrote them and the material substrate can shed new light on the functioning of government and the declarations of power these records asserted The ten contributions of this volume focus on records from a variety of rulers political systems and administrations With four case studies from early China and six from medieval Europe this volume offers transcultural perspectives to demonstrate how different cultures expressed rulership and administration materially through the use of text bearing artefacts Records of Han administration , 1967 The Grand Scribe's Records Qian Sima, 1994 This project will result in the first complete translation of the Shih chi The Grand Scribe's Records one of the most important narratives in traditional China Ssu ma Ch'ien 145 c 86 B C who compiled the work is known as the Herodotus of China Publisher *Federal Records*

of World War II.: Military agencies United States. National Archives and Records Service,1951 *The Making of Song Dynasty History* Charles Hartman,2021 A revisionist analysis of the major sources for Song history explaining their master narrative as the product of political tension *Medieval Chinese Medicine* Christopher Cullen,Vivienne Lo,2004-06-02 In recent decades various versions of Chinese medicine have begun to be widely practised in Western countries and the academic study of the subject is now well established However there are still few scholarly monographs that describe the history of Chinese medicine and there are none at all on the medieval period This collection represents the kind of international collaboration of research teams centres and individuals that is required to begin to study the source materials adequately The first book in English to discuss this fascinating material in the century since the Dunhuang library was discovered the text provides a unique and fascinating interpretation of Chinese medical history **The People between the Rivers** Catherine Churchman,2016-09-14 This fundamental study provides the first comprehensive history in any language of the lands between the Red and Pearl Rivers in southern China and the people who resided there over a span of a thousand years Bringing to life the mysterious early people known as Li and Lao who inhabited the area Catherine Churchman explores their custom of casting large bronze kettledrums As the symbols of political authority and legitimacy for the Li and Lao rulers the abundance of drums found in the archaeological record is an indication not only of the great number of such rulers but also of their great wealth and power which increased significantly from the third century CE even as the Chinese Empires tightened their control over surrounding districts Drawing on a combination of Classical Chinese sources and scholarship in archaeology anthropology and historical linguistics the author explains the political and economic factors behind the rise to power and subsequent disappearance of the indigenous leadership and its drum culture She fills significant gaps in our understanding of the early interactions between China and northern Southeast Asia challenging many widely held assumptions about the history of Chinese settlement and ethnic relations in the region including those concerning the relationship between the Chinese Empires and the lands that would form the heart of a future Vietnamese state A crucial work for understanding historical developments in the highland regions south of the Yangtze valley it examines the first steps in the Sinic penetration of this highland world one that has continued to the present Bringing unprecedented attention to the historical identity of a previously overlooked region and a people this book creates a new category in East Asian history
