## **Recreating Sexual Politics Men Feminism And Politics:**

Recreating Sexual Politics Victor J. Seidler, 2009-10-23 First published in 1991 this title examines sexual politics in a world which is being radically changed by the challenges of feminism Seidler explores how men have responded to feminism and the contradictory feelings men have towards dominant forms of masculinity *Recreating Sexual Politics (Routledge Revivals)* Victor Seidler, 2009-12-15 This thought provoking book first published in 1991 examines sexual politics in a world which is being radically changed by the challenges of feminism Seidler explores how men have responded to feminism and the contradictory feelings men have towards dominant forms of masculinity Seidler's stimulating and original analysis of social and political theory connects personally to everyday issues in people's lives It reflects the growing importance of sexual and personal politics within contemporary politics and culture and demonstrates clearly the challenge that feminism brings to our inherited forms of morality politics and sexuality *The New Politics of Masculinity* Fidelma Ashe, 2007-11-30

Explores the new politics of masculinity and gender identity examining the contemporary discourses of masculinity by focusing on male pro feminist movements and locating them within the context of feminist debates **Cultures of Consumption** Frank Mort, 2013-04-15 Examines the construction of images of masculinity and the effect they have on identity sexuality and sexual politics Influences from black and white culture are explored as well as the ironies of class colour and sexuality *From Panthers to Promise Keepers* Judith Lowder Newton, 2005 From Panthers to Promise Keepers draws on intimate observations of the men and networks who were involved in what some have called Othe menOs movementO and tells us why these networks mattered Focusing on the decades between 1950 and 2000 it argues that while public structural change is necessary for gender equality getting men involved in efforts at social justice may well depend on their making changes with respect to feelings and with respect to their unconscious fears and anxieties as well

Recovering the Self Victor Jeleniewski Seidler, 2013-01-11 This important book seeks to place questions of morality and justice at the heart of social theory By exploring the works of Marx Durkheim and Weber it shows the hidden complexities of a modernity too often identified with a unified vision of the rational self later to fall apart into fragments within postmodernity Reinstating the body and emotional life Seidler sets new terms for respect and equality showing ways the self is undermined in its sense of self worth and adequacy through the workings of relationships of power and subordination Drawing upon feminism and Critical Theory to question the allegedly straightforward opposition between essentialism and social constructionism Seidler places the issues of morality right into the centre of the self problem Through reinstating connections between the self and the historical adventures of socialism feminism masculinity ethnicity and autobiographically Jewish identity he shows the intimate affinity between these different categories of experience Identities are not freely chosen but involve a coming to terms with histories of class race and gender Critical of postmodern theories in which anything goes and in which everything you see is relative this book is concerned with the reassertion of value and

recovering a viable tradition in which we can again explore issues of freedom and social justice Our discussions have turned increasingly esoteric as they have sheltered in an intellectual cage which has been difficult to enter This book seeks to open up the cage and re establish the suspended conversation between social theory and the concerns of everyday life **Gays and Lesbians in the Military** Wilbur J. Scott, Sandra Carson Stanley, Despite the amply documented presence of significant numbers of undeclared homosexual soldiers sailors and Air Force personnel the official position of the American military since the Second World War has been to ban gay men and lesbian women from serving in the United States military Enlistment of openly gay or lesbian military personnel has not been permitted those already in the military service who have subsequently come out as gays and lesbians have been mustered out of the service with no prospect of appeal **Where is the Good in the World?** David Henig, Anna Strhan, Joel Robbins, 2022-07-08 Bringing together contributions from anthropology sociology religious studies and philosophy along with ethnographic case studies from diverse settings this volume explores how different disciplinary perspectives on the good might engage with and enrich each other The chapters examine how people realize the good in social life exploring how ethics and values relate to forms of suffering power and inequality and in doing so demonstrate how focusing on the good enhances social theory This is the first interdisciplinary engagement with what it means to study the good as a fundamental aspect of social life *Remembering Diana V. Seidler*, 2013-04-16 Analysing the events surrounding the death of Diana Princess of Wales in 1997 Vic Seidler considers the public outpourings of grief and displays of emotion which prompted new kinds of identification and belonging in which communities came together regardless of race class gender and sexuality [Unreasonable Men](#) Victor J. Seidler, 2013-07-23 This much needed book is the first to show how dominant forms of masculinity are implicated in the traditions of social theory that have emerged since the Enlightenment The author shows how an unreasonable form of reason has emerged from the separation of reason from emotion mind from body nature from culture public from private matter from spirit the dualities that have shaped our vision of modernity The book argues that men need to explore critically their power and experience which has been rendered invisible by the dominant traditions of social theory Instead of legislating for others they have to learn to speak more personally for themselves *Politics, Policies and Pedagogies in Education* Bob Lingard, 2013-07-24 In the World Library of Educationalists international experts compile career long collections of what they judge to be their finest pieces of work extracts from books key articles salient research findings major theoretical and practical contributions so the world can read them in a single manageable volume Readers will be able to follow the themes and strands and see how their work contributes to the development of the field Bob Lingard has spent the last 30 years researching and writing in universities in Australia England and Scotland about changing education policy issues His work is written from a sociological perspective and with a commitment to social justice He is the co editor and co author of 17 books and more than 100 journal articles and book chapters In *Politics Policies and Pedagogies in Education* Bob Lingard provides

critical sociological engagement with the politics of education The focus is education policy and the impact of globalization including epistemological and methodological issues necessary for researching education policy today Topics analyzed include educational restructuring new accountabilities and testing mediatization of education policy policy as numbers the global policy field and policy borrowing pedagogies Lingard also considers the nature of educational research today He has selected 12 of his key writings and in a critical introduction situates and contextualizes the work against key developments in the field and in the changing world     Dislocating Masculinity Andrea Cornwall, Nancy Lindisfarne, 2003-09-02 This book draws upon anthropology feminism and postmodernism to offer a penetrating and challenging study of how gender operates The book offers a radical critique of much of the recent writing on and by men and raises important questions about emotion agency and the variety of masculine styles     Fathers and Daughters Sue Sharpe, 2013-04-15 Fathers and Daughters explores the complex nature of this subject using the voices and experiences of both fathers and daughters Sue Sharpe provides an examination of the important processes operating within the relationship such as those affecting gender roles achievement teenage sexuality women's relationships with men and ageing It is an original and captivating treatment of a strangely neglected subject Sue Sharpe is a free lance writer and researcher based in London     Men, Masculinity and Contemporary Dating Chris Haywood, 2018-05-02 At a time when traditional dating practices are being replaced with new ways to meet potential partners this book provides fresh insights into how are men responding to new ways of dating Drawing upon original research this book examines a wide range of contemporary dating practices that includes speed dating holiday romances use of dating apps online sex seeking and dogging It reveals the ways in which men draw upon traditional models of masculinity to negotiate these changes but also the extent to which men are responding by elaborating new masculinities Through an investigation of the dynamics of heterosexuality and masculinity this book highlights the importance attached to authenticity and the increasing marketization and commodification of dating It argues that in a post truth world men must also come to terms with a post trust dating landscape Combining rich empirical material with keen theoretical analysis this innovative work will have interdisciplinary appeal for students and scholars of sociology media studies cultural studies and gender studies     Bending Bodies Thomas Johansson, Soren Ervo, 2024-11-01 This title was first published in 2003 The contributing authors have sought to integrate a gender perspective into their respective fields without isolating it from other theoretical accounts The chapters attempt to employ insights from feminist work and gender studies in general yet insist on criticizing monolithic accounts of masculinity and elaborating on more differentiated historically and socially embedded accounts of men's lives and their construction of masculinities The volume is the result of interdisciplinary workshops focusing on questions of male sexuality the male body and masculine representations primarily investigating the relationship between change and continuity within western patriarchal society and the theoretical rather than political implications of the new research in men and masculinities This volume differs from the first in that it deals with the

construction of masculine identities on an individual level the individual man's relationship with his own body and sexuality

**Jewish Philosophy and Western Culture** Victor J. Seidler, 2007-11-28 This is one of the first textbooks to try to set the entire discipline of Jewish philosophy in its proper cultural and historical contexts. In so doing it introduces the vibrant Jewish philosophical tradition to students while also making a significant contribution to inter-religious dialogue. Victor J. Seidler argues that the dominant Platonic tradition in the West has led to a form of cultural ethics which asserts false superiority in its relationships with others. He offers a critical reappraisal of the philosophical underpinnings of this western Christian culture which for so long has viewed Judaism with hostility. Examining the work of seminal Jewish thinkers such as Philo, Buber, Mendelsohn, Herman, Cohen, Leo Baeck, Levinas, Rosenzweig and others, the author argues for a code of ethics which prioritises particular and personal moral responsibility rather than the impersonal and universal emphases of the Greek tradition. His provocative and original overview of Jewish philosophy uncovers a vital and neglected tradition of thought which works against the likelihood of a Holocaust recurring.

**The Columbia Dictionary of Modern Literary and Cultural Criticism** Joseph Childers, Gary Hentzi, 1995 More than 450 succinct entries from A to Z help readers make sense of the interdisciplinary knowledge of cultural criticism that includes film, psychoanalytic, deconstructive, poststructuralist and postmodernist theory as well as philosophy, media studies, linguistics.

**Embodying Identities** Victor J. Seidler, 2010-04 Embodying Identities presents social theories that allow people to embody their differences with a sense of dignity and self-worth, enabling them to understand the complexities of their lived identities in a post-modern globalised world.

Transforming Masculinities Vic Seidler, 2006-03-20 Critically exploring the ways in which men and masculinities are commonly theorized, this multidisciplinary text opens up a discussion around such relationships and shows that, as with feminism, there is a diversity of theoretical traditions. It draws on a variety of examples and explores new directions in the complexities of diverse male identities and emotional lives across different histories, cultures and traditions. This book considers the experiences of different generations, explores connections between masculinity and drugs, investigates men and masculinities in a post-9/11 world, considers new ways of thinking about male violence, recognizes the importance of culture and provides spaces to explore different class, race and ethnic masculinities. Written in a practical, versatile manner by an established author in this field, it points to new directions in thinking and makes essential reading for advanced undergraduates, postgraduates and researchers in the fields of sociology, gender studies, politics, philosophy and psychology.

*Man Enough* Victor J. Jeleniewski Seidler, 1997-09-15 In this book, one of the leading contributors to the growing debate about men, masculinities and sexual politics, Victor J. Seidler criticizes the Enlightenment coupling of white heterosexual masculinity with reason. He argues that in modern society, masculinity can never be taken for granted. Men must always prove that they are man enough to cope in the correct way with the problems and challenges of everyday life. Seidler believes that men have to break this chain of obligations to the Enlightenment notion of masculinity. Through engaging with men's diverse

relationships with their bodies sexualities emotional lives feelings and desires Seidler explores ways of affirming masculinities while critically engaging with the power that men have in the wider society The book is also a contribution to antisexist politics Seidler is interested in taking on those forms of men s politics which find it difficult to engage with men s power and society and also those who take it for granted that male power is normal and natural He seeks to recognize both the power that white heterosexual masculinities have in shaping forms of philosophy and social theory while at the same time recognizing that masculinity cannot be simply defined as a relationship of power
