William Swan Sonnenschein

Red Air Fighter:

Red Air Sanu Kainikara, 2007-10 The Russian Air Force carries the mantle of the erstwhile Red Air Force of the Soviet Union and has a long and illustrious history backed by grand traditions and customs The Russian Air Force is still coming to grips with its changed circumstances after the collapse of the Soviet Union and is perhaps in the best shape of the three armed forces to be able to lend credence to the Russian Federation's claim to international influence and power projection capabilities Doctrine is the reflection of a nation's character and air power doctrine is influenced by the strategic culture of a nation Nowhere else is this more apparent than in the case of the Russian Air Force The Red Air Force has been directly influenced by the political upheavals in the Soviet Union and now Russia but has displayed exemplary resilience in continuing to provide adequate support for government policies The impact of political ideology on the development of doctrine and air power has not been greater in any other air force around the world This book is an extension of a doctoral thesis produced in 2005 and is essential reading for anyone trying to come to grips with the intricate relationship that exists between national security imperatives political ideology and the development of military doctrine Back cover [Air University Library Index to Military Periodicals](#), 1952 [Eye of the Viper](#) Peter Aleshire, 2005-11-01 Hand picked pressure tested and full of astronaut gung ho the young pilots of Eye of the Viper are poised for the toughest assignment of their career the exhaustive six month training course at Arizona's Luke Air Force Base at a cost of 2 million each Luke the world's largest fighter wing is the only F 16 fighter training base in the United States and each year it produces one thousand pilots who will fly the F 16 from Korea to Afghanistan to Iraq But being among the elite pilots who are selected for the course is by no means a guarantee that they will earn the right to fly the F 16 Only a few select individuals will have what it takes Award winning journalist Peter Aleshire provides a full blast of the rigors and intensity of the course the personalities the incredible machines the irreverence the bravado and the toughness not only of the hand picked students seeking a place in the warrior subculture but of the veteran pilots who must teach them how to stay alive *aviation in peace and war* f.h. sykes, 1922

The Coming of the Aerial War Michele Haapamäki, 2014-01-08 In the first half of the 20th century the possibility of flight opened up entirely new avenues of thought and exploration In the age of H G Wells and Biggles the opening up of the air to balloons and planes the Royal Flying Corps was founded in 1912 appealed to concepts of courage and bravery which would be both encouraged and undermined by the experiences of World War I The sky also held new terrors for everyday people who were now within reach of an airborne enemy these fears included the possibilities of bombing poison gas surveillance and social control This duality of fear and enthusiasm drove the Air Raid Precaution movement while vocal elements in the press and in parliament called for radical plans to cope with apocalyptic scenarios Here Michele Haapamäki charts the history of flight and of war in the air in the early twentieth century addressing the key issues of interwar historiography such as patriotism fear masculinity and propaganda
