Learning Religion David Berliner, Ramon Sarró, 2008-10 As we enter the 21st century it becomes increasingly difficult to envisage a world detached from religion or an anthropology blind to its study Yet how people become religious is still poorly studied This volume gathers some of the most distinguished scholars in the field to offer a new perspective for the study of religion one that examines the works of transmission and innovation through the prism of learning They argue that religious culture is socially and dynamically constructed by agents who are not mere passive recipients but engaged in active learning processes Finding a middle way between the social and the cognitive they see learning religions not as a mechanism of downloading but also as a social process with its relational dimension PaGaian Cosmology Glenys Livingstone, 2005

PaGaian Cosmology brings together a religious practice of seasonal ritual based in a contemporary scientific sense of the cosmos and female imagery for the Sacred The author situates this original synthesis in her context of being female and white European transplanted to the Southern Hemisphere Her sense of alienation from her place which is personal cultural and cosmic fires a cosmology that re stories Goddess metaphor of Virgin Mother Crone as a pattern of Creativity which

unfolds the cosmos manifests in Earth's life and may be known intimately. PaGaian Cosmology is an ecospirituality grounded in indigenous Western religious celebration of the Earth Sun annual cycle. By linking to story of the unfolding universe this practice can be deepened and a sense of the Triple Goddess central to the cycle and known in ancient cultures developed as a dynamic innate to all being. The ritual scripts and the process of ritual events presented here may be a journey into self knowledge through personal communal and ecological story. The self to be known is one that is integral with place. PaGaian Cosmology may be used as a resource for individuals or groups seeking new forms of devotional expression and an Earth based pathway to wisdom within.

The Menstrual Cycle Anne Walker, 2008-03-07 Anne Walker shows that women are neither the victims of raging hormonal fluctuations nor entirely unaffected by them. Unlike most previous publications that focus on menstruation a part of the cycle The Menstrual Cycle presents a well researched study of the entire menstrual cycle and its relationship to women's lives. Women's own experiences in different cultures are contrasted with medical textbook descriptions and the normal is found to be rather elusive. This book will be read by discourse analysts doctors nurses and any woman who has felt curious about her menstrual cycle and its possible effects.

The Menstrual Cycle Anne E. Walker, 1997 Presents a well researched study of the entire menstrual cycle and its relationship to women's lives.

Issues in the Psychology of Women Maryka Biaggio, Michel Hersen, 2007-05-08 Over the past 15 years I MB have taught a graduate level

course in Psychology of Women to students in two different professional psychology programs Because my students were at the doctoral level and often had some familiarity with the psychology of women these courses focused on bringing a feminist analysis of psychology and integrating a feminist analysis into one's scholarly work and professional activities Although I used several fine psychology of women textbooks during this time I found none that was specifically designed for graduate students Thus I always augmented the textbook with journal articles on specific aspects of the topic and these focused articles have typically been well received by the students The students whom I have encountered in these courses have often expressed a wish for a textbook that is designed for their needs I think what they are asking for is one that could serve as a foundation for their scholarly analysis of psychology as well as a springboard for thoughtful application of a feminist perspective to the profession of psychology Therefore *Issues in the Psychology of Women* has been designed to serve as a textbook for advanced undergraduate or graduate courses including Psychology of Women or Feminist Analysis of Psychology This book is the collective work of authors with special expertise in their chapter topic *Feminist Collections*, 1989
