Mao's Last Revolution Roderick

MACFARQUHAR, Michael Schoenhals, 2009-06-30 The Cultural Revolution was a watershed event in the history of the People's Republic of China the defining decade of half a century of communist rule Before 1966 China was a typical communist state with a command economy and a powerful party able to keep the population under control But during the Cultural Revolution in a move unprecedented in any communist country Mao unleashed the Red Guards against the party Tens of thousands of officials were humiliated tortured and even killed Order had to be restored by the military whose methods were often equally brutal In a masterly book Roderick MacFarquhar and Michael Schoenhals explain why Mao launched the Cultural Revolution and show his Machiavellian role in masterminding it which Chinese publications conceal In often horrifying detail they document the Hobbesian state that ensued The movement veered out of control and terror paralyzed the country Power struggles raged among Lin Biao Zhou Enlai Deng Xiaoping and Jiang Qing Mao's wife and leader of the Gang of Four while Mao often played one against the other After Mao's death in reaction to the killing and the chaos Deng Xiaoping led China into a reform era in which capitalism flourishes and the party has lost its former authority In its invaluable critical analysis of Chairman Mao and its brilliant portrait of a culture in turmoil Mao's Last Revolution offers the most authoritative and compelling account to date of this seminal event in the history of China Contemporary China in the Post-Cold War Era Bih-jaw Lin, James T. Myers, 1996 Consists of 17 papers delivered at the 23rd Sino American Conference on Contemporary China held in Taipei in June 1994 Contributors from the fields of economics political science international relations sociology and Asian studies analyze recent changes in politics economics foreign relation The Greenwood Encyclopedia of Asian American Literature Guiyou Huang, 2008-12-30 Asian American literature dates back to the close of the 19th century and during the years following World War II it significantly expanded in volume and diversity Monumental in scope this encyclopedia surveys Asian American literature from its origins through 2007 Included are more than 270 alphabetically arranged entries on writers major works significant historical events and important terms and concepts Thus the encyclopedia gives special attention to the historical social cultural and legal contexts surrounding Asian American literature and central to the Asian American experience Each entry is written by an expert contributor and cites works for further reading and the encyclopedia closes with a selected general bibliography of essential print and electronic resources While literature students will value this encyclopedia as a guide to writings by Asian Americans the encyclopedia also supports the social studies curriculum by helping students use literature to learn about Asian American history and culture as it pertains to writers from a host of Asian ethnic and cultural backgrounds including Afghans Chinese Japanese Koreans Filipinos Iranians Indians Vietnamese Hawaiians and other Asian Pacific Islanders The encyclopedia supports the literature curriculum by helping students learn more about Asian American literature In addition it supports the social studies curriculum by helping students learn about the Asian American historical and cultural experience **China's Continuous Revolution** Lowell Dittmer, 2024-03-29 China's Continuous Revolution The Post Liberation Epoch 1949 1981 explores the ambitious and

transformative era of China's political landscape after the founding of the People's Republic in 1949. This meticulously researched volume delves into the ideology of continuous revolution under the dictatorship of the proletariat and its profound impact on Chinese politics. Drawing from extensive interviews and historical analysis, the book examines key elements such as charismatic leadership, mass mobilization, and the complex restructuring of authority, highlighting the successes, failures, and eventual exhaustion of revolutionary zeal. It provides a nuanced perspective on China's socio-political evolution during a pivotal era of change, grappling with questions about legitimacy, power dynamics, and the role of ideology in shaping policy and governance. Dittmer's work also contrasts China's revolutionary trajectory with global ideological movements, presenting a critical examination of the enduring tensions between utopian aspirations and practical governance. By analyzing the Cultural Revolution, agricultural collectivization, and the broader socio-political reforms of the era, the book offers a compelling narrative of a nation's struggle to reconcile revolutionary ideals with the realities of modern state building. Scholars, students, and readers interested in China's contemporary history and political development will find this an invaluable resource for understanding the complexities of revolution and reform in a rapidly transforming society. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1987.

History, Empathy and Conflict Philip Towle, 2018-05-15. This book argues that popular culture has been transformed in a silent revolution from emphasising history's heroes to its victims. While city squares and stations were named in the nineteenth century after military victories, now the equivalent airports are named after the victims of violence. Where war reports used to focus on the leadership of the generals and the bravery of the troops, now they are mostly about casualties, refugees, and destruction. *History, Empathy and Conflict* examines the diplomatic consequences of such a revolution in sensibility. Many governments have responded by apologising for their country's historic actions. History teaching in schools has sometimes been revised to reflect the new emphasis and to build confidence between nations and respect for domestic minorities. Not least of the reasons for these changes is the difficulty or impossibility of making restitution for past wrongs. But history can also be used by the media and governments to justify intervention to protect victims of civil wars, only to come to be seen as victimisers themselves. The past is always difficult to interpret, but is the basis of all our decisions, and all institutions try to twist it to their own convenience. Sympathy with history's victims is a great moral advance, but it can be used by dissatisfied nations to justify their revisionist policies, and with the election of President Trump in 2016, all the Great Powers claim to be history's victims.

Conditional Democracy Émilie Frenkiel, 2015-03-01. Little is known about the political views of non-dissident Chinese intellectuals. post Tiananmen reform Her in depth research elicits lively views that reflect the yearnings and fears of the country s political elite and reveal the diversity of approaches to China s democratisation
