The Geology of England and Wales P. J. Brenchley, Peter Franklin Rawson, 2006 This second edition of *The Geology of England and Wales* is considerably expanded from its predecessor reflecting the increase in our knowledge of the region and particularly of the offshore areas Forty specialists have contributed to 18 chapters which cover a time range from 700 million years ago to 200 million years into the future A new format places all the chapters in approximately temporal order Both offshore and economic geology now form an integral part of appropriate chapters Red Crag Guangbin Luo, Yiyang

Yang, 1978 *A History of Contemporary Chinese Literature* Zicheng Hong, 2007 A thorough overview and analysis of the literary scene in China during the 1949-1999 period focusing primarily on fiction poetry drama and prose writing Provided by publisher **The Geology of the N.W. Part of Essex and the N.E. Part of Herts** Alexander Henry Green, Edward

Hull, Sir Andrew Crombie Ramsay, William Whitaker, William Talbot Aveline, 1858 The Making and Remaking of China's "Red Classics" Rosemary Roberts, Li Li, 2017-10-19 The Making and Remaking of China's Red Classics is the first full length work to bring together research on the red classics across the entire Maoist period through to the reform era It covers a representative range of genres including novels short stories films TV series picture books animation and traditional style paintings Collectively the chapters offer a panoramic view of the production and reception of the original red classics and the adaptations and remakes of such works after the Cultural Revolution The contributors present fascinating stories of how a work came to be regarded as or failed to become a red classic There has never been a single answer to the question of what counts as a red classic artists had to negotiate the changing political circumstances and adopt the correct artistic technique to bring out the authentic image of the people while appealing to the taste of the mass audience at the same time A critical examination of these works reveals their sociopolitical and ideological import aesthetic significance and function as a mass cultural phenomenon at particular historical moments This volume marks a step forward in the growing field of the study of Maoist cultural products The Making and Remaking of China's Red Classics analyzes the creation of literature in the Maoist era as well as the way in which the revolutionary canon was rediscovered and imagined during the reform period This book is a timely and fascinating set of studies critically illuminating a foundational time during PRC history and its aftermath Wendy Larson professor emerita University of Oregon Creative works produced in the Mao era 1942-1976 are often dismissed as mere propaganda Despite the fact that they are artistic reflections of that remarkable period scholars have generally ignored these red classics This book throws much needed light on them It is a must read for anyone wanting to understand the cultural scene in China Kam Louie honorary professor University of Hong Kong and UNSW Australia **Exhibiting the Past** Kirk A. Denton, 2013-12-31 During the Mao era China's museums served an explicit and uniform propaganda function underlining official Party history eulogizing revolutionary heroes and contributing to nation building and socialist

construction With the implementation of the post Mao modernization program in the late 1970s and 1980s and the advent of globalization and market reforms in the 1990s China underwent a radical social and economic transformation that has led to a vastly more heterogeneous culture and polity Yet China is dominated by a single Leninist party that continues to rely heavily on its revolutionary heritage to generate political legitimacy With its messages of collectivism self sacrifice and class struggle that heritage is increasingly at odds with Chinese society and with the state s own neoliberal ideology of rapid paced development glorification of the market and entrepreneurship In this ambiguous political environment museums and their curators must negotiate between revolutionary ideology and new kinds of historical narratives that reflect and highlight a neoliberal present In *Exhibiting the Past* Kirk Denton analyzes types of museums and exhibitionary spaces from revolutionary history museums military museums and memorials to martyrs to museums dedicated to literature ethnic minorities and local history He discusses red tourism a state sponsored program developed in 2003 as a new form of patriotic education designed to make revolutionary history come alive and urban planning exhibition halls which project utopian visions of China s future that are rooted in new conceptions of the past Denton s method is narratological in the sense that he analyzes the stories museums tell about the past and the political and ideological implications of those stories Focusing on official exhibitionary culture rather than alternative or counter memory Denton reinserts the state back into the discussion of postsocialist culture because of its centrality to that culture and to show that state discourse in China is neither monolithic nor unchanging The book considers the variety of ways state museums are responding to the dramatic social technological and cultural changes China has experienced over the past three decades

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
