known as a poet and communist whose daring flight by motorboat from Turkey to the Eastern Bloc captured international headlines in 1951. One of the most important poets to have written in the Turkish language, Nâzım Hikmet's dramatic life story is fascinating in its own right but also intersects with the story of the broader twentieth century. James H. Meyer situates Nâzım Hikmet within the broader context of Turkish communist border crossers, individuals whose lives would go on to be shaped significantly by their ability, inability, or need to traverse the frontier. Born at the turn of the twentieth century and coming of age in the early 1920s, the women and men from Nâzım Hikmet's generation were the last of the Ottomans' Children of Empire; they had grown up in an era of porous frontiers but by the time they reached their third decade, these borders had begun to close. Drawing upon an enormous amount of previously untapped archival materials and personal papers from Moscow, Istanbul, Amsterdam, and Washington, DC, Meyer has written a biography of Nâzım Hikmet unlike any other. A book of world history wrapped inside a life story, *Red Star Over the Black Sea* shows how changing attitudes toward borders and the people who cross them impacted a late imperial generation all the way up to the final years of the Cold War.

**Red Star Over China - The Rise Of The Red Army** Edgar Snow, 2013-04-18. Originally published in 1939, this is both a far-reaching history and an eyewitness account of the communist revolution in China. Contains a number of excellent historical photographs. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. Hesperides Press are republishing these classic works in affordable, high-quality modern editions using the original text and artwork.

Contents Include: In Search of Red China, The Road To The Red Capital, In Defended Peace, Genesis of A Communist, The Long March, Red Star In The North West, En Route To The Front With The Red Army, With The Red Army, War And Peace, Back To Pao An, White World Again.

**The Red Star and the Crescent** James Reardon-Anderson, 2018-04-01. *The Red Star and the Crescent* provides an in-depth and multi-disciplinary analysis of the evolving relationship between China and the Middle East. Despite its increasing importance, very few studies have examined this dynamic, deepening, and multi-faceted nexus. James Reardon-Anderson has sought to fill this critical gap. The volume examines the big picture of international relations, then zooms in on case studies and probes the underlying domestic factors on each side. Reardon-Anderson tackles topics as diverse as China's security strategy in the Middle East, its military relations with the states of the region, its role in the Iran nuclear negotiations, the Uyghur question, and the significance and consequences of the Silk Road strategy. A comprehensive study of the changing forces driving one of the world's most important strategic, economic, and cultural relationships.

From New York Times bestselling authors Steve Berry and Grant Blackwood comes an action-packed adventure in the waning days of the Cold War. Luke Daniels embarks on a quest in search of the legendary library of Ivan the Terrible, the unlikely key to ending a looming threat orbiting two hundred miles above the earth. Wrapping up his latest assignment for the Magellan Billet, Luke Daniels receives a surprise visit from the head of a former CIA operation named Sommerhaus, a failed attempt to assemble an espionage

network within the Ukraine on the eve of the Russian invasion Sommerhaus ranks high on Luke's list of painful regrets for it was during this mission that his friend CIA case officer John Vince was captured by Russian operatives and supposedly executed But Luke is provided some shocking news Vince is alive in failing health locked behind the walls of Russia's brutal Solovetsky Island prison and has a critical message he'll give to no one but Luke Luke vows to bring Vince home However just as he manages to extract his friend from prison Vince tragically dies and his final words are rambling and incoherent but enough to plunge Luke into a hunt for something lost since the 15th century The legendary library of the first Tsar of All Russia Ivan the Terrible Within that priceless collection of rare manuscripts is the key to unraveling a modern day cipher and stopping a secret Soviet satellite program that still exists But Luke is not the only one on the trail Others both inside and out of Russia want the library for a totally different reason to restart the Red Star program and finally unleash its destructive potential Luke's mission is clear find the lost library solve the puzzle and prevent Red Star falling *Red Star on the Nile* Alvin Z. Rubinstein, 2015-03-08 The Soviet Egyptian relationship after the June War of 1967 was a new one for both countries and its consequences were of global importance Drawing on all available Soviet and Arab materials Alvin Rubinstein develops the concept of influence as an analytical tool and explores in comprehensive fashion the diplomatic military political and economic aspects of the influence relationship between the two nations in recent years The author's approach is chronological analytical and oriented toward the issues He finds that the relationship has been fundamentally asymmetrical in aims and accomplishments Egypt's remarkable comeback after the June War would not have been possible without Soviet aid but Moscow benefited primarily in the context of the Soviet American strategic rivalry in the Middle East and only peripherally in terms of influence over Egypt Considering broader Soviet Third World relationships the author shows that there is no demonstrable correlation between intensified interactions and influence that an extensive presence is no assurance of influence and that Soviet influence can seldom be exercised at will in the absence of an ability to project Soviet military power directly Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **To Run for Life from Swastika and Red Star** Alfred Reisfeld, 2002 When the Germans invaded Poland in September 1939 the author and his father were drafted into the Polish Army After a few days of hopeless fighting the brigade in which the author served was routed and dispersed This precipitated a headlong flight of soldiers and civilians alike anxious to escape the murderous attack of the rapidly advancing enemy armored columns and their attendant aircraft which ceaselessly bombed and strafed roads and villages For some three weeks Aaron Reisfeld and his father desperately sought to escape the Nazi onslaught by fleeing

eastward to the Russian border and the perceived safety that country offered It was a harrowing ordeal covering hundreds of kilometers during which the Reisfelds endured hunger exposure bombing shelling and countless dangers on roads clogged with millions of terrified escaping refugees At the outbreak of war the author lived a comfortable life in a reasonably affluent home in the town of Lodz and was about to complete his last year of high school Little did he know it would be more than a decade before he could complete his education and obtain a degree in textile engineering from Nottingham College in England In that decade the author survived many trials by fire and mortal danger first in escaping from the Nazis then fighting the Germans in North Africa as a soldier in the British Army and finally serving in the Israeli Army in that country s bloody war for independence While he managed to escape the fires of the Holocaust his mother sister and most members of his extended family were consumed in it along with six million Jews and untold numbers of gentiles Running from the advancing Nazis the author and his father through sheer determination willpower to survive and luck managed to reach the Russian Zone of Occupation and its temporary safety Soon however they found they had to flee from the Russians as well when they began deporting into the Siberian hinterland capitalists professionals and the intelligentsia who were unlikely to hew to the Soviet ideology and order Fleeing the Russians the Reisfelds brought off another harrowing escape this time by crossing a raging river in the middle of a cold wintry night into Romania where they hoped to find a temporary haven Because they had crossed illegally into the country the author and his father were apprehended by the Romanian police and forced to serve a brief jail sentence before being set free and allowed to stay in that country From their base in Bucharest Reisfeld s father tried to arrange for his mother s and sister s escape from Nazi occupied Poland Such arrangements were difficult to make but possible by bribing the right police and Nazi officials Reisfeld s father succeeded in making those arrangements and his mother and sister were set to travel to then neutral Italy from where they could continue on to Palestine But just as they were about to depart Italy entered the war on Germany s side thus trapping them in Poland and sealing their doom The security they found in Romania did not last as both Germany and the Soviets were poised to march into Romania and partition the country between them The Reisfelds had to flee once again before they could be overtaken by their dreaded enemies They managed to book passage on one of the last passenger ships to leave Romania barely days ahead of the German occupation After a tour of eastern Mediterranean ports the Reisfelds finally landed in Haifa where they were taken in by family members already established in Palestine Yet this was hardly the end of the author s peregrinations With the war raging in North Africa and creeping closer to Palestine Aaron joined the British Army s Corp of Royal Engineers as a sapper lifting and planting mines blowing up fortifications and building and destroying bridges among ot

**Yellow Star, Red Star** Jelena Subotić, 2019-12-15 Yellow Star Red Star asks why Holocaust memory continues to be so deeply troubled ignored appropriated and obfuscated throughout Eastern Europe even though it was in those lands that most of the extermination campaign occurred As part of accession to the European Union Jelena Suboti shows East European states were

required to adopt participate in and contribute to the established Western narrative of the Holocaust This requirement created anxiety and resentment in post communist states Holocaust memory replaced communist terror as the dominant narrative in Eastern Europe focusing instead on predominantly Jewish suffering in World War II Influencing the European Union s own memory politics and legislation in the process post communist states have attempted to reconcile these two memories by pursuing new strategies of Holocaust remembrance The memory symbols and imagery of the Holocaust have been appropriated to represent crimes of communism Yellow Star Red Star presents in depth accounts of Holocaust remembrance practices in Serbia Croatia and Lithuania and extends the discussion to other East European states The book demonstrates how countries of the region used Holocaust remembrance as a political strategy to resolve their contemporary ontological insecurities insecurities about their identities about their international status and about their relationships with other international actors As Suboti concludes Holocaust memory in Eastern Europe has never been about the Holocaust or about the desire to remember the past whether during communism or in its aftermath Rather it has been about managing national identities in a precarious and uncertain world      **Black Earth, Red Star** R. Craig Nation,2018-07-05 R Craig Nation provides the first post Cold War history of the Soviets seventy five year struggle to maintain an effective national security policy in a hostile world without altogether abandoning the commitment to their original internationalist ideals

**Red Star Over Africa** Anthony Harrigan,1964 Rabidly polemic and racist pamphlet written by a US journalist who in the spirit of the Cold War attempts to depict all liberation movements as a Communist plot for world domination From this standpoint he defends apartheid and the Portuguese colonial regime as outpost of Western civilisation on the African continent He concludes The choice is clear cut either the West predominates in Africa or there will be a triumph of naked barbarism over Western civilization      **Red Sky Over Dartmoor** Tony Rea,2017-06-13 On a September morning in 1920
