Yuga Cycles for the Modern World Norah Romney, Today the word God carries a lot of baggage People conjure up different meanings for it based on their backgrounds and cultures it often evokes positive and negative emotions Humanity living in God s awareness on a day to day basis is often complicated for people from the Dwapara Yuga As previously discussed atheism and science often limit the Kali Yuga conception of God According to Sri Yukteswar God is not a venerable personage who resides in an antiseptic corner of the universe As a result of God s consciousness which is pure and beyond form and limitations our consciousness is an inextricable expression of his consciousness As we become more aware of ourselves we become part of God s pure consciousness Humanity has discovered more profound subtle aspects of its true identity through the yugas The layers of wrapping that hide the gift inside get removed as we move through the yugas Most wrappings will be removed in Satya Yuga revealing the gift underneath as if through a thin layer of tissue Each individual in Satya Yuga will experience God the Spirit beyond this visible world after removing the last layer

The World of Myth David Adams Leeming, 1992-02-27 Hercules Zeus Thor Gilgamesh these are the figures that leap to mind when we think of myth But to David Leeming myths are more than stories of deities and fantastic beings from non Christian cultures Myth is at once the most particular and the most universal feature of

civilization representing common concerns that each society voices in its own idiom Whether an Egyptian story of creation or the big bang theory of modern physics myth is metaphor mirroring our deepest sense of ourselves in relation to existence itself Now in *The World of Myth* Leeming provides a sweeping anthology of myths ranging from ancient Egypt and Greece to the Polynesian islands and modern science We read stories of great floods from the ancient Babylonians Hebrews Chinese and Mayans tales of apocalypse from India the Norse Christianity and modern science myths of the mother goddess from Native American Hopi culture and James Lovelock's Gaia Leeming has culled myths from Aztec Greek African Australian Aboriginal Japanese Moslem Hittite Celtic Chinese and Persian cultures offering one of the most wide ranging collections of what he calls the collective dreams of humanity More important he has organized these myths according to a number of themes comparing and contrasting how various societies have addressed similar concerns or have told similar stories In the section on dying gods for example both Odin and Jesus sacrifice themselves to renew the world each dying on a tree Such traditions he proposes may have their roots in societies of the distant past which would ritually sacrifice their kings to renew the tribe In *The World of Myth* David Leeming takes us on a journey not through a maze of falsehood but through a marvellous world of metaphor metaphor for the story of the relationship between the known and the unknown both around us and within us Fantastic tragic bizarre sometimes funny the myths he presents speak of the most fundamental human experience a part of what Joseph Campbell called the wonderful song of the soul's high adventure
