Retorica E Scienza Cultura Gesuitica E Seicento Italiano N 6:

The Art of Religion Maarten Delbeke, 2016-04-01 Bernini and Pallavicino the artist and the Jesuit cardinal are closely related figures at the papal courts of Urban VIII and Alexander VII at which Bernini was the principal artist The analysis of Pallavicino's writings offers a new perspective on Bernini's art and artistry and allow us to understand the visual arts in papal Rome as a making manifest of the fundamental truths of faith Pallavicino's views on art and its effects differ fundamentally from the perspective developed in Bernini's biographies offering a perspective on the tension between artist and patron work and message In Pallavicino's writings the visual arts emerge as being intrinsically bound up with the very core of religion involving questions of idolatry mimesis and illusionism that would prove central to the aesthetic debates of the eighteenth century **Magic, Memory and Natural Philosophy in the Sixteenth and Seventeenth Centuries** Stephen Clucas, 2024-10-28 This collection of Stephen Clucas's articles addresses the complex interactions between religion natural philosophy and magic in sixteenth and seventeenth century Europe The essays on the Elizabethan mathematician and magus John Dee show that the angelic conversations of John Dee owed a significant debt to medieval magical traditions and how Dee's attempts to communicate with spirits were used to serve specific religious agendas in the mid seventeenth century The essays devoted to Giordano Bruno offer a reappraisal of the magical orientation of the Italian philosopher's mnemotechnical and Lullist writings of the 1580s and 90s and show his influence on early seventeenth century English understandings of memory and intellection Next come three studies on the atomistic or corpuscularian natural philosophy of the Northumberland and Cavendish circles arguing that there was a distinct English corpuscularian tradition prior to the Gassendian influence in the 1640s and 50s Finally two essays on the seventeenth century Intelligencer Samuel Hartlib and his correspondents shows how religion alchemy and natural philosophy interacted during the Puritan Revolution *Galileo and the renaissance scientific discourse* Aldo Altamore, Giovanni Antonini, 2010 **Libri, biblioteche e cultura nell'Italia del Cinque e Seicento** Edoardo Barbieri, Danilo Zardin, 2002 *The Debate on Probable Opinions in the Scholastic Tradition* Rudolf Schuessler, 2019-03-25 In *The Debate on Probable Opinions in the Scholastic Tradition* Rudolf Schuessler portrays scholastic approaches to a qualified disagreement of opinions The book outlines how scholastic regulations concerning the use of opinions changed in the early modern era giving rise to an extensive debate on the moral and epistemological foundations of reasonable disagreements The debate was fueled by probabilism and anti probabilism in Catholic moral theology and thus also serves as a gateway to these doctrines All developments are outlined in historical context while special attention is paid to the evolution of scholastic notions of probability and their importance for the emergence of modern probability *Roma alchemica del Seicento* Maria Teresa Carani, 2025-04-16 T00:00:00+02:00 Veniamo introdotti nella Roma alchemica del XVII secolo seguendo un percorso inusuale in una visita poco conosciuta che si dipana nei luoghi in cui vissero si incontrarono e operarono alcuni dei personaggi che si dedicarono allo studio ed alla pratica

della Ars Magna l'Alchimia Ricerca individuale finalizzata al raggiungimento di una conoscenza superiore la pratica alchemica coinvolse ed appassionò uomini di chiesa regnanti medici ed avventurieri Nella trasmutazione dei metalli e della materia albergava infatti filosoficamente e esistenzialmente l'arte del mutare sé stessi come insegnava Paracelso Le storie del cardinale Francesco Maria del Monte della regina Cristina di Svezia e degli attivi frequentatori della sua corte romana del marchese Massimiliano Palombara del chemiatra Francesco Borri e dello scienziato gesuita Athanasius Kircher ci permettono di scoprire ambienti palazzi e ville al di fuori dei classici percorsi turistici introducendoci in una realtà arcana ambigua ed affascinante Scopriremo il Casino dell'Aurora di Villa Ludovisi Boncompagni ove aveva sede la distilleria ovvero il laboratorio alchemico del cardinale Francesco Maria del Monte con un affresco ad olio di un giovane Caravaggio Villa Gentili Dominici la cosiddetta Porta Magica di Piazza Vittorio Piazza di Santa Maria della Minerva luogo delle abiure e dei supplizi il Collegio Romano la Biblioteca Major e il Museo Kircheriano i luoghi dell'educazione e della cultura Si analizzano inoltre le profonde connessioni e le divergenze cognitive e metodologiche tra l'alchimia e moderne discipline come la psicologia la farmacologia e la chimica senza dubbio infatti il cammino di entrambe fu profondamente connesso

History of Universities Mordechai Feingold, 2002-09-12 Volume XVII of History of Universities contains the customary mix of learned articles book reviews conference reports and bibliographical information which makes this publication such an indispensable tool for the historian of higher education Its contributions range widely geographically chronologically and in subject matter The volume is as always a lively combination of original research and invaluable reference material

Rivista di storia della chiesa in Italia, 1999

The New Science and Jesuit Science M. Feingold, 2013-03-09 This volume makes an important contribution toward a nuanced appreciation of the Jesuits' interaction with modernity and a greater recognition of their contribution to the mathematization of natural philosophy and experimental science The six essays provide a cross section of the complex Jesuit encounter with the mathematical sciences during the 17th century
