Return Migration Journey Of Hope Or Despair

John Percival

Return Migration Journey Of Hope Or Despair:

Return Migration Bimal Ghosh, International Organization for Migration, 2000 Includes statistics Return Migration of the Next Generations Dennis Conway, 2016-12-05 There is renewed interest in return migration among researchers of global movement patterns Until recently it was overlooked regarded as the result of failure by emigrants or related to the return of retired elderly migrants This important study looks at the one and a half and second generation migrants the youthful contract workers and the prolonged sojourners and the consequences of their return to source communities

Return Migration and Psychosocial Wellbeing Zana Vathi, Russell King, 2017-03-27 Return migration is a topic of growing interest among academics and policy makers Nonetheless issues of psychosocial wellbeing are rarely discussed in its context Return Migration and Psychosocial Wellbeing problematises the widely held assumption that return to the country of origin especially in the context of voluntary migrations is a psychologically safe process By exploding the forced voluntary dichotomy it analyses the continuum of experiences of return and the effect of time the factors that affect the return process and associated mobilities and their multiple links with returned migrants wellbeing or psychosocial issues Drawing research encompassing four different continents Europe North America Africa and Asia to offer a blend of studies this timely volume contrasts with previous research which is heavily informed by clinical approaches and concepts as the contributions in this book come from various disciplinary approaches such as sociology geography psychology politics and anthropology Indeed this title will appeal to academics NGOs and policy makers working on migration and psychosocial wellbeing and undergraduate and postgraduate students who are interested in the fields of migration social policy ethnicity studies health studies human geography sociology and anthropology *Decided Return Migration* Aida Ibričević, 2024-06-04 This open access book creates conceptual links between political emotions citizenship home and belonging The book describes that in the case of decided return and reintegration to a post conflict society and a fragmented state like Bosnia and Herzegovina the returnees do not conceptualize the emotional dimension of their BiH citizenship as home and belonging as this citizenship does not make them feel safe and secure Instead feeling at home is found in family place and time while belonging is categorized as ethnic religious relational landscape linguistic and economic The emotional dimension of the home state citizenship is constituted through a wide spectrum of emotions ranging from anger frustration fear guilt shame disappointment nostalgia powerlessness to patriotic love pride defiance joy happiness and hope This book provides a valuable resource to students and scholars of migration and diaspora studies as well as political scientists human geographers and anthropologists *Return Migration in Later Life* John Percival, 2013-07-24 The main objective of this edited volume is to explore the motivations decision making processes and consequences when older people consider or accomplish return migration to their place of origin and also to raise the public policy profile of this increasingly important subject The book examines in detail a range of themes affecting return migrations including family ties obligations and their emotive strengths

comparative quality and cost of health and welfare provision in host and home countries older age transitions and cultural affinity with homeland and psychological adjustment belonging and attachment to place **Handbook of Return**

Migration King, Russell, Kuschminder, Katie, 2022-01-18 This authoritative Handbook provides an interdisciplinary appraisal of the field of return migration advancing concepts and theories and setting an agenda for new debates **The Battle for**

the Migrants Torsten Feys, 2017-10-18 This book approaches the well documented study of European mass migration to the United States of America from the viewpoint of mass migration as a business venture The overall purpose is to demonstrate that maritime and migration histories are interlinked and dependent on a deeper understanding of the social economic and political factors at work in the nineteenth century Atlantic community It centres on both the evolution of the port of Rotterdam as a migration gateway and the crucial role of the Holland America line as a regulator of the North American passenger trade The first part of the book explores the simultaneous rise of transatlantic mass migration and long distance steamshipping between 1830 to 1870 The second part divided into five chapters explores how mass migration became a big business between 1870 and 1914 and scrutinises how steamship companies organised and provided initiatives for transoceanic migration plus the role of shipping agents and agent networks and how passenger services were constructed within transatlantic networks Over the course of the text it becomes increasingly clear that by approaching mass migration as a trade issue the role of steamship companies in the facilitation of transatlantic migration is rendered both intrinsic and pivotal It consists of an introduction containing contextual information two sections providing historical overviews five chapters exploring different aspects of the shipping industry's response to mass migration conclusion bibliography and six appendices of passenger destination agent and advertising statistics **Migration In, From, and to Southeastern**

Europe: Ways and strategies of migrating Klaus Roth, Jutta Lauth Bacas, 2011 This volume is part two of a selection of articles on migration movements in to and from Southeast Europe It aims at a better understanding of the complex migration processes which deeply affect Balkan societies both presently and in the past The articles presented here focus on the ways and strategies of migrants on irregular migration in and to as well as on transit migration through the region while others deal with the effects of return migration on Balkan societies They present empirical findings on migration which are of interest not only for experts on Southeast Europe and on migration processes in general but also for those interested in European integration and in the consequences of EU migration policies **Immigrants and Social Work** Diane

Drachman, Ana Paulino, 2013-10-11 Explore an understudied but vital aspect of the immigration experience Until now the American social work literature on immigration has emphasized one part of the migration process the experiences of immigrants in this country Country of origin experiences that lead to emigration have received limited attention Immigrants and Social Work Thinking Beyond the Borders of the United States expands the focus of the literature drawing clear connections between immigrants situations in their countries of origin and how they adapt to their new country This book

presents a two or more country perspective on immigration looking at migration as a process that requires an understanding of phenomena that occur in immigrants country of origin and that impact their lives in the United States It also looks at immigrants back and forth movements between their home and new countries and examines the immigration process when it involves movement to a third or fourth country or as in the case of the Armenian diaspora a return to the home country after years of settlement in a new land To provide immigrants with effective social services it is essential to understand the situations that prompted them to uproot their lives and start over in a new country Immigrants and Social Work Thinking Beyond the Borders of the United States provides an unflinching look at many of these country of origin issues examining mental health issues that result from the traumatic experiences of undocumented Mexican immigrants the essential link between international social work and social work with immigrants and refugees in the United States cross national collaboration between educators in the United States and Armenia that is helping to provide vital services to Armenian refugees the phenomenon of return migration the migration experiences of women living in towns along the United States Mexico border culturally competent mental health service delivery for Chinese immigrants circular migration between Puerto Rico and the United States the challenges facing impoverished Dominican immigrants to the United States and a look at the relationship between the two countries policies regarding migration Immigrants and Social Work Thinking Beyond the Borders of the United States is important reading for social work professionals who serve immigrant populations It is also an ideal ancillary text for courses in international social work family policy social work with immigrants and refugees child welfare and social work practice with families as well as any social work course that covers Chinese Mexican Armenian Puerto Rican or Dominican immigrant populations Make it a part of your teaching professional collection today

Unpacking EU Readmission and Return Policy with non-EU Countries Philipp Stutz, 2025-02-26 This book offers an in depth exploration of the European Union s cooperation with non EU countries on readmission and return as central components of EU migration policy It delves into the differences between formal and informal agreements and the factors influencing return rates critically assessing the effectiveness of cooperation in this contentious policy field Through a comparative analysis of 57 non EU countries the book enhances our understanding of why certain countries cooperate on readmission and or return Countries geographically closer to the EU are more dependent and thus conclude readmission agreements more often For countries in Africa and Asia EU incentives and pressure play a bigger role and influence the cooperation together with domestic administrative capacities and bilateral readmission agreements and closer existing relations Formal or informal readmission cooperation has a limited impact on return rates with non EU countries beyond the Eastern neighbourhood This comprehensive work is an essential reading for academics policymakers and policy advocates interested in EU external migration cooperation and the broader dynamics of international migration policy
