Ian Johnston

Return Of The Battleship:

Return of the Battleship George Sullivan,1983 Traces the history of battleships from the ironclads of the nineteenth century to the giant warships of the twentieth emphasizing the role they played in the two world wars The Battleship Builders Ian Johnston,2013-04-15 The launch in 1906 of HMS Dreadnought the world s first all big gun battleship rendered all existing battle fleets obsolete while at the same time wiping out the Royal Navy s numerical advantage Britain urgently needed to build an entirely new battle fleet of these larger more complex and more costly vessels In this she succeeded spectacularly in little over a decade fifty such ships were completed almost exactly double what Germany achieved This heroic achievement was made possible by the country s vast industrial nexus of shipbuilders engine manufacturers armament firms and specialist armor producers whose contribution to the creation of the Grand Fleet is too often ignored The Independent Leonard Bacon,Joseph Parrish Thompson,Richard Salter Storrs,Joshua Leavitt,Henry Ward Beecher,Theodore Tilton,Henry Chandler Bowen,William Hayes Ward,Hamilton Holt,Fabian Franklin,Harold de Wolf Fuller,Christian Archibald Herter,1909 **What Happened to the Battleship** Chris Baker,2022-07-30 In the hundreds of books written about battleships the authors tend to draw down the curtain on the careers of these great vessels in September 1945 with the surrender of Japan Yet on that day some ninety eight battleships or ex battleships might be spotted around the world and eleven of them were in or around Tokyo Bay for the surrender itself What happened to all those ships This new book takes a fresh look at the slow demise of the battleship It examines the decisions made by the major world powers after 1945 and their aspirations to retain battleships in their navies despite financial stringency It places the history and role of battleships after 1945 in their geo political context centered around the Cold War and the need for the West to face down an aggressive Soviet Union It also examines the impact on battleships of operational analysis of the Second World War and new technological developments notably the atom bomb and the guided missile The book uses the wealth of information from ship s books ship s logs and gun logs to document in considerable detail what the ships actually did after the Second World War with a particular focus on those of the Royal Navy It covers United States battleship operations in Korea Vietnam and the Gulf War as well as the deterrent role played by battleships for NATO from the 1950s to the 1990s Finally it brings the story up to date by documenting the preservation as museum ships of the eight dreadnoughts which still exist today in the United States Extensively illustrated with photographs of the huge range of activities of battleships after 1945 from their use as Fleet flagships to Royal or Presidential yachts and more poignantly as target ships this new book will appeal equally to the historic ship enthusiast and naval specialist and provide a novel perspective through a battleship shaped lens on late twentieth century history for the more general reader **The Advocate of Peace** ,1908 **Advocate of Peace and Universal Brotherhood** ,1908 Includes the Annual report of the American Peace Society *The Windfall Battleships* Aidan Dodson,2023-11-30 This new book explores for the first time the full story of how two Turkish and two Chilean battleships

became British capital ships after the outbreak of the First World War Under construction by the shipbuilding giants of Armstrong and Vickers in August 1914 Sultan Osman I Re adiyeh Almirante Latorre and Almirante Cochrane became HM Ships Agincourt Erin Canada and Eagle The first three served with the Grand Fleet fighting at Jutland while the last was transformed into a pioneering aircraft carrier which would serve with distinction until sunk while escorting a convoy to Malta in 1942 While two of the other ships had short lives cut short by the Washington Naval Treaty the final ship Almirante Latorre would be returned to Chile after the war for a continuing active career that would last into the 1950s When finally towed away for scrap in 1959 she was the penultimate survivor of Jutland Drawing on extensive archival research the book begins with an overview of the warships under construction around Europe for foreign customers in August 1914 and how the four ships featured were acquired by the Royal Navy It then looks at them as manifestations of the international rivalries which directed much of the national budgets of impecunious South American and Balkan states towards armaments The focus then switches to the British service of the ships actually completed as battleships and then to the story of the carrier Although never finished as a battleship she would play a crucial role in the development of British carrier aviation Finally the author traces the stories of the battleships of the Latin American naval race from the 1920s down to the 1950s The stories and back stories of Agincourt Erin Canada and Eagle embrace almost the whole of the twentieth century battleship era and they take us down the byways of international naval power ranging from the Pacific to the Black Sea and from the line of battle to mutiny and revolution A fascinating and original story
