Sayyid Qutb and the Origins of Radical Islamism John Calvert,2009-11-22 Sayyid Qutb 1906 1966 was an influential Egyptian ideologue credited with establishing the theoretical basis for radical Islamism in the post colonial Sunni Muslim world Lacking a pure understanding of the leader s life and work the popular media has conflated Qutb s moral purpose with the aims of bin Laden and al Qaeda He is often portrayed as a terrorist Islamo Fascist and advocate of murder This book rescues Qutb from misrepresentation tracing the evolution of his thought within the context of his time An expert on social protest and political resistance in the modern Middle East as well as Egyptian nationalism John Calvert recounts Qutb s life from the small village in which he was raised to his execution at the behest of Abd al Nasser s regime His study remains sensitive to the cultural political social and economic circumstances that shaped Qutb s thought major developments that composed one of the most eventful periods in Egyptian history These years witnessed the full flush of Britain s tutelary regime the advent of Egyptian nationalism and the political hegemony of the Free Officers Qutb rubbed shoulders with Taha Husayn Naguib Mahfouz and Abd al Nasser himself though his Islamism originally had little to do with religion Only in response to his harrowing experience in prison did Qutb come to regard Islam and kufr infidelity as oppositional antithetical and therefore mutually exclusive Calvert shows how Qutb repackaged and reformulated the Islamic heritage to pose a challenge to authority including those who claimed falsely he believed to be Muslim

Women, Islamisms and the State A. Karam,1997-12-08 The book provides theoretical insight and analysis of the power relations between women s activism Islamist thought and praxis and the Egyptian state 1970s to 1990s Contemporary feminist debates among women s NGOs are examined and the different perceptions of gender roles among Islamist men and women are presented and contrasted Three feminist streams are identified as both shaping and being shaped by the dynamics of interaction between political Islam and state regimes

A Quiet Revolution Leila Ahmed,2011-04-29 A probing study of the veil s recent return from one of the

world's foremost authorities on Muslim women that reaches surprising conclusions about contemporary Islam's place in the West today. In Cairo in the 1940s Leila Ahmed was raised by a generation of women who never dressed in the veils and headscarves their mothers and grandmothers had worn. To them these coverings seemed irrelevant to both modern life and Islamic piety. Today however the majority of Muslim women throughout the Islamic world again wear the veil. Why Ahmed asks did this change take root so swiftly and what does this shift mean for women, Islam and the West? When she began her study Ahmed assumed that the veil's return indicated a backward step for Muslim women worldwide. What she discovered however in the stories of British colonial officials, young Muslim feminists, Arab nationalists, pious Islamic daughters, American Muslim immigrants, violent jihadists and peaceful Islamic activists confounded her expectations. Ahmed observed that Islamism with its commitments to activism in the service of the poor and in pursuit of social justice is the strain of Islam most easily and naturally merging with western democracies' own tradition of activism in the cause of justice and social change. It is often Islamists even more than secular Muslims who are at the forefront of such contemporary activist struggles as civil rights and women's rights. Ahmed's surprising conclusions represent a near reversal of her thinking on this topic. Richly insightful, intricately drawn and passionately argued, this absorbing story of the veil's resurgence from Egypt through Saudi Arabia and into the West suggests a dramatically new portrait of contemporary Islam.

Islamism and Globalisation in Jordan Daniel Atzori, 2015-05-22 This book explores the activities of the local Muslim Brotherhood in Jordan. It examines how the Brotherhood working to establish an alternative social, political and moral order through a network of Islamic institutions made a huge contribution to the transformation of Jordanian society. It reveals however that the Brotherhood's involvement in the economic realm in Islamic financial activities led it to engage with the neo-liberal approach to the economy with the result that the Islamic social institutions created by the Brotherhood such as charities lost their importance in favour of profit-oriented activities owned by leading Islamist individuals. The book thereby demonstrates the hybridisation of Islamism and argues that Islamism is not an abstract set of beliefs but rather a collection of historically constructed practices. The book also illustrates how globalisation is profoundly influencing culture and society in the Arab world though modified by the adoption of an Islamic framework.
