Reading Architecture with Freud and Lacan Lorens Holm,2022-09-30 Reading

Architecture with Freud and Lacan Shadowing the Public Realm methodically outlines key concepts in psychoanalytic discourse by reading them against key modern and post modern architects It begins with what is arguably the central concept for each discipline by putting the unconscious in a dialectic relation to space Each subsequent chapter begins with a detail in architectural discourse a kind of provocation that anchors each excursion into the thought of Freud and Lacan The text is cyclical episodic and cloudlike rather than expository the intention is not simply to explain the concept of the unconscious but to different degrees perform it in the text The book offers powerful critiques of current planning practice which has no tools to address our attachment to places It concludes with powerful critiques of our incapacity to change the environmentally damaging ways we live our lives which is an effect of our incapacity to recognise the presence of the death drive in our nature The text is an extended thesis spanning the chapters that the field of the Other is the common grammar that organises subjects into civilisations which has consequences for how we treat the public realm in architecture politics and the city The field of the Other is a slightly different slice through the urban social world It shadows but does not correspond exactly to more familiar categories like private public inside outside figure ground or piazza boulevard Reading Architecture with Freud and Lacan will be an essential resource to anyone interested in how the environment we build is a reflection of our desire Psychoanalysis is one of the great humanist discourses of the 20th century and this book will be a valuable reference to the humanist in architects planners and social scientists whether they are students professionals or amateurs It will appeal to historians of the 20th century and to psychoanalysts and architects who are interested in how their respective discourses interdigitate with each other and with other discourses

The Cambridge Companion to Lacan

Jean-Michel Rabaté,2003-07-31 This collection of specially commissioned essays by academics and practising psychoanalysts first published in 2003 explores key dimensions of Jacques Lacan s life and works Lacan is renowned as a theoretician of

psychoanalysis whose work is still influential in many countries He refashioned psychoanalysis in the name of philosophy and linguistics at the time when it underwent a certain intellectual decline Advocating a return to Freud by which he meant a close reading in the original of Freud s works he stressed the idea that the unconscious functions like a language All essays in this Companion focus on key terms in Lacan s often difficult and idiosyncratic developments of psychoanalysis This volume will bring fresh accessible perspectives to the work of this formidable and influential thinker These essays supported by a useful chronology and guide to further reading will prove invaluable to students and teachers alike

Lacan and the Destiny of Literature Ehsan Azari,2008-11-06 In contemporary academic literary studies Lacan is often considered impenetrably obscure due to the unavailability of his late works insufficient articulation of his methodologies and sometimes stereotypical use of Lacanian concepts in literary theory This study aims to integrate Lacan into contemporary literary study by engaging with a broad range of Lacanian theoretical concepts often for the first time in English and using them to analyse a range of key texts from different periods Azari explores Lacan s theory of desire as well as his final theories of *littoral* and the *sinthome* and interrogates a range of poststructuralist interpretive approaches In the second part of the book he outlines the variety of ways in which Lacanian theory can be applied to literary texts and offers detailed readings of texts by Shakespeare Donne Joyce and Ashbery This ground breaking study provides original insights into a number of the most influential intellectual discussions in relation to Lacan and will fill a recognised gap in understanding Lacan and his legacy for literary study and criticism

Modern French Philosophy Robert Wicks,2013-10-01 This is a thorough and balanced guide to modern French philosophical thought providing lucid authoritative accounts of famous philosophers whilst also highlighting lesser known figures Author Robert Wicks introduces the major works of each philosopher explaining their impact on their peers and on the wider world Covering such major movements as Existentialism Surrealism Structuralism and Postmodernism this handbook is a useful resource for Francophiles students of philosophy and all those interested in the intellectual landscape of 20th and 21st century France The book includes detailed coverage of such philosophers as Henri Bergson Beauvoir Sartre Camus Barthes Derrida Foucault Deleuze and Levi Strauss among others

Reading Lacan Jane Gallop,2018-08-06 The influence of the French psychoanalyst Jacques Lacan has extended into nearly every field of the humanities and social sciences from literature and film studies to anthropology and social work yet Lacan s major text *Ecrits* continues to perplex and even baffle its readers In *Reading Lacan* Jane Gallop offers a novel approach to Lacan s work based on his own theories of language Lacan locates truth in the letter rather than in the spirit in the ways statements are expressed rather than in their intended meaning Gallop here grapples with six of Lacan s essays from *Ecrits* *The Seminar on The Purloined Letter* *The Mirror Stage* *The Freudian Thing* *The Agency of the Letter in the Unconscious* *The Signification of the Phallus* and *The Subversion of the Subject* While other commentators have chosen not to confront Lacan s notoriously problematic style in their discussions of his ideas Gallop addresses herself directly to the problem and the practice of reading

Lacan She takes her direction from Lacan's view of subjectivity and offers a deeply personal feminist reading of *Écrits*. Concentrating on the relation of desire and interpretation she opens up the rich implications of Lacan's thought for psychoanalytic theory for the act of reading and for knowledge itself. Forceful and revealing yet utterly candid about its own areas of uncertainty Gallop's book will be indispensable to readers of Lacan and to scholars and students who have felt his impact.

The Dead Mother Gregorio Kohon, 2005-08-16 The *Dead Mother* brings together original essays in honour of André Green. Written by distinguished psychoanalysts the collection develops the theme of his most famous paper of the same title and describes the value of the dead mother to other areas of clinical interest: psychic reality, borderline phenomena, passions and identification. The concept of the dead mother describes a clinical phenomenon sometimes difficult to identify but always present in a substantial number of patients. It describes a process by which the image of a living and loving mother is transformed into a distant figure, a toneless, practically inanimate dead parent. In reality the mother remains alive but she has psychically died for the child. This produces a depression in the child who carries these feelings within him into adult life as the experience of the loss of the mother's love is followed by the loss of meaning in life. Nothing makes sense any more for the child but life seems to continue under the appearance of normality. The *Dead Mother* is a valuable contribution to literature on psychoanalytic and psychotherapeutic approaches to grief, loss and depression.

The Domestic Economy of the Soul John O'Neill, 2010-12-31 This is the first major analysis of Freud's five celebrated case studies: Little Hans, Dora, the Rat Man, the Wolf Man and Schreber. O'Neill sets out the details of each case and critically engages with the narratives using a mixture of psychoanalytical insight and social theory. The book provides a clear and powerful account of the five major case studies that helped to establish the Freud legend. It situates the cases and the analysis into the appropriate social and historical contexts. Offers distinctive interpretations of the symptomatic body of illness as a language, dream work and the Madonna complex. Challenges us to revisit the canonical texts of psychoanalysis.

[Lacan's Cruelty](#) Meera Lee, 2022-08-29 This collection, written by leading Lacanian psychoanalytic theorists and practitioners, is a unique exploration of the novel aspects of perversion from the perspective of cruelty: a psychoanalytic study that has never been sufficiently undertaken in an English speaking world. Instead of reducing the notion of perversion to cultural representations, a historical discourse or a clinical diagnosis, the authors in this collection draw on Freud, Kant, Hegel, Marquis de Sade, Derrida, Deleuze and Žižek to untie the knot of psychic cruelty intrinsic to perversion and therefore de-sexualize perverted acts. They do so by theorizing perversion in psychoanalytic concepts of the Oedipus complex, the Name of the Father and jouissance and furthermore in the perspective of the clinics of neurosis and psychosis in dialogue with a clinical praxis philosophy and literature.
