Returning Words To Flesh:

Undeniable Biblical Proof Jesus Christ Will Return to Planet Earth Exactly 2,000 Years After the Year of His Death Gabriel Ansley,2010 Let me ask you a question you probably never pondered WHY did God create the world in 6 days Do you think God had NO logic motive or purpose behind using that specific number of days Do you think He just placed a bunch of numbers in a hat and nonchalantly drew one Or do you think the cosmos required that number of days to be completed as if God could not have created it in 2 3 5 9 12 23 or however many days Friend you should know better God can DO ANYTHING which brings us back to the original question The answer to this mystery is contained in the Bible and its gradual albeit secret uncovering in story after story leads to the stunning title of this book Undeniable Biblical Proof Jesus Christ Will Return To Planet Earth Exactly 2 000 Years After The Year Of His Death But FAR more important than merely discovering that fact this book will fully elucidate and crush all confusion concerning what a person soul MUST DO to obtain eternal life by illuminating the true spiritual meaning behind every detail of the ancient Bible stories So sit back and hold on because this book s message is going to be a life changing ride Gods after God Richard Grigg,2006-06-01 Gods after God provides an accessible introduction to a wide range of contemporary radical theologies Radical theology can be defined as talk about the divine that rejects the notion of God as a supernatural personal consciousness who created the world and who intervenes in it to accomplish his purposes In addition radical theologies tend to reject the absolute authority of traditional sources of guidance such as the Bible and the tradition of a church Richard Grigg demonstrates that there is a discernible stream of radical theologies beginning in the seventeenth century and continuing to the present He explores a host of rich and lively contemporary radical religious positions including the radical feminist theology of Mary Daly the deconstructive theology of Mark C Taylor the religious naturalism of Ursula Goodenough and Donald Crosby the pragmatist approaches of Sallie McFague and Gordon Kaufman the Taoist interpretation of Jesus of Stephen Mitchell and the feminist polytheism of Naomi Goldenberg This in depth examination asks in unflinching terms what challenges radical theologies face and whether they have a realistic chance of surviving in American society *Word and Soul* Michael Willett Newheart,2001 This soul reading of the Gospel is influenced by three elements analytical archetypal psychology which reorients psychology to the study of the soul African American cultural experience which is often characterized as soul and reader response criticism which emphasizes that the reading of a text is shaped by the reader s psychological and social location After a brief methodological discussion portions of the Fourth Gospel are read soulfully BOOK JACKET *A Cry Instead of Justice* Dereck Daschke,Andrew Kille,D. Andrew Kille,2010-07-01 *Bodies of Meaning* David McNally,2001-01-01 Challenges postmodernist theories of language and politics which detach language from human bodies and their material practices *Psychology and Religion* Andrew Reid Fuller,2008 This book surveys the major theoretical positions in the psychology of religion William James Sigmund Freud Carl Jung Gordon Allport Abraham Maslow Erich Fromm Alan Watts and Viktor Frankl

Anacarnation and Returning to the Lived Body with Richard Kearney Brian Treanor, James L. Taylor, 2022-10-26 This edited collection responds to Richard Kearney's recent work on touch excarnation and embodiment as well as his broader work in carnal hermeneutics which sets the stage for his return to and retrieval of the senses of the lived body Here fourteen scholars engage the breadth and depth of Kearney's work to illuminate our experience of the body The chapters collected within take up a wide variety of subjects from nature and non human animals to our experience of the sacred and the demonic and from art's account of touching to the political implications of various types of embodiment Featuring also an inspired new reflection from Kearney himself in which he lays out his vision for anacarnation this volume is an important statement about the centrality of touch and embodiment in our experience and a reminder that despite the excarnating tendencies of contemporary life the lived body remains a touchstone for wisdom in our increasingly complicated and fragile world Written for scholars and students interested in touch embodiment phenomenology and hermeneutics this diverse and

challenging collection contributes to a growing field of scholarship that recognizes and attempts to correct the excarnating trends in philosophy and in culture at large
