Revealing Image Analytical Art Psychotherapy In Theory And Practice:

The Revealing Image Joy Schaverien, 2021-11-18 Schaverien painstakingly describes and defines processes which have so far only been intuitively known to art therapists p6 by introducing and elaborating the psychoanalytical concepts of transference and countertransference in relation to the use of visual art objects The authors stated intention in this book is to attempt to bridge the perceived gap between the practice of art therapy and analytical forms of psychotherapy p 229 The epistemological base of this venture includes the fields of philosophy anthropology and aesthetics as well as psychoanalysis Schaverien suggests that analytical art psychotherapy is a way of working analytically with patients who are unsuitable or unready for psychotherapy giving examples of psychotic and borderline patients children and patients in psychiatric settings This is primarily a book about an analytical approach within art therapy which may be of interest in itself The material also raises issues of interest to analysts and psychotherapists whether or not they work with art in the clinical setting The book clarifies areas of similarity between the disciplines and also makes areas of difference apparent For example most analysts would agree that visual art like dream material and other non verbal representations of the inner world can at times articulate and communicate meanings which for one reason or another cannot be verbally articulated at the time and that this can be pertinent to the aim of analysis However I think few analysts would include facilities in their consulting rooms for the kind of art processes described in the book When the analyst is working with materials in this form the book will be extremely helpful in sorting out the complexity of the transference situation and the role of interpretation The book is so strongly grounded in experiences emerging in the presence of actual art processes and objects that I think it will be of most interest to those who are interested in the specific clinical issues involved in relating to the making and use of actual art objects within the setting Schaverien not only describes the processes involved in detail but also presents technical approaches to the making and handling of art objects within the setting which will inform the capacity of those who are not trained as art therapists to relate to this kind of material in the consulting room **The Revealing Image** Joy

Schaverien, 1992 Starting with the assumption that there is an innate healing potential in the artist's relationship to his or her own work this work explores how this interacts with the healing potential of the therapeutic relationship The Changing Shape of Art Therapy Andrea Gilroy, Gerry McNeilly, 2000 Including contributions from some of the leading art therapists in Britain this important book addresses the key issues in the theory and practice of art therapy The fundamental significance of the art in art therapy practice permeates the book close attention being paid by several writers to the art making process and the aesthetic responses of therapist and client Other authors explore the tensions between art and therapy images and speech subjectivity and objectivity arguing that the dynamic interplay between these elements is inherent to the practice of art therapy The role of containment is another theme that is explored by contributors in a variety of ways to highlight the importance not only of the therapeutic containment of the client by the therapist but also the

containment of the therapist The physical contexts of the session within an art room and within the larger working environment are identified as important arenas where conflict and tension is experienced and must be explored if art therapy is to continue to develop

IDENTITY AND ART THERAPY Maxine Borowsky Junge, 2014-04-01 This book is an attempt to give art therapy identity the front and center position it deserves Despite efforts toward clarity there will nevertheless remain many contradictory notions often paradoxically existing at the same time This is the nature of identity and of art therapy s identity Art therapy is neither a form of artist nor a form of therapist but rather a whole new field a separate and special profession with core values and attributes of its own that must lead to a special and separate identity Chapter 1 is the Introduction to this book In Chapter 2 Images of Identity the basic groundwork is laid describing definitions of personal and professional identity and discussion of the concept of intersectionality Chapter 3 Living in the Real World discusses some unique problems faced by art therapists as they strive to achieve personal and professional identity and credibility Chapter 4 Essays on Identity by Art Therapists contains 22 essays by prominent art therapists who were invited to contribute their ideas These essays can be considered
