Maids and Mistresses, Cousins and Queens Susan Frye,Karen Robertson,1999 This new collection of sixteen essays considers evidence for the varied forms of women s alliances in early modern England It shows how women prohibited from direct participation in the institutional structures that shaped the lives of men constructed informal connections with other females for purposes of survival advancement and creativity The essays presented here consider a variety of communities formed among groups as diverse as serving women vagrants aristocrats and authors in order to study the historical traces of women s connections Alliance as understood by the essayists in this volume does not preclude competition or antagonism since the bonds among women were frequently determined by an opposition to other women As shown here the theorizing of women s connections and the recovery of the historical evidence for these connections can only add to our understanding of women s activities in early modern English society *Maids and Mistresses Cousins and Queens* is divided into four sections The first two *Alliances in the City* and *Alliances in the Household* examine the circumstances of women s communities in two primary sites for women of this place and time The second two *Materializing Communities* and *Emerging Alliances* fully study the aspirations that guided and transformed the courses of women s lives All of these interdisciplinary essays deftly combining literary and historical methods and materials are informed by feminism queer theory and studies of class and race in the early modern period **The Circulation of Poetry in Manuscript in Early Modern England** Arthur F.

Marotti,2021-05-26 This study examines the transmission and compilation of poetic texts through manuscripts from the late Elizabethan era through the mid seventeenth century paying attention to the distinctive material social and literary features of these documents The study has two main focuses the first the particular social environments in which texts were compiled and second the presence within this system of a large body of usually anonymous rare or unique poems Manuscripts from

aristocratic academic and urban professional environments are examined in separate chapters that highlight particular collections Two chapters consider the social networking within the university and London that facilitated the transmission within these environments and between them Although the topic is addressed throughout the study the place of rare or unique poems in manuscript collections is at the center of the final three chapters The book as a whole argues that scholars need to pay more attention to the social life of texts in the period and to little known or unknown rare or unique poems that represent a field of writing broader than that defined in a literary history based mainly on the products of print culture
