*Teachers' Personal Epistemologies* Gregory Schraw,Jo Lunn Brownlee,Lori Olafson,Michelle Vander Veldt Brye,2017-07-01 The focus of this book is to explore teachers evolving personal epistemologies or the beliefs we hold about the origin and development of knowledge in the context of teaching The chapters focus on a range of conceptual frameworks about how university and field based experiences influence the connections between teachers personal epistemologies and teaching practice In an earlier volume we investigated preservice and inservice teachers beliefs and teaching practices Brownlee Schraw and Berthelsen 2011 While we addressed the nature of teachers personal epistemologies learning and teaching practices and approaches for changing beliefs throughout teacher education programs the volume did not address conceptual frameworks for the development of teacher s personal epistemologies To address this gap the book is focused on teacher educators teachers and teacher education programmers in universities with an overall aim of highlighting how we might support preservice teachers involvement in learning that is challenging and inservice teachers engagement in professional experiences that promote changes in teaching practice We argue that teachers need to be encouraged to question their beliefs and develop increasingly sophisticated beliefs about their knowledge and their students knowledge that facilitate learning and intellectual growth      *Medical and Surgical Treatment of Parathyroid Diseases* Brendan C.
