Reviewing The Cold War Approaches Interpretations Theory:

Reviewing the Cold War Odd Arne Westad, 2013-10-14 Since the cold war ended it has become an international field of study with new material from China the former Soviet Union and Europe This volume takes stock of where these new materials have taken us in our understanding of what the cold war was about and how we should study it An Analysis of Odd Arne Westad's The Global Cold War Patrick Glenn, Bryan Gibson, 2017-07-05 Westad's seminal 2005 work shifts the focus of Cold War studies from Europe to the post World War II interventions by both the Soviet Union and the United States in the affairs of developing nations in Africa Asia and Latin America The Cold War in Asia Yangwen Zheng, Hong Liu, Michael Szonyi, 2010 The Cold War stayed cold in Europe but it was hot in Asia Its legacy lives on in the region In none of the three dominant historiographical paradigms orthodox revisionist and post revisionist does Asia or the rest of the Third World figure with much significance What happens to these narratives if we put them to the test in Asia This volume argues that attention to what has been conventionally considered the periphery is essential to a full understanding of the global Cold War Foregrounding Asia necessarily leads to a re assessment of the dominant narratives This volume also argues for a shift in focus from diplomacy and high politics alone towards research into the culture of the Cold War era and its public diplomacy As a whole the essays contribute to enriching our understanding of what was really happening in an era that is too often understood in the catch all framework of the Cold War Akira Iriye Harvard University **The Iranian Crisis and the Birth of the Cold War** Benjamin F. Harper, 2018-09-15 This work examines the Iranian Crisis of 1946 and its active role in shaping the Cold War that followed It is intended to serve as a case study of how the United States was able to successfully flex its short lived atomic monopoly and achieve its international objectives in the early postwar era This writing engages with the robust academic field of U S foreign relations that over the past number of years revisited and reimagined the origins and driving forces of the Cold War The Soviet Union's violation of a troop withdrawal agreement at the conclusion of the Second World War coupled with its active support of Kurdish and Azeri separatist movements aggressively tested the new and evolving international order The primary objective of this work is to understand how the international community achieved a relatively peaceful withdrawal of Soviet forces from Iranian territory I contend that 1 Iran possessed due to its wartime role and latent economic potential a degree of leverage in negotiations with the United States and Russia that other nations did not 2 that the Iranian prime minister Ahmad Qavam shrewdly manipulated both superpowers with his own brand of masterful statecraft while pursuing his own Iran centric objectives 3 that the United States used its preponderance of military economic and diplomatic might to effectively achieve its postwar aims and 4 the primary actors in the crisis solidified the legitimacy of the United Nations and its Security Council which had previously been in jeopardy While lesser known than the Berlin Airlift or the Korean War or the Cuban Missile Crisis the Iranian Crisis revealed for the first time what a superpower clash might look like This event provides a stunning example of crisis management by the primary participants The Iranian

Crisis was indeed the birth of the Cold War and it established a model for state actions during and after this long conflict. The Crisis also provides a powerful example of how third party entities outside of Europe despite possessing relatively meager military and economic might had the ability to alter and occasionally manipulate superpower behavior.

South Asia's Cold War Rajesh M. Basrur, 2008-04-28 This book is a ground breaking analysis of the India Pakistan nuclear confrontation as a form of cold war that is a hostile relationship between nuclear rivals. Drawing on nuclear rivalries between similar pairs: United States Soviet Union, United States China Soviet Union China and United States North Korea, the work examines the rise process and potential end of the cold war between India and Pakistan. It identifies the three factors driving the India Pakistan rivalry: ideational factors stemming from partition, oppositional roles created by the distribution of power in South Asia, and the particular kind of relationship created by nuclear weapons. The volume assesses why India and Pakistan continue in non crisis times to think about power and military force in outmoded ways embedded in pre nuclear times and draws lessons applicable to them as well as to other contemporary nuclear powers and states that might be engaged in future cold wars.

The Cold War in the Classroom Barbara Christophe, Peter Gautschi, Robert Thorp, 2019-10-23 This book is open access under a CC BY 4.0 license. This book explores how the socially disputed period of the Cold War is remembered in today's history classroom. Applying a diverse set of methodological strategies, the authors map the dividing lines in and between memory cultures across the globe, paying special attention to the impact the crisis driven age of our present has on images of the past. Authors analysing educational media point to ambivalence, vagueness and contradictions in textbook narratives understood to be echoes of societal and academic controversies. Others focus on teachers and the history classroom showing how unresolved political issues create tensions in history education. They render visible how teachers struggle to handle these challenges by pretending that what they do is just history. The contributions to this book unveil how teachers backgrounding the political inherent in all memory practices often nourish the illusion that the history in which they are engaged is all about addressing the past with a reflexive and disciplined approach.

Human Rights in Europe during the Cold War Rasmus Mariager, Karl Molin, Kjersti Brathagen, 2014-06-05 This book provides an overview of the establishment, dispersion and effects of human rights in Europe during the Cold War. The struggle for human rights did not begin at the end of the Second World War. For centuries, political associations, religious societies and individuals had been fighting for political freedom, religious tolerance, freedom of expression, freedom of thought and the right to participate in politics. However, the world was awakened by the atrocities of the Second World War and the idea that every person should have certain perpetual and inalienable rights was set out in The Universal Declaration of Human Rights (UDHR) from 1948, which contained an enumeration of international human rights standards. Adopting an interpretative framework which pulls together universal ideas, values and principles of human rights, Human Rights in Europe during the Cold War demonstrates how conflicting interests collided when the exact meaning of human rights was established. It also discusses various

approaches to the idea of imposing respect for human rights in countries where they were systematically violated and assesses the outcome of international accords on human rights in particular the 1975 Helsinki Final Act In conclusion this volume proposes that human rights functioned as moral support to the opposition in repressive regimes and that this was subsequently used as a tool to further system changes Based on new archival research this book will be of much interest to students of Cold War studies human rights European history international law and IR in general **Neutrality and Neutralism in the Global Cold War** Sandra Bott,Jussi M. Hanhimäki,Janick Schaufelbuehl,Marco Wyss,2015-12-22 This book sheds new light on the foreign policies roles and positions of neutral states and the Non Aligned Movement NAM in the global Cold War The volume places the neutral states and the NAM in the context of the Cold War and demonstrates the links between the East the West and the so called Third World In doing so this collection provides readers an alternative way of exploring the evolution and impact of the Cold War on North South connections that challenges traditional notions of the post 1945 history of international relations The various contributions are framed against the backdrop of the evolution of the Cold War international system and the decolonization process in the Southern hemisphere By juxtaposing the policies of European neutrals and countries of the NAM this book offers new perspectives on the evolution of the Cold War With the links between these two groups of countries receiving very little attention in Cold War scholarship the volume thus offers a window into a hitherto neglected perspective on the Cold War Via a series of case studies the chapters here present new viewpoints on the evolution of the global Cold War through the exploration of the ensuing internal and mainly external policy choices of these nations This book will be of much interest to students of Cold War Studies international history foreign policy security studies and IR in general The End of the Cold War and The Third World Artemy Kalinovsky,Sergey Radchenko,2011-04-19 This book brings together recent research on the end of the Cold War in the Third World and engages with ongoing debates about regional conflicts the role of great powers in the developing world and the role of international actors in conflict resolution Most of the recent scholarship on the end of the Cold War has focused on Europe or bilateral US Soviet relations By contrast relatively little has been written on the end of the Cold War in the Third World in Asia Africa and Latin America How did the great transformation of the world in the late 1980s affect regional conflicts and client relationships Who won and who lost in the Third World and why do so many Cold War era problems remain unresolved This book brings to light for the first time evidence from newly declassified archives in Russia the United States Eastern Europe as well as from private collections recent memoirs and interviews with key participants It goes further than anything published so far in systematically explaining both from the perspectives of the superpowers and the Third World countries what the end of bipolarity meant not only for the underdeveloped periphery so long enmeshed in ideological socio political and military conflicts sponsored by Washington Moscow or Beijing but also for the broader patterns of international relations This book will be of much interest to students of the Cold War war and conflict studies third world and development studies international history and IR in
