You may wish to write on a broad topic such as en of the chapter or lecture topics, or you may refine this down to any aspect or particular issue within these topics. The only restriction is the topic must come from the unit content. How many references do you expect? A literature review is a scholarly review of a body of work. The literature review is generally in the format of a standard essay made up of three components: an introduction, a body and a conclusion. What is the purpose off literature review? N writing the literature review, the purpose is to convey to the reader what knowledge and ideas have previously been established on a topic and their strengths and weaknesses, even their particular issues in application. Many people suggest that a literature review is not done in the 'real world'. YES it is! Just in a slightly different form.
