Revisioning Women, Health and Healing Adele E. Clarke, Virginia Olesen, 2013-11-12 This engaging collection examines the implications and representations of race class and gender in health care offering new approaches to women's health care. Subjects covered range from reproductive issues to AIDS.

Women's Health and Medicine: Transforming Perspective

Alice J. Dan, Sue V. Rosser, 2003-06 A vital collection of essays on women's health and women's health studies edited by leaders in the field.

The SAGE Handbook of Qualitative Research Norman K. Denzin (ed), Yvonna S. Lincoln, 2005 A thoroughly revised updated edition this volume includes new chapters on auto ethnography critical race theory queer theory testimonies.

Women, Health, and Nation Georgina Feldberg, Molly Ladd-Taylor, Alison Li, 2003-04-16 Authors provide a much needed analysis of the dynamic decades after 1945 when both Canada and the United States began using federal funds to expand health care access and biomedical research and authority reached new heights. Focusing on a wide range of issues including childbirth abortion and sterilization palliative care pharmaceutical regulation immigration and Native health care these essays illuminate the ironic promise of biomedicine postwar transformations in reproduction the varied work and belief systems of female health care providers and national differences in women's health activism. Contributors include Aline Charles Laval University Barbara Clow independent scholar Laura E Ettinger Clarkson University Georgina Feldberg York University Karen Flynn York University Vanessa Northington Gamble Association of American Medical Colleges Elena R Gutierrez University of Illinois Chicago Molly Ladd Taylor York University Alison Li independent scholar Maureen McCall physician Nepal Michelle L McClellan University of Georgia Kathryn McPherson York University Dawn Dorothy Nickel University of Alberta Heather Munro Prescott Central Connecticut State University Leslie J Reagan University of Illinois Urbana Champaign Susan M Reverby Wellesley College Susan L Smith University of Alberta Ann Starr visual artist and writer and Judith Bender Zelmanovits York University.

Under the Medical Gaze Susan Greenhalgh, 2001-05-03 This compelling account of the author's experience with a chronic pain disorder and subsequent interaction with the American health care system goes to the heart of the workings of power and culture in the biomedical domain. It is a medical whodunit full of mysterious misdiagnosis subtle power plays and shrewd detective work. Setting a new standard for the practice of autoethnography Susan Greenhalgh presents a case study of her intense encounter with an enthusiastic young specialist who through creative interpretation of the diagnostic criteria for a newly emerging chronic disease became convinced she had a painful essentially untreatable lifelong muscle condition called fibromyalgia. Greenhalgh traces the ruinous effects of this diagnosis on her inner world bodily health and overall well being. *Under the Medical Gaze* serves as a powerful illustration of medicine's power to create and inflict suffering to define disease and the self and to manage relationships and lives. Greenhalgh ultimately learns that she had been misdiagnosed and begins the long process of undoing the physical and emotional damage brought about by her nearly catastrophic treatment. In considering how things could go so awry she

embarks on a cogent and powerful analysis of the sociopolitical sources of pain through feminist cultural and political understandings of the nature of medical discourse and practice in the United States She develops fresh arguments about the power of medicine to medicalize our selves and lives the seductions of medical science and the deep psychologically rooted difficulties women patients face in interactions with male physicians In the end *Under the Medical Gaze* goes beyond the critique of biomedicine to probe the social roots of chronic pain and therapeutic alternatives that rely on neither the body cure of conventional medicine nor the mind cure of some alternative medicines but rather a broader set of strategies that address the sociopolitical sources of pain

Inclusion Steven Epstein, 2008-09-15 With *Inclusion* Steven Epstein argues that strategies to achieve diversity in medical research mask deeper problems ones that might require a different approach and different solutions Formal concern with this issue Epstein shows is a fairly recent phenomenon Until the mid 1980s scientists often studied groups of white middle aged men and assumed that conclusions drawn from studying them would apply to the rest of the population But struggles involving advocacy groups experts and Congress led to reforms that forced researchers to diversify the population from which they drew for clinical research While the prominence of these inclusive practices has offered hope to traditionally underserved groups Epstein argues that it has drawn attention away from the tremendous inequalities in health that are rooted not in biology but in society Epstein s use of theory to demonstrate how public policies in the health profession are shaped makes this book relevant for many academic disciplines Highly recommended

Choice A masterful comprehensive overview of a wide terrain Troy Duster *Biosocieties* *Pushing for Midwives* Christa Craven, 2010-10-22 A history of the re emergence of midwifery in America **The Palgrave Handbook of Critical Menstruation Studies** Chris Bobel, Inga T.
