Revitalizing Rural America A Perspective On Collaboration And Community:

Revitalizing Rural America Michael Murray, Larry Edward Dunn, 1996 This book discusses the contribution of collaborative rural community efforts to the challenge of responding to change in the late 20th century advanced capitalist economy of the U S Rural society is being transformed by having to adapt to a new international order a changing role for government the accepted interdependence of community and economic development and the strong relationship between community and place The participation of rural people in thinking more about their own future and putting into practice their ideas for securing it demands a central position on the policy agenda It is within this context that the authors review recent progress on the rural development front and provide a critical study of associated processes and achievements This book offers an in depth discussion on rural community change and development and combines a critical review of shifting public policy

Rural America Caroline S. Kelsohn, 2002 Thomas Jefferson once envisioned the United States as a nation of yeomen farmers Looking around today however illustrates that nothing could be further from the truth In a globalised world and techno centred society urban sprawl is overtaking rural America For over a century farming was the backbone of the American economy and though it is still critical to American productivity many rural areas are plagued by poverty and job reduction Agricultural issues have a hold over national politics as in the debates over farm subsidies but they cannot change several significant trends in America today the movement toward fewer and larger farms environmental pressures from urban and suburban interests and changing food consumption patterns In order to assist the remaining yeomen farmers a comprehensive and integrated agricultural policy must be initiated to sustain the nation s farming communities This book analyses the status of the farm industry in rural America providing a historical context for agriculture and assessing its future for the nation and the information provided in this book is necessary to understanding the nature of what has historically been a key component of American industry and life

The Routledge Companion to Rural Planning Mark Scott, Nick Gallent, Menelaos Gkartzios, 2019-01-15 The Routledge Companion to Rural Planning provides a critical account and state of the art review of rural planning in the early years of the twenty first century Looking across different international experiences from Europe North America and Australasia to the transition and emerging economies including BRIC and former communist states it aims to develop new conceptual propositions and theoretical insights supported by detailed case studies and reviews of available data The Companion gives coverage to emerging topics in the field and seeks to position rural planning in the broader context of global challenges climate change the loss of biodiversity food and energy security and low carbon futures It also looks at old established questions in new ways at social and spatial justice place shaping economic development and environmental and landscape management Planning in the twenty first century must grapple not only with the challenges presented by cities and urban concentration but also grasp the opportunities and understand the risks arising from rural change and restructuring Rural areas are diverse and dynamic

This Companion attempts to capture and analyse at least some of this diversity fostering a dialogue on likely and possible rural futures between a global community of rural planning researchers Primarily intended for scholars and graduate students across a range of disciplines such as planning rural geography rural sociology agricultural studies development studies environmental studies and countryside management this book will prove to be an invaluable and up to date resource

Land of Discontent Bill Pritchard, Phil McManus, 2000 This text examines the recent changes to the economic social and cultural landscapes of regional and rural Australia Issues it considers include the delivery of government services the closure of bank branches in rural areas and the restructuring of rural industries Equity, Diversity and Interdependence Michael Murray, 2017-11-28 If civil society is being encouraged to more fully embrace inclusiveness and respect for diversity then so must the multiplicity of service support organizations with which it interacts This is the key proposition behind this seminal contribution to public policy While legislation can ensure minimum standards of behaviour and outcomes meaningful organizational progression beyond legal imperatives requires authentic dialogue based on principles of equity diversity and interdependence These are essential components for deeper societal transformation Using the divided society of Northern Ireland as a case study and its rural governance arena in particular this book provides an authoritative empirical analysis of and prescriptive agenda for collaborative conversations The insights provided by this book go far beyond this region and have a profound relevance for other societies struggling to emerge from conflict racism and social separation

Participatory Governance W. Robert Lovan, Michael Murray, Ron Shaffer, 2017-03-02 In recent years a new participatory governance dynamic has been redefining relationships and responsibilities in the planning and implementation of policies and programs Participatory governance not only crosses public private and associational sectors but is also intra organizational It allows for individual and collective participation and challenges longstanding norms of institutional behavior This book examines fresh evidence relating to planning conflict mediation and public decision making processes in civil society by bringing together a multi disciplinary team of practitioners and scholars from North America Europe Africa and Australia In an analysis which spans institutional perspectives and operational concerns the contributors explore the dynamics of stakeholder involvement as deliberative processes constructed around the core idea of shared responsibility The book draws out important principles as to how this diversity of engagement can translate itself into more effective public decision making **Rural America** Herbert E. Echelberger, 1996 **Journal of Economics** Missouri Valley Economic Association, 2005 *Reviving Rural America* Ann M. Eisenberg, 2024-06-27 Debunks myths about rural people places and policies offering a vision for a more just and resilient society
