Revolting Bodies The Struggle To Redefine Fat Identity:

Revolting Bodies? Kathleen LeBesco, 2004 LeBesco examines sites of struggle over the cultural meaning of fatness She explores how the bearer of a fat body is marked as a failed citizen inasmuch as her powers as a worker shopper and sexually desirable subject are called into question She describes fat fashion relations among fat queer and disability politics and activism and online communities as opportunities for transforming stereotypes of fatness **Queering Fat Embodiment** Cat Pausé, Jackie Wykes, Samantha Murray, 2016-05-23 Cultural anxieties about fatness and the attendant stigmatisation of fat bodies have lent a medical authority and cultural legitimacy to what can be described as fat phobia Against the backdrop of the ever growing medicalisation pathologisation and commodification of fatness coupled with the moral panic over an alleged obesity epidemic this volume brings together the latest scholarship from various critical disciplines to challenge existing ideas of fat and fat embodiment Shedding light on the ways in which fat embodiment is lived experienced regulated and reproduced across a range of cultural sites and contexts Queering Fat Embodiment destabilises established ideas about fat bodies making explicit the intersectionality of fat identities and thereby countering the assertion that fat studies has in recent years reproduced a white ableist heteronormative subjectivity in its analyses A critical queer examination on fatness Queering Fat Embodiment will be of interest to scholars of cultural and queer theory sociology and media studies working on questions of embodiment stigmatisation and gender and sexuality **Fat on Film** Barbara Plotz, 2020-02-20 Over the last two decades fatness has become the focus of ubiquitous negative rhetoric in the USA and beyond presented under the cover of the medicalized war against the obesity epidemic In Fat on Film Barbara Plotz provides a critical analysis of the cinematic representation of fatness during this timeframe specifically in contemporary Hollywood cinema with an emphasis on the intersection of gender race and fatness The analysis is based on around 50 films released since 2000 and includes examples such as Transformers 2007 Precious 2009 Kung Fu Panda 2008 Paul Blart 2009 and Pitch Perfect 2012 Plotz maps the common cinematic tropes of fatness and also shows how commonplace notions of fatness that are part of the current obesity epidemic discourse are reflected in these tropes In this original study Plotz brings critical attention to the politics of fat representation a topic that has so far received little attention within film and cinema studies **Feminist Theology and Contemporary Dieting Culture** Hannah Bacon, 2019-08-08 Hannah Bacon draws on qualitative research conducted inside one UK secular commercial weight loss group to show how Christian religious forms and theological discourses inform contemporary weight loss narratives Bacon argues that notions of sin and salvation resurface in secular guise in ways that repeat well established theological meanings The slimming organization recycles the Christian terminology of sin spelt Syn and encourages members to frame weight loss in salvific terms These theological tropes lurk in the background helping to align food once more with guilt and moral weakness but they also mirror to an extent the way body policing techniques in Christianity have historically helped to cultivate self care The self breaking and self making aspects of women s Syn watching

practices in the group continue certain features of historical Christianity serving in similar ways to conform women's bodies to patriarchal norms while providing opportunities for women's self development Taking into account these tensions Bacon asks what a specifically feminist theological response to weight loss might look like If ideas about sin and salvation service hegemonic discourses about fat while also empowering women to shape their own lives how might they be rethought to challenge fat phobia and the frenetic pursuit of thinness As well as naming as sin principles and practices which diminish women's appetites and bodies this book forwards a number of proposals about how salvation might be performed in our everyday eating habits and through the cultivation of fat pride It takes seriously the conviction of many women in the group that food and the body can be important sites of power wisdom and transformation but channels this insight into the construction of theologies that resist rather than reproduce thin privilege and sizeist norms

The 'Fat' Female Body S. Murray, 2008-09-30 Investigating the current interest in obesity and fatness this book explores the problems and ambiguities that form the lived experience of fat women in contemporary Western society Engaging with dominant ideas about fatness and analysing the assumptions that inform anti fat attitudes in the West The Fat Female Body explores the moral panic over the obesity epidemic and the intersection of medicine and morality in pathologising fat bodies It contributes to the emerging field of fat studies by offering not only alternative understandings of subjectivity the re production of public knowledge's of fatness and politics of embodiment but also the possibility of re reading fat bodies to foster more productive social relations

Rethinking Feminist Phenomenology Sara Cohen Shabot, Christinia Landry, 2018-10-05 Although feminist phenomenology is traditionally rooted in philosophy the issues with which it engages sit at the margins of philosophy and a number of other disciplines within the humanities and social sciences This interdisciplinarity is emphasised in the present collection Rethinking Feminist Phenomenology focuses on emerging trends in feminist phenomenology from a range of both established and new scholars It covers foundational feminist issues in phenomenology feminist phenomenological methods and applied phenomenological work in politics ethics and on the body The book is divided into three parts starting with new methodological approaches to feminist phenomenology and moving on to address popular discourses in feminist phenomenology that explore ethical and political embodied and performative perspectives

Gender in the Digital Sphere Barbara Mitra, Sharon Young, Mehreen Mirza, 2024-03-12 The digital sphere especially social media is perceived as a new form of public sphere where individuals can share and circulate information and participate in formal and informal democratic processes albeit in the context of echo chambers and confirmation biases Gender in the Digital Sphere explores how we represent express and engage with the digital world via the lens of gender Each chapter touches on one of the three pillars of engagement expression or representation in relation to the digital world and themes range from social media body image and identity to feminist activism to gender and digital narratives The contributors raise important questions about the impact of digital media in everyday life and make connections between theory and everyday accounts of gender and technology
