Seeking Peace in El Salvador D. Negroponte, 2012-01-17 The resolution of the civil war in El Salvador coincided with the end of the Cold War After two years of negotiations and a decade long effort to implement the peace accords this work examines how peace was made and whether it has endured

Research Handbook on Child Migration Jacqueline

Bhabha, Jyothi Kanics, Daniel Senovilla Hernández, 2018-08-31 The scope and complexity of child migration have only recently emerged as a critical factors in global migration This volume assembles for the first time a richly interdisciplinary body of work drawing on contributions from renowned scholars eminent practitioners and prominent civil society advocates from across the globe and from a wide range of different mobility contexts Their invaluable pedagogical tools and research documents demonstrate the urgency and breadth of this important new aspect of international human mobility in our global age

The International Dimensions of Internal Conflict Michael Edward Brown, 1996 Internal conflicts threaten many countries and regions globally The first part of this book examines the sources of internal conflicts and the ways these may affect neighbouring states and the international community The second part covers specific problems policy instruments and key actors

Taking Power John Foran, 2005-11-17 Taking Power analyzes the causes behind some three dozen revolutions in the Third World between 1910 and the present It advances a theory that seeks to integrate the political economic and cultural factors that brought these revolutions about and links structural theorizing with original ideas on culture and agency It attempts to explain why so few revolutions have succeeded while so many have failed The book is divided into chapters that treat particular sets of revolutions including the great social revolutions of Mexico 1910 China 1949 Cuba 1959 Iran 1979 and Nicaragua 1979 the anticolonial revolutions in Algeria Vietnam Angola Mozambique and Zimbabwe from the 1940s to the 1970s and the failed revolutionary attempts in El Salvador Peru and elsewhere It closes with speculation about the future of revolutions in an age of globalization with special attention to Chiapas the post September 11 world and the global justice movement

Enrique Alvarez Cordova John W. Lamperti, 2006-04-04 Enrique Alvarez Cordova was the son of one of El Salvador's ruling families Intelligent charismatic and above all wealthy he had nothing to gain and a great deal to lose by courting revolution Yet this young man with all the advantages did just that Impressed by the poverty and miserable existence of the rural population Alvarez set about making a change He spent most of his adult life working for reform within the constraints of the existing system serving as minister of agriculture under three governments He turned his own ranch El Jobo into a successful workers cooperative to convince the ruling class that agrarian reform was possible and even profitable In the end however he found that fundamental change was simply beyond the reach of such efforts Embracing armed struggle as a last resort he ultimately became one of the revolution's first casualties Centering on El Salvador's political landscape this biography details the life of one of the nation's little known revolutionaries The body examines the motivations behind Alvarez's choice to become a traitor to his class and embrace political reform first through his work within the government itself and later as president of the Democratic Revolutionary Front FDR the country's primary radical movement Through this lens the work also describes El Salvador's political evolution illuminating the country's internal situation during the 1970s and early 1980s The government condoned assassination of Alvarez and five of his FDR colleagues in November 1980 ended the last hope of avoiding an armed conflict Within two months of the assassinations El Salvador was plunged into

a civil war that would last for the next 11 years Other than a few official legal documents the work is compiled from interviews and testimony of those who knew Enrique Alvarez Cordova thus providing a contemporary firsthand perspective The work is also indexed The Legacies of Liberalism James Mahoney,2003-04-01 Winner of the Barrington Moore Jr Prize for the Best Book in Comparative and Historical Sociology from the American Sociological Association Winner of the Best Book Award in the Comparative Democratization Section from the American Political Science Association Despite their many similarities Central American countries during the twentieth century were characterized by remarkably different political regimes In a comparative analysis of Guatemala El Salvador Costa Rica Honduras and Nicaragua James Mahoney argues that these political differences were legacies of the nineteenth century liberal reform period Presenting a theory of path dependence Mahoney shows how choices made at crucial turning points in Central American history established certain directions of change and foreclosed others to shape long term development By the middle of the twentieth century three types of political regimes characterized the five nations considered in this study military authoritarian Guatemala El Salvador liberal democratic Costa Rica and traditional dictatorial Honduras Nicaragua As Mahoney shows each type is the end point of choices regarding state and agrarian development made by these countries early in the nineteenth century Applying his conclusions to present day attempts at market creation in a neoliberal era Mahoney warns that overzealous pursuit of market creation can have severely negative long term political consequences The Legacies of Liberalism presents new insight into the role of leadership in political development the place of domestic politics in the analysis of foreign intervention and the role of the state in the creation of early capitalism The book offers a general theoretical framework that will be of broad interest to scholars of comparative politics and political development and its overall argument will stir debate among historians of particular Central American countries **Repression, Resistance, and Democratic Transition in Central America** Latin American Studies Association. International Congress,2000 For Central America the last third of the 20th century was a time of dramatic change in which most countries shifted from dictatorships to formal political democracy This study demonstrates how revolt and revolution served as the motors of political change in Central America The book examines the various ways in which democratic transition has taken place all of which have been distinct from countries in South America where democratization was relatively sudden and peaceful It analyzes the major forces shaping change in the region and provides the recent political history of all six Central American countries Nicaragua El Salvador Guatemala Honduras Costa Rica and Panama Each country s particular transition should add to the reader s understanding of democratization
