Revolution Of Spirit Ecumenical Theology In Global Context:

Revolution of the Spirit, 1998 **Revolution of Spirit** Nantawan Boonprasat-Lewis, 1998 This collection of essays written in honor of Princeton scholar Richard Shaull reflects Shaull's desire to conceive an ecumenical theology that is respectful of cultures sensitive to historical context and critical of forces that marginalize people's lives o **Contextual Theology and Revolutionary Transformation in Latin America** Angel D. Santiago-Vendrell, 2010-06-01 U S audiences know Latin American liberation theologies largely through translations of Latin American Catholics from the 1970s and beyond Most of the few known Protestant authors were students of Richard Shaull whose critical thinking on social change prophetic Christianity and dialogue with Marxism and Christian use of Marxist analysis precedes the emergence of the formal schools of liberation theology by two decades His own education at Princeton and the education he provided in Brazil charts the course of Protestant influences into this stream of theological reflection that became a global phenomenon in the latter decades of the twentieth century Also Shaull's career roughly parallels the emergence of the World Council of Churches and the engagement of the Catholic Church in Latin America and around the world after the Second Vatican Council He himself was engaged and became the flash point in some of the major conferences movements and institutions of the 1960s and beyond Santiago Vendrell documents the entrance of the ecumenical movement in Brazil among the most dramatic transformations in Catholic Protestant relations around the globe as well as Shaull's role in that development Along the way he notes Shaull's prophetic and destabilizing role in the worldwide student movement in the 60s and 70s charting decisions that mark the ecumenical movement Shaull's contributions are important for an understanding of the ethical debates in the worldwide ecumenical Protestant and Orthodox communities Santiago Vendrell examines primary secondary and historical documents that shine a light on Shaull's transformation into a contextual theologian of the poor He offers a definitive view of this North American Protestant missionary who wrote extensively on Latin American liberation theology the base Christian communities and how conversion to solidarity with the poor offers transforming possibilities for the mainline churches theological identity and practical faith *Terror in the Land of the Holy Spirit* Virginia Garrard-Burnett, Virginia Garrard, 2010-01-15 Between 1982 and 1983 in the name of anti communism the military government of Guatemala prosecuted a scorched earth campaign of terror against largely Mayan rural communities Under the leadership of General Efraín Ríos Montt tens of thousands of people perished in what is now known as la violencia or the Mayan holocaust Ríos Montt Guatemala's president by coup was and is an outspokenly born again Pentecostal Christian a fact that would seem to be at odds with the atrocities that took place on his watch Virginia Garrard Burnett's book is the first in English to view the Ríos Montt era through the lens of history Drawing on newly available primary sources such as guerrilla documents evangelical pamphlets speech transcripts and declassified US government records she is able to provide a fine grained picture of what happened during Ríos Montt's rule Looking back over Guatemalan history between 1954 and the late 1970s

she finds that three decades of war engendered an ideology of violence that cut across class cultures communities religions and even families Many Guatemalans converted to Pentecostalism during this period she says because of the affinity between these churches apocalyptic message and the violence of their everyday reality Examining the role of outside players and observers The US government evangelical groups and the media she contends that self interest willful ignorance and distraction permitted the human rights tragedies within Guatemala to take place without challenge from the outside world

Emerging Theologies from the Global South Mitri Raheb, Mark A. Lamport, 2023-03-29 In recent decades there has been a seismic shift in world Christianity Whereas formerly Christianity existed as a Caucasian Euro American phenomenon the majority of Christians today reside in the Southern Hemisphere or the Global South And what is true for the demographics of Christianity has followed lockstep for its theological developments The era of German theologians setting the tone for global church are gone Today some of the loudest and most creative voices in theology speak from the emerging contingencies of the Global South for example promoting Latinx Black Caribbean and Asian theologies and their influence often influences the conversation in the United States and Europe In addition just as the center of Christianity has moved geographically from north to south so with theological seminaries in the west which have declined as training centers for clergy These events coincide with new theological centers are opening in Asia Africa Oceania and Latin America The bottom line is contemporary Christianity today looks significantly different than it did a century ago and publications have been slow to acknowledge let alone describe and elaborate upon this major shift to the largest religion in the world These shifts guide our intentions in this book Such a reference book which could also be used as a textbook therefore is very much needed In fact there is nothing like the contents of this single volume book in the publishing market which allows for high quality interdisciplinary and international dialogue

Re-Enchanting the World C. Mathews Samson, 2007-07 In considering the interplay between contemporary Protestant practice and native cultural traditions among Maya evangelicals this work documents the processes whereby some Maya have converted to different forms of Christianity and the ways in which the Maya are incorporating Christianity for their own purposes

Reforming the Doctrine of God F. LeRon Shults, 2005-11 Linking traditional attributes of God with contemporary philosophy F LeRon Shults culminates with a reformed doctrine of God that revolves around themes of God's omniscient faithfulness omnipotent love and omnipresent hope

Mapping Systematic Theology in Africa Ernst M Conradie, Charl E Fredericks, 2004-08-01 The emergence of an indigenous African theology especially since the 1960s is well documented A wealth of literature has been published in the context of African theology especially over the last two or three decades This indexed bibliography contains a number of publications in and for the African context specifically relevant to the fields of systematic theology and ethics

The Broken Whole Thomas E. Reynolds, 2006-06-01 Considers the problem of pluralism and offers a vision of human solidarity for the postmodern era

New Faces of God in Latin America Virginia Garrard, 2020-11-03 Combining historical and ethnographic research methods along with a thorough review of

existing literature on the study of Latin American Christianity *New Faces of God in Latin America* addresses the important question of how global religion and local culture interact situating the experience of Latin American Christianity in the broader conversations in the field of world Christianity particularly with respect to the growing understanding of Christianity as a non Western religion Through case studies of different Pentecostal experiences in Latin America Virginia Garrard explores cross pollination and interaction with indigenous religions and cultures finding widely varied responses to the material and spiritual needs of Latin Americans The author locates Latin American religious experience within a field known as the history of non Western Christianity This focuses on the experience perceptions and adaptations of those who adopt Christianity outside the context of Western missionary or other colonizing projects The book engages with the intersection of culture and spirit filled religion with an eye to how those interactions help frame an alternative religious modernity Throughout the book the author uses culture as both a heuristic lens and as a variable within the equation She argues that culture helps us understand how people engage with and reconfigure global religious flows within their own imaginations and for their own parochial uses
